TECHNICAL ASSISTANCE TO DEVELOPING COUNTRIES

COMMUNICATION FROM JAPAN

Addendum

The following communication, received on 26 June 2014, is being circulated at the request of the Delegation of Japan.

-
1. Japan would like to provide the following information regarding the provision of SPS-related technical assistance from Japanese fiscal year 2013 in response to the Secretariat's request in G/SPS/W/101.
 2. SPS-related technical assistance from Japan has been provided to developing countries in accordance with Article 9 of the Agreement on the Application of Sanitary and Phytosanitary (SPS) Measures with a primary aim to facilitate the enhancement and implementation of sanitary and phytosanitary measures in developing countries based on sound science.
 3. The attached table shows Japan's SPS-related technical assistance from 1 April 2013 to 31 March 2014. The total value of the SPS-related technical assistance provided by Japan for the period amounted to approximately 470 million Japanese yen. The accumulated amount of Japanese assistance since 1 April 2009 is approximately 3.4 billion Japanese yen.
 4. The number of programmes provided by Japan since 1 April 2009 has amounted to 48 and assistance has been provided to more than 30 countries in Asia, the Pacific region, Central America, South America, Central Asia, and Africa. Technical assistance has been directed not only to individual countries but also to groups of countries, regions and the whole world.
 5. Japan's overseas aid programme is managed primarily by the Japan International Cooperation Agency (JICA). JICA is established as an Incorporated Administrative Agency under the Act of the Incorporated Administrative Agency. The Government of Japan as well has implemented SPS-related technical assistance for the Asia and Pacific region through Official Development Assistance (ODA).
 6. Japan's assistance covered all four broad categories listed in G/SPS/GEN/206: information; training; "soft" infrastructure development and "hard" infrastructure development. Japan's assistance covered most of the "typical areas of competence" listed under the headings of food safety, animal health and plant protection, in the Annex of G/SPS/GEN/206.
 7. Japan has also been contributing to development aid as a donor country to the Standards and Trade Development Facility (STDF) since 2009.
