

Committee on Sanitary and Phytosanitary Measures

**PROCEDURE TO ENHANCE TRANSPARENCY
OF SPECIAL AND DIFFERENTIAL TREATMENT IN FAVOUR OF
DEVELOPING COUNTRY MEMBERS (G/SPS/33)**

Revision¹

At its meeting of 28-29 October 2009, the Committee adopted the following revision of the Procedure to Enhance Transparency of Special and Differential Treatment on an *ad referendum* basis. If no Member submits an objection to the adoption of this procedure in writing to the Secretariat by 16 December 2009, the revision will be considered to have been adopted and will subsequently be issued as G/SPS/33/Rev.1.

**PROCEDURE TO ENHANCE TRANSPARENCY OF SPECIAL AND DIFFERENTIAL
TREATMENT IN FAVOUR OF DEVELOPING COUNTRY MEMBERS**

Decision by the Committee

The Committee on Sanitary and Phytosanitary Measures ("the Committee"),

Recalling that paragraph 1 of Article 10 of the Agreement on the Application of Sanitary and Phytosanitary Measures ("the Agreement") states that in the preparation and application of sanitary or phytosanitary measures, Members shall take account of the special needs of developing country Members, and in particular of the least-developed country Members;

Seeking to develop effective, concrete and operational means to facilitate the implementation of this provision;

Recognizing the difficulties that Members, and in particular developing country and least-developed country Members, may face in adapting their products and methods of production to new or changed requirements of importing Members;

Recognizing also the need to make transparency procedures more effective and operational for developing country Members, and in particular least-developed country Members;²

¹ This document has been prepared under the Secretariat's own responsibility and is without prejudice to the position of Members or to their rights and obligations under the WTO.

² Developing country Members may request assistance to ensure the effective functioning of a National Notification Authority and Enquiry Point, including the capacity to effectively receive and review the notifications of other Members, in order to identify and react to those which may have a potential significant

Noting that the provision of technical assistance, as referred to in Article 9 of the Agreement, may assist Members adapt their products and methods of production to new or changed requirements;

Recalling that paragraph 2 of Article 9 of the Agreement indicates that where substantial investments are required in order for an exporting developing country Member to fulfil the sanitary or phytosanitary requirements of an importing Member, the latter shall consider providing such technical assistance as will permit the developing country Member to maintain and expand its market access opportunities for the product involved;

Recalling that the Committee's regular agenda items on the "Implementation of Special and Differential Treatment" and on the "Operation of Transparency Provisions" provide opportunities, on an on-going basis, for raising concerns or assessing progress with respect to the implementation of the procedure to enhance transparency of special and differential treatment in favour of developing country Members;

Encourages Members to make full use of this procedure and thereby to also contribute to enhanced transparency with respect to special and differential treatment and/or technical assistance being offered or provided upon request; and

Decides that the following procedure should be used to enhance transparency of special and differential treatment in favour of developing country Members:

1. This procedure to enhance transparency of special and differential treatment in favour of developing country Members should be used during the comment period following the circulation of an SPS notification in accordance with the relevant provisions and procedures contained in the Agreement or subsequently adopted by Members³, but can also be used following the adoption or entry into force of a new or modified measure.

Steps for proposed measures

2. If an exporting developing country Member identifies significant difficulties with a proposed measure that has been notified, that Member may, in the comments it submits in writing to the notifying Member, request an opportunity to discuss the issue of concern with the notifying Member. The exporting developing country Member should identify to the notifying Member the specific problems that the proposed measure may create for its exports, or the specific reasons why it is unable to comply with the notified measure by the implementation date.

3. In response to such a request, where the appropriate level of sanitary and phytosanitary protection allows scope for the phased introduction of the new measure, a longer time-frame for

effect on their international trade. The "mentoring" procedure for assisting Members in the implementation of the transparency provisions of the SPS Agreement may also be useful in this regard (see G/SPS/W/217).

³ In particular, Article 7 and Annex B of the Agreement, and the Recommended Procedures for Implementing the Transparency Obligations of the SPS Agreement (Article 7) contained in G/SPS/7/Rev.3. In addition, the Procedural Step-by-Step Manual for SPS National Notification Authorities and SPS National Enquiry Points can assist Members in meeting the obligations and following the recommended procedures (available electronically at: http://www.wto.org/english/res_e/booksp_e/sps_procedure_manual_e.pdf). These texts also provide information regarding the availability of SPS notifications, including through the SPS Information Management System (<http://spsims.wto.org>).

compliance should be accorded to developing country Members, which shall be understood to mean normally a period of not less than six months.⁴

4. Where the appropriate level of sanitary and phytosanitary protection does not allow scope for the phased introduction of a new measure, the Member notifying the measure shall, upon such request, enter into consultations with the exporting Member with a view to finding a mutually satisfactory solution to the problem while continuing to achieve the importing Member's appropriate level of protection.⁵ Such consultations shall preferably take place prior to the entry into force of the new measure. A possible resolution of the concern identified could include one of the following, or a combination thereof: (1) a change in the proposed measure; (2) the provision of technical assistance to the exporting developing country Member; or (3) the provision of special and differential treatment.

Steps following entry into force of a new measure

5. If, following the adoption or entry into force of a new or modified measure (including an emergency measure), an exporting developing country Member identifies significant difficulties which its exports face in complying with the measure, it may request an opportunity to discuss its difficulties with the importing Member with a view to finding a mutually satisfactory solution to the problem, especially where no time, or an insufficient period of time, had been provided for the submission of comments prior to the implementation of the measure. The importing Member shall, upon such request from an exporting developing country Member, enter into consultations with the exporting Member to discuss possible means to address the identified problem while continuing to achieve the importing Member's appropriate level of protection. A possible resolution of the concern identified could include one of the following, or a combination thereof: (1) a change in the measure; (2) the provision of technical assistance to the exporting developing country Member; or (3) the provision of special and differential treatment.

Transparency

6. When an importing Member decides on whether and how special and differential treatment may be provided in response to a specific request, that Member should inform the SPS Committee. This may be done in writing and/or under the agenda item on Special and Differential Treatment at any meeting of the SPS Committee. Information provided in writing should be submitted to the WTO Secretariat as an Addendum to the original notification concerning the measure. The Addendum shall indicate: (1) the name(s) of Member(s) that requested special and differential treatment; (2) if special and differential treatment was provided, the form of such treatment; and (3) if not provided, the Addendum shall indicate why special and differential treatment was not provided and whether technical assistance or any other solution was found to address the identified concern. A format for the Addendum is contained in the Annex.

Administration

7. The Committee shall review the implementation of this procedure, in light of the experiences of Members and relevant Addenda, as an integral part of its periodic Review of the Operation and Implementation of the Agreement under Article 12.7. The next such Review is to be completed in 2013, and every four years subsequently.

⁴ Ibid.

⁵ WT/MIN(01)/17, paragraph 3.1. This step may also be used where the phased introduction of a measure will not resolve the specific problems identified by the exporting developing country Member.

8. The Committee may decide to modify, suspend or terminate this procedure at any time, in light of the experiences of Members in its implementation.

9. This procedure is without prejudice to the rights and obligations of Members under Article 10.1 of the SPS Agreement. The Committee recognizes that this procedure does not fully address the issue of special and differential treatment, but that it is one step in improving the implementation of the special and differential treatment provisions of the Agreement. The Committee agrees to consider other proposals and possible actions.
