

PEST FREE AREA OF CEARÁ STATE
Anastrepha grandis

Communication from Brazil

Addendum

The following communication, received on 3 May 2006, is being circulated at the request of the Delegation of Brazil.

1. The Secretariat of Animal and Plant Health of the Ministry of Agriculture, Livestock and Food Supply (SDA/MAPA) issued Normative Instruction N° 15 on 5 April 2006. Published in the "Diário Oficial da União" (Federal Official Journal) N° 68, on 7 April 2006, this revalidates for a one-year period the recognition as an area free of the pest *Anastrepha grandis*, the area concerning seven counties of Ceará State, as follows: Aracati, Itaiçaba, Jaguaruana, Icapuí, Russas, Quixeré and Limoeiro do Norte. The recognition of the area in question was previously notified in document G/SPS/GEN/562 on 31 March 2005.

2. Date of entry into force: 7 April 2006.

3. The text may be downloaded from the following Internet site:
