metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401050 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401060 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401070 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401080 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401090 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401100 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401110 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401120 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401130 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401140 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401150 information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the 0401990

The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0402020

The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0402030

The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0402040

The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0402990

The European Food Safety Authority identified some information on analytical methods and crop metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0840040

The applicable maximum residue level for horseradish (Armoracia rusticana) in the spice group (code 0840040) is the one set for horseradish (Armoracia rusticana) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

1000000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1010000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1011990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1012990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1013990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1014990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1015990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1016990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017050

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1017990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020020

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1020990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1030000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1030010

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1030030

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1030040

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1030990

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1040000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1050000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1060000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

1070000

The European Food Safety Authority identified some information on anlytical method for ruminants, metabolism study for ruminants and a livestock feeding study, depending on the results from the ruminant metabolism, as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

## Bifenthrin (sum of isomers) (F)

(F) = Fat soluble

0130010

The European Food Safety Authority identified some information on residue trials as unavailable. When reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0130020

The European Food Safety Authority identified some information on residue trials as unavailable. When reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0140020

The European Food Safety Authority identified some information on residue trials as unavailable. When reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0140030

The European Food Safety Authority identified some information on residue trials as unavailable. When reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0140040	The European Food Safety Authority identified some information on residue trials as unavailable. When reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0152000	The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014010	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014020	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014030	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014040	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014050	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1014990	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1017000	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1017010	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1017020	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1017030	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
1017040	The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after

publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information 1017050 referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on analytical methods and magnitude of residues as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

## Cinidon-ethyl

The applicable maximum residue level for horseradish (Armoracia rusticana) in the spice group (code 0840040) is the one set for horseradish (Armoracia rusticana) in the Vegetables category, root and tuber 0840040 vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

## Fenpropimorph (sum of isomers) (R)

(R) = The residue definition differs for the following combinations pesticide-code number: Fenpropimorph - 1000000 except 1040000: "Sum of fenpropimorph and fenpropimorph carboxylic acid (BF 421-2); expressed as fenpropimorph (sum of isomers)" (F)

(F) = Fat soluble

The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, 0152000 if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

> The European Food Safety Authority identified some information on residue trials and storage stability data complying with the proposed residue definition as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on storage stability data complying with the proposed residue definition as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

The European Food Safety Authority identified some information on residue trials and storage stability data complying with the proposed residue definition as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
