Outline of systems

1. The object of the import licensing system is to ensure a sound administration of the EC's WTO tariff rate quota for 5,500,000 tonnes of manioc. The relevant legislation related to the import licensing system for these tariff quotas is mentioned in the reply to question 5. As regards the requirements for applicants for import licences see reply to question 6.

Purpose and coverage of licensing

2. See answer to question 1. The product covered by the tariff rate quota is as follows:

Description of products	Tariff item number(s)
Manioc	0714 10

3. The system applies in the European Community to manioc originating in Thailand.

4. See answer to question 1. As referred to in the answer to question 1, the licensing system covers the relevant WTO tariff quota. The EC considers the method adopted to be the most appropriate to administer this tariff rate quota.

5. The relevant legislation for the administration of import licences for this tariff rate quota is: Commission Regulation (EC) No 2781/99 of 27 November 1999 (OJ L 334).

The licensing is statutorily required. The legislation does not leave designation of products to be subjected to licensing to administrative discretion. The system cannot be abolished without legislative approval.
