**SPS-RELATED TECHNICAL ASSISTANCE PROVIDED BY
THE EUROPEAN UNION IN 2019-2020**

COMMUNICATION FROM THE EUROPEAN UNION

Addendum

The following communication, received on 20 March 2023, is being circulated at the request of the Delegation of the European Union.

-
1. In response to the Secretariat's request in document G/SPS/W/101, the European Union hereby submits the attached lists of technical assistance provided to third countries during 2019-2020, in accordance with Article 9 of the Agreement on the Application of Sanitary and Phytosanitary Measures.
 2. The technical assistance activities were provided by the European Commission (Annex I) and individual EU Member States (MS) (Annex II). They took place at a bilateral, regional or multilateral level, through own initiatives, in conjunction with the Standards and Trade Development Facility (STDF), or under the framework of IPPC and OIE¹. Within the European Commission, different services are involved in the provision of SPS-related technical assistance, namely the European External Action Service, Directorate-General for International Partnerships², Directorate-General for European Neighbourhood Policy and Enlargement Negotiations, Directorate-General for Trade and Directorate-General for Health and Food Safety. In EU Member States, ministries dealing with agriculture, health and related disciplines, or development agencies, lead the efforts in this field.
 3. During 2019-2020, the European Union provided SPS-related technical assistance to more than 80 countries, groups of countries, regional organisations, and international organisations within the framework of over 275 projects. The projects, with budgets ranging from 4 thousand to 30 million euro, covered a wide range of activities including providing long-term experts for technical assistance, training workshops for safer food, and financial support. This list is not an exhaustive compilation of all technical assistance the European Union provided.
 4. The technical assistance was primarily aimed at facilitating the development and implementation of SPS measures in developing countries to enhance their ability to comply with SPS standards in their export markets and take better advantage of the opportunities of global trade. The assistance was geared towards capacity building, improving governance, and meeting international standards.
 5. The technical assistance activities presented hereunder include multi-year projects, which span several sectors including the SPS sector. In such cases, only the SPS-related components of the projects are described. The indicated budget corresponds to the SPS component of the support during 2019-2020, unless it is *italicised*, in which case it indicates the budget of the entire program.

¹ In 2019 and 2020 operating under the name OIE, since May 2022 known as World Organisation for Animal Health (WOAH).

² Directorate-General for International Cooperation and Development (DG DEVCO) was renamed to Directorate-General for International Partnerships (DG INTPA) in January 2021.

6. Any non-EU country requiring SPS-related technical assistance is invited to approach the EU Delegation based in their country, or the relevant directorates of the European Commission located in Brussels, Belgium or individual EU MS for further information.
