**PANAMA'S UNDUE DELAYS IN THE RENEWAL OF AUTHORIZATIONS FOR PLANTS OF
PERUVIAN FISHERY AND LIVESTOCK ENTERPRISES (STC NO. [509](#))**

COMMUNICATION FROM PERU

The following communication, received on 29 November 2023, is being circulated at the request of the delegation of Peru.

-
1. Peru reiterates its specific trade concern regarding Panama's undue delays in renewing authorizations for plants of Peruvian fishery and livestock enterprises.
 2. With regard to the case of Peruvian plants exporting hydrobiological and dairy products, Peru wishes to point out that Article 8 of, and Annex C(1)(a) and C(1)(c) to, the SPS Agreement establish that the procedures undertaken to check the fulfilment of a sanitary measure must be completed without undue delay and the information requirements limited to what is necessary for these procedures. Panama has failed to comply with this, since Peruvian enterprises' authorizations have not been renewed, with no technical justification, and despite the repeated requests made both bilaterally and multilaterally.
 3. In addition, despite the bilateral efforts undertaken, Panama has failed to communicate the anticipated processing period for renewing authorizations in a manner that is timely and based on its regulations. There is also no information or certainty about the length of time that would be granted to Peruvian enterprises should renewal of their authorization be secured.
 4. Unfortunately, Panama has still failed to indicate any health reasons for not renewing the authorizations or granting new authorizations to Peruvian enterprises. Instead, it is imposing conditions without a clear and transparent legal basis.
 5. In light of the foregoing, Peru asks Panama to renew the authorizations of Peruvian export plants and to avoid further delays that have no technical justification and that, in practice, represent unnecessary barriers to trade.
