CHAPTER 312 INDUSTRIAL DESIGNS ACT

An Act to provide for the registration and protection of industrial designs, and for related matters.

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the House of Assembly of Saint Vincent and the Grenadines and by the authority of the same, as follows.

[Act No. 20 of 2005.]

[Date of commencement: *4th August*, 2008.]

1. Short title and commencement

- (1) This Act may be cited as the Industrial Designs Act, 2005.

(2) This Act shall come into force on a date to be fixed by the Governor-General by Proclamation published in the *Gazette*.

2. Interpretation

In this Act—

“**attorney-at-law**” means a person duly admitted and entitled to practise law in Saint Vincent and the Grenadines;

“**Court**” means the High Court;

“**International Classification**” means the classification according to the Locarno Agreement of October 8, 1968, establishing an International Classification for Industrial Designs;

“**Minister**” means the Minister responsible for intellectual property;

“**Paris Convention**” means the Paris Convention for the Protection of Industrial Property of March 20, 1883, as last revised;

“**priority date**” means the date of the earlier application that serves as the basis for the right of priority provided for in the Paris Convention;

“**Register**” means the Register of Industrial Designs;

“**Registrar**” means the Registrar of the Commerce and Intellectual Property Office and any reference to the Registrar shall be construed as including a reference to any officer discharging the functions of the Registrar.

3. Definition of industrial design

(1) For the purposes of this Act, a composition of lines or colours, a three-dimensional form or a material, whether or not associated with lines or colours, is deemed to be an industrial design where such composition, form or material gives a special appearance to a product of industry or handicraft, can serve as a pattern for a product of industry or handicraft and appeals to and is judged by the eye.

(2) The protection under this Act does not apply to anything in an industrial design which serves solely to obtain a technical result and to the extent that it leaves no freedom as regards arbitrary features of appearance.

4. Registrable industrial designs

(1) An industrial design is registrable if it is new.

(2) An industrial design is new if it has not been disclosed to the public anywhere in the world by publication in tangible form or by use or in any other way, prior to the filing date or, where applicable, the priority date of the application for registration.

(3) For the purposes of subsection (2), disclosure to the public of an industrial design shall not be taken into consideration if the disclosure—

(a) occurred within twelve months preceding the filing date or, where applicable, the priority date of the application; and

(b) was by reason or in consequence of acts committed by the applicant or his predecessor in title or of an abuse committed by a third party with regard to the applicant or his predecessor in title.

(4) An industrial design that is contrary to public order or morality is not registrable.

5. Right to registration and naming of creator

(1) The right to registration of an industrial design shall belong to the creator.

(2) Where two or more persons have jointly created an industrial design, the right to registration of the industrial design shall belong to them jointly.

(3) If and to the extent to which two or more persons have created the same industrial design independently of each other, the person whose application has the earliest filing date or, if priority is claimed, the earliest validly claimed priority date, shall have the right to register the industrial design, as long as the said application is not withdrawn, abandoned or rejected.

(4) The right to an industrial design may be assigned or may be transferred by succession.

(5) Where an industrial design is created in execution of an employment contract, the right to registration of the industrial design shall belong, in the absence of contractual provisions to the contrary, to the employer.

(6) The creator shall be named as the creator in the registration of the industrial design unless he indicates to the Registrar in a written declaration signed by him and addressed to the Registrar that he wishes not to be so named.

(7) A promise or undertaking by the creator made to a person to the effect that he will make a declaration referred to in subsection (6) shall be without legal effect.

6. Application and right of priority

(1) An application for the registration of an industrial design shall be filed with the Registrar and shall contain a request, drawings, photographs or other adequate graphic representations of the article embodying the industrial design and an indication of the kind of product for which the industrial design is to be used.

(2) The application may be accompanied by a specimen of the article embodying the industrial design where the industrial design is two-dimensional.

(3) Where the applicant is not the creator, the request shall be accompanied by a statement justifying the applicant's right to registration of the industrial design.

(4) The application may contain a declaration claiming priority, as provided for in the Paris Convention, of one or more earlier national or regional applications or international deposits filed by the applicant or his predecessor in title in or for any State party to that Convention.

(5) Where the application contains a declaration referred to in subsection (4), the Registrar may require that the applicant furnish, within the prescribed time limit, a copy of the earlier application or international deposit, certified as correct by the office with which it was filed, and the effect of that declaration shall be as provided for in the Paris Convention.

(6) Where the Registrar finds that the requirements under this section and the Regulations pertaining to a declaration are not fulfilled, the declaration shall be considered not to have been made.

(7) Two or more industrial designs may be the subject of the same application if they relate to the same class of the International Classification or to the same set or composition of articles.

(8) An application, at the time of filing, may contain a request that the publication of the industrial design, upon registration, be deferred for a period not exceeding twelve months from the date of filing, or if priority is claimed, from the date of priority, of the application.

(9) The applicant may withdraw the application at any time before it is registered.

(10) The application shall be subject to the payment of the prescribed application fee.

7. Examination

(1) The Registrar shall accord as the filing date the date of receipt of the application provided that at the time of receipt, the application contains indications allowing the identity of the applicant to be established and the required graphic representations of the article embodying the industrial design.

(2) Where the Registrar finds that the application did not at the time of receipt fulfil the requirements referred to in subsection (1), he shall invite the applicant to file the required correction and shall accord as the filing date the date of receipt of the required correction, but if no correction is made the application shall be treated as if it had not been filed.

(3) After according a filing date, the Registrar shall examine the application for compliance with the requirements of section 6 and ascertain that the prescribed fee has been paid.

(4) The Registrar shall examine whether the industrial design complies with the provisions of sections 3 and 4(4).

8. Registration and publication

(1) Where the Registrar is satisfied that the application complies with the requirements of sections 3 and 4(4), he shall register the industrial design, publish a reference to the registration and issue to the applicant a certificate of registration of the industrial design.

(2) Where a request for deferment of publication has been made under section 6(8), no representation of the design or any file relating to the application shall be open to the public for inspection and the Registrar shall publish a notice of deferment which shall contain information identifying the registered owner, the filing date of the application, the length of time for which deferment has been requested and any other particulars as may be prescribed.

(3) During the period of deferment of publication, legal proceedings on the basis of a registered industrial design may not be instituted unless the information contained in the Register and in the file relating to the application has been communicated to the person against whom the action is brought.

(4) At the expiry of the period of deferment, the Registrar shall publish the registered industrial design.

9. Rights conferred by registration

(1) The exploitation of a registered industrial design in Saint Vincent and the Grenadines by persons other than the registered owner shall require the agreement of the registered owner.

(2) For the purposes of this Act, “**exploitation**” of a registered industrial design means the making, selling, importing or otherwise distributing, for commercial purposes, articles bearing or embodying a design which is a copy, or substantially a copy, of the industrial design.

(3) The rights conferred by registration shall not extend to acts in respect of articles which have been put on the market in Saint Vincent and the Grenadines by the registered owner or with his consent.

(4) The owner of a registered industrial design shall, in addition to any other rights, remedies or actions available to him, have the right to institute court proceedings against any person who infringes the registration of the industrial design by performing, without his agreement, any of the acts referred to in subsection (2) or who performs acts which make it likely that infringement will occur.

10. Duration and renewal of registration

(1) The registration of an industrial design shall be for a period of five years from the filing date of the application for registration.

(2) The registration may be renewed for one further consecutive period of five years through the payment of the prescribed fee.

(3) A grace period of six months shall be allowed for the late payment of the renewal fee on payment of the prescribed surcharge.

11. Surrender of registration

(1) The owner of a registered industrial design may surrender it by written declaration to the Registrar who shall record the surrender in the Register and publish it.

(2) The surrender shall have effect from the date on which it is recorded.

12. Invalidation of registration

(1) An interested person may apply to the Court for the invalidation of the registration of an industrial design.

(2) The Court shall invalidate the registration of an industrial design if the person requesting the invalidation proves that any of the requirements of sections 3 and 4 are not fulfilled or if the registered owner of the industrial design is not the creator or successor in title.

(3) An invalidated registration of an industrial design, or part thereof, shall be regarded as void from the date of the registration.

(4) The decision of the Court or the decision on an appeal therefrom shall be notified to the Registrar who shall record it and publish a reference to it as soon as possible thereafter.

13. Changes in ownership

(1) A change in the ownership of the registration of an industrial design, or in the ownership of an application for registration of an industrial design, shall be in writing and shall, upon the request of an interested party made to the Registrar, be recorded and, except in the case of an application for registration of an industrial design, published by the Registrar.

(2) A change under subsection (1) shall be of no effect against third parties until it has been recorded.

14. Licence contracts

(1) Subject to this section, the owner of a registered industrial design or an application for registration of an industrial design may grant licences in respect of the design.

(2) A copy of each licence contract concerning a registered industrial design, or an application for registration of an industrial design, shall be submitted to the Registrar who shall keep its contents confidential but shall record it and publish a reference thereto.

(3) A licence contract shall have no effect against third parties until it is recorded in accordance with subsection (2).

15. Register and publication

(1) The Registrar shall maintain a Register in which he shall record all matters required by this Act to be recorded.

(2) The Register may be consulted by any person and any person may obtain extracts therefrom under the prescribed conditions.

(3) The Registrar shall publish in the prescribed manner all the publications provided for in this Act.

16. Correction of errors

The Registrar may, subject to any provision in the Regulations, correct any error of translation or transcription, clerical error or mistake in any application or document filed with the Registrar or in any matter recorded pursuant to this Act.

17. Extension of time

(1) Where the Registrar is satisfied that the circumstances justify it, he may, upon receiving a written request, extend the time for doing any act or taking any proceeding under this Act, upon notice to the parties concerned and upon such terms as he may direct.

(2) The extension may be granted though the time for doing the act or taking the proceeding has expired.

18. Exercise of discretionary powers

The Registrar shall, before exercising any discretionary power vested in him by this Act adversely to any party to a proceeding before him, give that party an opportunity to be heard.

19. Representation

Where an applicant's ordinary residence or principal place of business is outside Saint Vincent and the Grenadines, he shall be represented by an attorney-at-law.

20. Competence of Court

(1) The Court shall have jurisdiction in cases of dispute relating to the application of this Act and in matters which under this Act are to be referred to the Court.

(2) Any decision taken by the Registrar under this Act, in particular the decision to register an industrial design or to refuse an application for such a registration, may be the subject of an appeal by any interested party to the Court and such appeal shall be filed within two months of the date of the Registrar's decision.

21. Infringement and offences

(1) Subject to section 9(3), an infringement of the rights of an owner of a registered industrial design shall consist of the performance in Saint Vincent and the Grenadines of any act referred to in section 9(2) by a person other than the owner of the registered industrial design and without the agreement of the owner of the registered industrial design.

(2) On the request of the owner of the registered industrial design, or of a licensee if the licensee has requested the owner to institute court proceedings for a specific relief and the owner has refused or failed to do so, the Court may grant an injunction to prevent infringement or an imminent infringement, award damages or grant any other remedy provided for in the general law.

(3) A person who intentionally performs an act which constitutes an infringement as defined in subsection (1) commits an offence and is liable on summary conviction to a

fine not exceeding five thousand dollars or to imprisonment for a term not exceeding four years.

22. Regulations

The Minister may make Regulations prescribing all matters that are required or permitted by this Act to be prescribed, or are necessary or convenient to be prescribed for giving effect to the provisions of this Act.

23. Repeals

The United Kingdom Designs (Protection) Act (hereinafter referred to as “the former Act”) is hereby repealed.

[Chapter 116 of the Revised Laws 1990 Edition.]

24. Transitional provisions

(1) Notwithstanding the repeal of the former Act, industrial designs protected thereunder shall remain in force but shall, subject to subsection (2), be deemed to be protected under this Act.

(2) Industrial designs protected under the former Act shall remain in force for the unexpired portion of the period of protection provided for under the former Act.

INDUSTRIAL DESIGNS REGULATIONS

In exercise of the powers conferred by section 22 of the Industrial Designs Act, No. 20 of 2005, the Minister makes the following Regulations.

[SRO 13 of 2009.]

[Date of commencement: *8th July*, 2009.]

1. Citation

These Regulations may be cited as the Industrial Designs Regulations, 2009.

2. Interpretation

In these Regulations—

“**applicant**” means a person for whom an application is made;

“**application**” means an application for the registration of an industrial design;

“**office**” means the Commerce and Intellectual Property Office;

“**principal Act**” means the Industrial Designs Act.

[Chapter 312.]

3. Fees

The fees that are to be paid under the principal Act and these Regulations are specified in the First Schedule.

4. Currency

Payments shall be made in Eastern Caribbean currency.

5. Excess fee

When a fee that is paid by a person to the Registrar for any purpose exceeds the fee fixed by these Regulations for that purpose by more than ten dollars, the person who paid the fee is entitled to be refunded the amount of excess less ten dollars.

6. Fee refund

When a fee is paid to the Registrar by any person by mistake for an application that is withdrawn before it is given an application number, or for a service that cannot be provided, the person who paid the fee is entitled to a refund of the fee less twenty-five dollars, if he claims the refund within one year of the payment of the fee.

7. Refund of advance fee

When a person pays a fee in advance for registration, he is entitled to a refund of the fee, less fifteen dollars, if the application is withdrawn.

8. Cheques

A payment of a fee by cheque may be accepted by the Registrar as being a payment of the fee when the cheque is received by him, but if the cheque is not paid when presented to the bank on which it is drawn and not made good within such time as the Registrar may fix, the acceptance of the fee is revoked and any thing done pursuant to the payment is void and, if appropriate, shall be so recorded in the Register.

9. Form required

(1) In submitting a document to the Registrar for any purpose, the person submitting the document shall use the form set out in the Second Schedule that is appropriate for the purpose, but the form may be modified in such manner as is necessary in the circumstances.

[Second Schedule.]

(2) In submitting a document to the Registrar, one copy only of the document need be submitted.

10. Replacing documents

If a document that is submitted to the Registrar differs significantly from the form in the Second Schedule intended to be used for the purpose of the submission, the Registrar may require that the document be replaced, within a time fixed by the Registrar, by one that conforms to the document required by the Second Schedule to be used for the purpose.

11. Paper requirements

(1) All applications, notices, statements, papers having representations affixed, or other documents authorised or required by the principal Act or these Regulations to be made, left or sent to the Registrar shall be on strong, durable white paper and, except in the case of statutory documents and affidavits, shall be written on one side of the paper only.

(2) Each sheet that is not a graphic representation shall have its short sides at the top and bottom.

(3) Each sheet shall be of the same size and on A-4 paper or such other size as the Registrar may permit.

12. Page requirements

(1) The pages of documents, other than graphic representations shall be numbered consecutively, preferably at the top of the page.

(2) Page margins shall be not less than two centimetres.

(3) Except for graphic representations, pages shall be typed or printed, preferably with one and a half spacing or double spacing.

13. Language of documents

(1) An application shall be in English.

(2) The Registrar may refuse to take cognisance of any document that is not in English until he is provided with a translation verified by affidavit.

14. Graphics requirements

The graphic representations in an application shall meet the following requirements—

(a) the representations are to be on white paper or other material suitable for reproduction;

(b) the sheets of representations are to be the same size as those used in the application;

(c) the representations are to be prepared in durable dark lines suitable for reproduction;

(d) the representations are to appear on only one side of a sheet;

(e) the representations are to be on a scale sufficiently large to show the features of the design clearly;

(f) figures in a representation are to be numbered consecutively without regard to the number of sheets in the representation and so far as possible the figures are to be arranged in numerical order; and

(g) figures in a representation can be continued on subsequent sheets if necessary or several figures can appear on the same page.

15. Folds, breaks

Graphic representations in an application shall be free of such folds, breaks or creases as render them unsuitable for reproduction.

16. Photographs

Photographs of an article taken against a neutral background may be used in an application instead of graphic representations if the photographs clearly illustrate the design and can be readily reproduced.

17. Specimens

(1) A specimen shall not exceed one kilogram in weight or thirty centimetres in any dimension.

(2) The Registrar may require that a graphic representation or a photograph be provided instead of a specimen when the size and weight of the specimen makes it difficult to process and store it.

(3) Specimens that are perishable or made of dangerous material shall not be submitted to the Registrar.

18. Communicating with Registrar

Applications, correspondence related thereto, and all communications intended for the Registrar shall be mailed to or deposited at the Commerce and Intellectual Property Office, Saint Vincent and the Grenadines.

19. Mode of communication

(1) Applications shall be proceeded with, and other communication with the Registrar effected by written correspondence; and, unless the Registrar for good reason decides otherwise, no regard need be given to any other mode of communication with the Registrar.

(2) When communicating with the Registrar about an application or registered design, the correspondent shall identify the application or registration clearly, giving such information as the date of filing, kind of product, name of applicant and registration number.

20. Communication from Registrar

All correspondence from the Registrar to an applicant shall be sent—

- (a) to the agent of the applicant if an agent resident in Saint Vincent and the Grenadines has been appointed;
- (b) if no agent has been appointed in Saint Vincent and the Grenadines, to the address for service of the applicant in Saint Vincent and the Grenadines; or
- (c) to the applicant, if no agent has been appointed in Saint Vincent and the Grenadines to represent the applicant and the applicant has no address for service filed in the Office.

21. Multiple applicants

When, in respect of an application, there is more than one applicant, correspondence shall be conducted—

- (a) with the applicants' agent in Saint Vincent and the Grenadines if an agent resident in Saint Vincent and the Grenadines has been named to represent all the applicants;
- (b) with an applicant resident in Saint Vincent and the Grenadines who has been nominated to represent all the applicants, if no agent resident in Saint Vincent and the Grenadines has been appointed;
- (c) with the first applicant named in the application, if there is neither an agent resident in Saint Vincent and the Grenadines nor an applicant resident in Saint Vincent and the Grenadines who has been appointed to represent the applicants.

22. Limited correspondents

The Registrar shall conduct correspondence concerning an application with only one person, but having regard to regulations 20 and 21.

23. Address and presumption

A person who corresponds with the Registrar shall provide his full postal address, and any correspondence sent by the Registrar to that person at the address so provided shall be deemed to be sent on the date that the records of the Office show it to have been sent.

24. Address for service

A licensee and a person who is shown on the Register as the owner of a design shall maintain an address for service in Saint Vincent and the Grenadines and provide the Registrar with notice of that address for recording in the Register.

25. Filing time

Any correspondence with the Registrar that is due on any day on which the Office is closed for business shall be accepted as properly filed if it is received on the next day that the Office is open for business.

26. Replacement of correspondence

The Registrar may accept or send out replacing correspondence if he is satisfied that mail to or from the Office was sent but never received and the effective date of the replacing correspondence is any date that the Registrar determines shall apply.

27. Interruptions of mail

Where, by evidence satisfactory to the Registrar, a person proves that he was unable to do anything within the time prescribed by the principal Act or these Regulations because of an interruption in mail service in Saint Vincent and the Grenadines or elsewhere, the Registrar may, before or after the expiration of the time for doing that thing, extend the time to make allowances for the period of the interruption in mail service.

28. Fixing time limits

The Registrar may, in respect of an application, fix a period of time for the doing of anything for which no time limit is otherwise fixed by the principal Act or these Regulations and an application shall be deemed abandoned if, in respect of that application, the thing is not done within the time so fixed.

29. Changing time limits

When, by an affidavit setting out the relevant facts, the Registrar is satisfied that any time fixed by these Regulations for the doing of any thing should be extended in a particular case, the Registrar may, either before or after the expiration of the time, extend it for such period as he thinks suitable in the circumstances of the case.

30. Withdrawal of joint application

When an application that is filed by joint applicants is being proceeded with by one of the joint applicants, it may not be withdrawn without the written permission of all the other joint applicants.

31. Surrender of joint designs

A design registration that is owned by several persons may not be surrendered without the written permission of all the owners of the design.

32. Change of designers' names

When, after an application has been filed, it appears that the names of one or more creators of the design were improperly included in or omitted from the application, then, if the Registrar is satisfied, by an affidavit setting out all the relevant facts, that a correction should be made, the Registrar may delete or add, as the case requires, the names of those other creators.

33. Creators not applying

(1) When a design is created by several persons and one or more of them refuses to make an application in respect of the design, or the whereabouts of one or more of the creators cannot be ascertained after a diligent inquiry, the other creators may make an application in respect of that design.

(2) If the Registrar is satisfied, by an affidavit setting out the relevant facts, that the creators missing from the application refuse to make application or cannot be located, the creators making the application are entitled to register the design if all other requirements of the principal Act and these Regulations are complied with.

34. Correcting errors

A document relating to an application or registration may be corrected if the Registrar is satisfied that the document contains an error of a clerical nature and that its correction would involve no change of substance to the application or registration.

35. Providing for deficiencies

Where no provision is made in the principal Act or these Regulations in respect of any matter arising in the administration of the principal Act, the Registrar may make such directions in respect thereof as he considers necessary.

36. Registrar's certificates

(1) The Registrar may give a certificate other than a certificate under section 8 of the principal Act, regarding any entry, matter or thing that he is authorised or required by the principal Act or these Regulations to make or do.

(2) A person who can show an interest in an entry, matter or thing for which a certificate is required may, by an application in Form 9, request the certificate from the Registrar, and the applicant need not disclose his interest unless required by the Registrar to do so.

37. Inquiries of Office

The Registrar may acknowledge inquiries made to the Office, but the Registrar need not furnish any applicants or other persons with information that would require a search of the public records of the Office or provide advice on matters concerning the interpretation of the principal Act or Regulations or concerning other questions of law.

First Schedule

[Regulation 3.]

Fees

	\$
1. On application for registration— for the first design in the application	100.00

for each additional design	50.00
2. On granting registration of an industrial design—	
for the first design in the application	100.00
for each additional design	50.00
3. On application for a renewal under section 10(1) of the principal Act—	
for the first design in the application being renewed	100.00
for each additional design	20.00
4. On application for copies of records in the register	2.00
	per page
5. On application for the recording of a licence-contract	50.00
6. On application for copies of registrations	2.00
	per page
7. On application that a transfer and assignment of application for registration be recorded	40.00
8. On application that a transfer and assignment of registered design be recorded	40.00
9. On application that a change of address be recorded	15.00
10. For certification of any documents	40.00
11. On application for a change in name to be recorded	15.00
12. On surrender of design	50.00

Whereas a request has been made to the Commerce and Intellectual Property Office for registration of an Industrial Design, particulars of which are attached hereto, and whereas such request has been found to comply with the Industrial Designs Act, 2005, now therefore be it known that said registration has taken place, granting to the owner all the benefits of the Industrial Designs Act. The term of protection afforded by the registration is five years from the day of, 20

Property rights arising from registration are subject to the conditions contained in the Industrial Design Act, and any adjudication of the High Court affecting those rights.

In testimony whereof this document bears the seal of the Commerce and Intellectual Property Office affixed to it at Kingstown.

Sealed this day of in the year
