

AGREEMENT BETWEEN THE EUROPEAN COMMUNITIES AND ICELAND

Biennial Report on the Operation of the Agreement

Addendum

This document reproduces questions addressed to the Parties and the responses provided by them.

The biennial report discusses briefly the European Economic Area (EEA) that replaced the EC free-trade area agreements with several countries, including Iceland. Was the EEA ever notified? If not, why?

Information on the Agreement on the European Economic Area was circulated to GATT Contracting Parties in Document L/7048 on 17 July 1992, in the form of a joint communication by the EC and the EFTA States.
