SCHEDULE

GENERAL EXPLANATORY NOTE:

[] Words in bold type in square brackets indicate omissions from existing regulations Words underlined with a solid line indicate insertions in existing regulations.

Definitions

1. In these Regulations "the Regulations" means the Regulations published by Government Notice No. R. 214 of 20 March 2013.

Amendment of regulation 1

- 2. Regulation 1 of the Regulations is hereby amended by-
- (a) the substitution of the definition of 'processed meats' for the following definition:

"'processed meats' for the purpose of these Regulations means processed meat products in classes 6, [7], 9, 10, 11 [,12] and 13 [14] of the South African National Standard SANS 885:2011, edition 3 or any future revision thereof, that has undergone any action that substantially altered its original state (including, but not limited to, heating, smoking, curing, [fermenting,] maturing, drying, marinating, [drying,] extraction or extrusion or any combination of these processes), but excludes-

- (a) raw processed meat sausages or similar products;
- (b) 'Protected Designation of Origin' products;
- (c) 'Protected Geographical indication' products, e.g., Mortadella;
- (d) "Traditionally speciality guaranteed" products; and
- (e) speciality products produced using traditional methods such as immersion and dry cured processes."

(b) the substitution of the definition of 'ready-to-eat savoury snacks' for the following definition:

"'ready-to-eat savoury snacks' means all savoury flavoured extruded / expanded or puffed snacks made from potato, corn, rice or other cereals, [savoury, flavoured snacks made from pellets,] savoury flavoured popcorn, filled and unfilled savoury biscuits, flavoured and/or salted peanuts [and pretzels], excluding potato crisps, pretzels and savoury flavoured snacks made from pellets;"

Amendment of Regulation 2

Regulation 2 is hereby amended by the substitution of Table 1 for the following Table:

Substitution of regulation 3

- Regulation 3 of the Regulations is hereby substituted for the following regulation:
 - "(1) For all foodstuff categories, suitable sodium potentiometric method or elemental analysis, with either flame atomic absorption spectroscopy or inductively coupled plasma, for determining typical total sodium content which shall be applied for monitoring and law-enforcement purposes; provided that these methods may also be used for routine testing or for the purpose of nutritional information labelling of the typical total sodium content by manufacturers.
 - (2) The permitted tolerance for nutrient declaration in the labelling of sodium where no claim with a nutrition or health message is made, shall be not more than 20% in excess of the targeted sodium value, based on the product formulation or recipe; Provided that where a claim with any nutrition or health message is made, the sodium value shall be at or below the sodium targets set out in these Regulations."

Substitution of regulation 4

5. Regulation 4 of the Regulations is hereby substituted for the following regulation:

"Effective dates

4. These Regulations, for the purposes of sodium content monitoring and the law enforcement thereof, shall come into effect on the dates listed in column IV of Table 1 when these foodstuffs are offered for sale on or after the mentioned dates."
