NOTIFICATION

Addendum

On 14 February 2001, the following addendum to the notification concerning export subsidy commitments (**Tables ES:1 and ES:3**) for the year 1997 was received from the Permanent Mission of **Costa Rica**.

Following up the notification contained in document G/AG/N/CRI/4 of 10 March 1998 indicating the cumulative amount up to June 1997 corresponding to export subsidy commitments, the Government of Costa Rica hereby notifies that in the context of the export subsidy limitation commitments under the Tax Credit Certificate (CAT) system approximately US\$104.73 million were assigned as export subsidies during 1997. The amount of the subsidy corresponds to the totality of the CATs granted to non-traditional exports (all products with the exception of bananas, coffee, sugar and meat) exported to third markets (all countries other than Central American countries).
