NOTIFICATION

*Corrigendum**

The following communication, received on 19 December 2013, is being circulated at the request of the Delegation of New Zealand.

Proposals to Amend (No. 2) the New Zealand (Maximum Residue Limits of Agricultural Compounds) Food Standards 2013

Item 6 should read:

6. Description of content: The document contains technical details on proposals to amend the New Zealand (Maximum Residue Limits of Agricultural Compounds) Food Standards 2013.

MPI proposes to add the following new MRLs to the MRL Standards:

- 0.01 mg/kg for chlorpyrifos when used as an insecticide in potatoes
- 0.01 mg/kg for kasugamycin when used as a bactericide in kiwifruit
- 0.01 mg/kg for propiconazole when used as a fungicide in avocados

MPI proposes to exempt the following substance from the MRL Standards:

- Extend the current exemption for benzalkonium chloride to use on avocados and use as bactericide on kiwifruit
- Extend the current exemption for chlorine dioxide to use as a bactericide
- Extend the current exemption for fatty acids of 8 carbons or more in their chains, and their salts to use as a plant growth regulator
- Harpin protein when used as a plant elicitor on horticultural crop
- Oxalic acid when used in beehives
- Extend the current exemption for potassium bicarbonate to use as plant growth regulator
- Soya bean oil when used as a fungicide
- Synthetic latex when used as an anti pod shatter
