

Committee on Sanitary and Phytosanitary Measures

SPS TECHNICAL ASSISTANCE AND TRAINING ACTIVITIES (1 SEPTEMBER 1994 TO 31 DECEMBER 2005)

Note by the Secretariat¹

Revision

1. This document provides an update of all the SPS technical assistance (TA) and training activities undertaken by the Secretariat from 1 September 1994 to 31 December 2005. It complements the general overview of WTO trade related technical assistance activities in 2005 in document WT/COMTD/W/146.
2. For each event the attached table identifies the type of activity; the region, venue and dates; participating countries; the language used; as well as whether representatives from the FAO/WHO Codex Alimentarius Commission (Codex), the World Organization for Animal Health (OIE), and the International Plant Protection Convention (IPPC) participated in the activity. A regional workshop refers to an activity organized by the WTO in which a region or sub-region was invited to participate. A national seminar refers to an activity undertaken at the national level only. The "other" category refers to all other SPS TA and training activities that do not fall under either of the first two categories. This includes other types of SPS-specific activities organized by the WTO Secretariat as well as activities organized by Members or other bodies in which the WTO Secretariat participated. Not included in this listing of TA activities, however, are the many WTO-organized workshops, seminars or courses which include sessions on the SPS Agreement among other topics. The information is organized on an annual basis and in alphabetical order based on the region where the activity was undertaken, with the more recent activities listed first. Detailed information is not available for all technical assistance activities undertaken prior to 1999.
3. The main objective of SPS technical assistance and training activities undertaken by the Secretariat is to increase participants' awareness about Members' rights and obligations under the SPS Agreement and its implications for national policymaking. The programme and presentations are adapted to take into account the level of familiarity with the Agreement of the participants, the level of development of the countries, and any specific concerns relating to the implementation of the Agreement in order to meet and respond to individual national/regional needs. SPS technical assistance and training activities typically include presentations on the basic provisions of the SPS Agreement, including the transparency provisions on implementation problems and specific trade concerns, as well as on WTO dispute settlement. There may also be a specific focus on issues such as risk analysis and equivalence.
4. SPS TA activities are organized in close collaboration with Members, the three international-standard-setting organizations referenced in the SPS Agreement (Codex, OIE and the IPPC), as well as with regional organizations, when appropriate. To ensure that the officials that participate in regional activities are those that have responsibilities in the food safety, animal health or plant protection area within their national administrations, the WTO normally sends invitations directly to

¹ This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights or obligations under the WTO.

the Codex, IPPC and OIE contact points, as well as to the SPS Enquiry points of each of the Members invited. This practice is now well-established and it has ensured that the participants have the technical expertise to profit from the training offered.

5. Altogether, 128 SPS TA and training activities have been undertaken for the period 1 September 1994 to 31 December 2005. Since the last reporting period, 24 SPS technical assistance and training activities were undertaken. In the second half of 2004, 10 activities (2 regional or sub-regional workshops, 6 national seminars, and 2 "other" activities) took place. In 2005, 14 activities (7 regional or sub-regional workshops, 4 national seminars, 2 "other" activities and 1 SPS specialized trade policy course) were held.

6. To date, the SPS Agreement has been in force for 11 years for developed country Members (as of January 1995), 9 years for developing country Members (as of January 1997), and 6 years for least-developed country Members (as of January 2000). Although some Members continue to need basic, introductory seminars and workshops with respect to the SPS Agreement, a growing number are requesting more advanced assistance and in-depth focus on implementation problems and on how to obtain and increase market access opportunities for food and other agricultural products.

7. To meet these demands for more advanced SPS TA and training activities, in 2005, a two week SPS Specialized Trade Policy Course and a more advanced SPS (Sub) Regional Workshop were undertaken. The SPS Specialized Trade Policy Course was organized by the WTO Institute for Training and Technical Co-operation in close co-operation with the Agriculture and Commodities Division (AGCD) and the Inter-American Institute for Co-operation in Agriculture (IICA). An advanced SPS (Sub) Regional Workshop was held in Nicaragua and organized by the AGCD in close co-operation with IICA. Both activities relied heavily on innovative training methods, which included interactive learning, practical exercises, case studies and debates, as well as the use of outside experts. Participants acquired in-depth understanding of the technical provisions of the Agreement, including on equivalence, regionalization and risk analysis.

8. A second SPS Specialized Course is scheduled to be held in English, back-to-back with the SPS Committee meeting in October 2006. More advanced SPS training courses at the national and regional levels, will be offered in the future in coordination with regional organizations and outside experts, when appropriate, in order to provide more targeted assistance to Members and contribute to the longer term sustainability of these activities.

9. Moreover, for the first time in 2005, the SPS (Sub) Regional Workshops undertaken in Mali and in Thailand were followed by a two day OIE training for veterinary officials present within the framework of a Standards and Trade Development Facility (STDF) project. The main objective of the OIE workshops was to give the veterinary officials an in-depth complementary training on the work of the OIE. Several of the SPS (Sub) Regional Workshops scheduled for 2006 will also be held back-to-back with training for veterinary officials as part of this STDF project.

10. Chart 1 lists the breakdown of the type of activities undertaken in 2005 and Chart 2 shows the number of activities per year.

Chart 1

SPS Technical Assistance Activities 2005

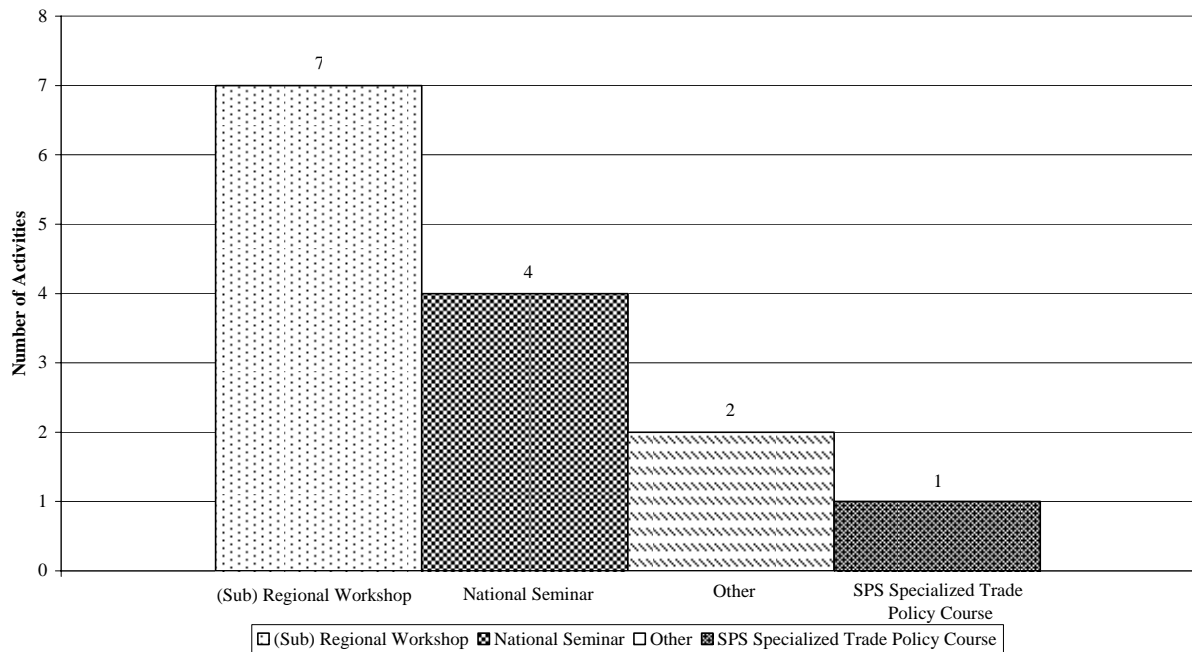

Chart 2

SPS Technical Assistance Activities per year

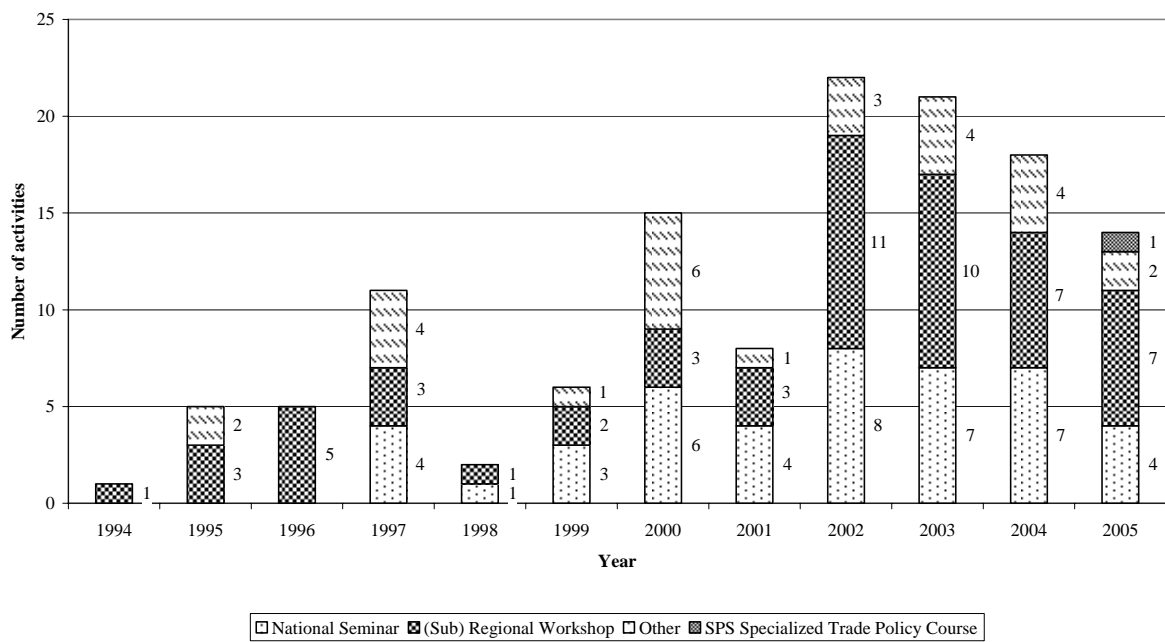

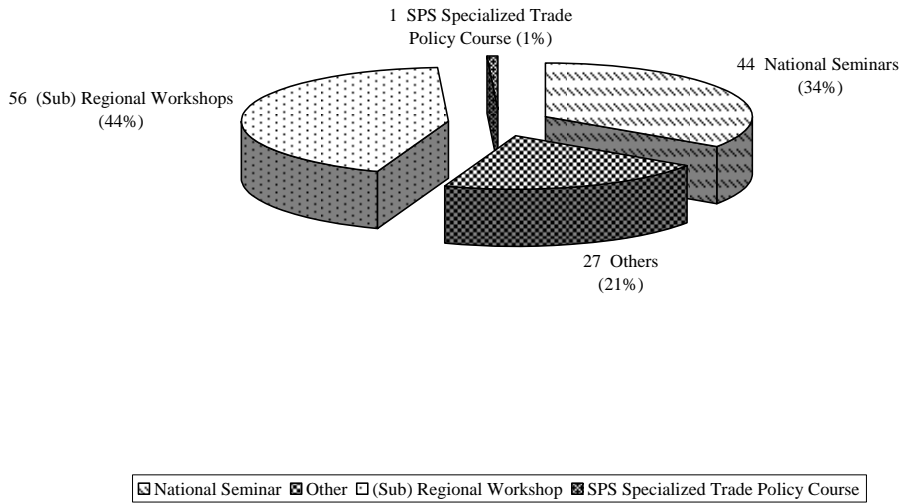

Chart 3

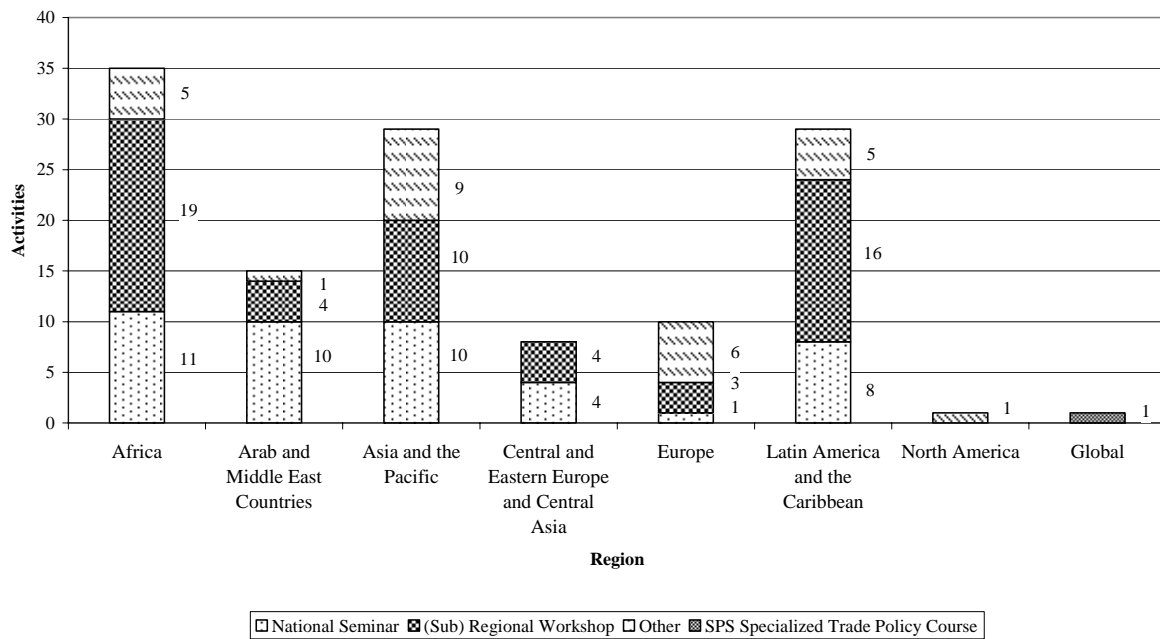

Types of SPS Technical Assistance Activities 1994-2005

11. Chart 3 presents a breakdown of the type of activity undertaken (56 regional or sub-regional workshops, 44 national seminars, 27 "other" activities and 1 SPS specialized trade policy course).

Chart 4

SPS Technical Assistance Activities Per Region

12. Chart 4 shows the number and type of TA activity per region and Chart 5 presents the total number of participants that have attended SPS TA and training activities per region and per type of activity.

Chart 5

Participants per Region 1994-2005

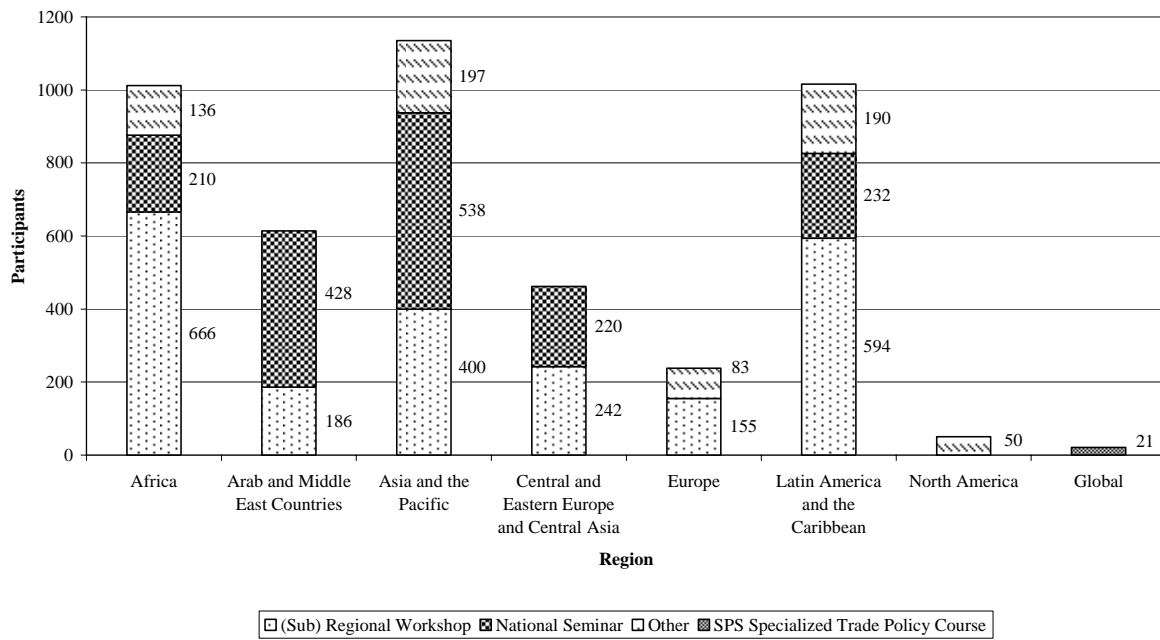

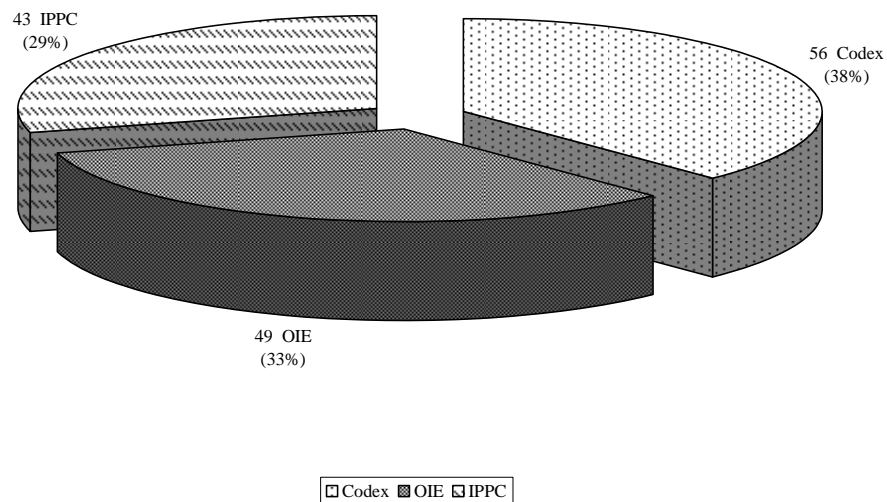

Chart 6

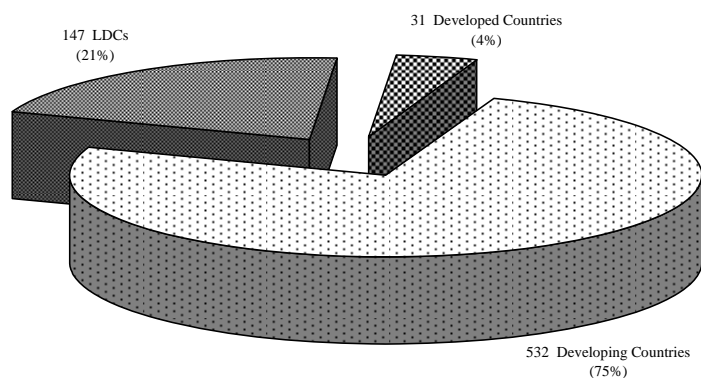

Participation of standard setting organizations in SPS regional workshops

13. Since 1994, representatives from the international standard setting organizations have actively participated in the delivery of SPS regional workshops undertaken by the Secretariat. As Chart 6 shows, Codex has participated in 56, OIE in 49 and the IPPC in 43 regional workshops.

Chart 7

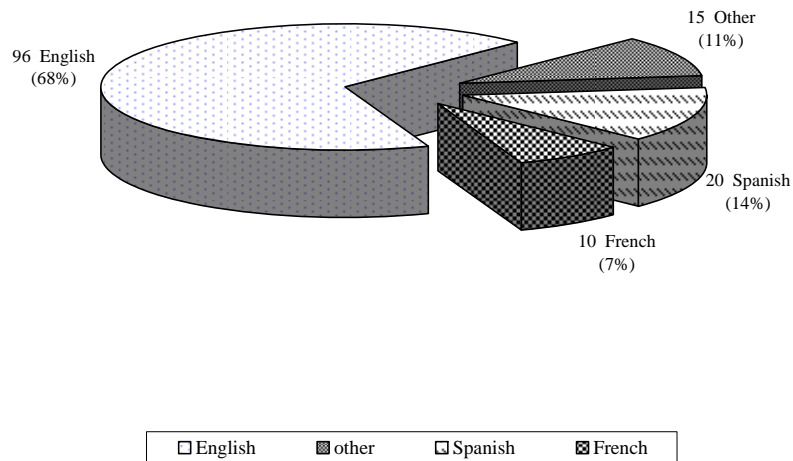

Breakdown of country participation from 1994 to 2005

14. As shown in Chart 7, 21 per cent of the beneficiaries of all SPS TA and training activities undertaken by the Secretariat have been from least-developed countries (LDCs), 75 per cent from developing countries, and 4 per cent from developed countries.

Chart 8

Language breakdown of SPS Technical Assistance activities

15. Chart 8 presents the language breakdown of all SPS TA and training activities that have been undertaken. Overall, 89 per cent of the activities have been conducted in one of the three official WTO languages (68 per cent English, 14 per cent Spanish, and 7 per cent French). The remaining 11 per cent have been undertaken in "other" languages than the ones mentioned above, including Arabic, Portuguese and Russian.

Annex
