In document G/LIC/N/3/BOL/3, Bolivia describes the system of requiring prior authorization for products affecting public health or state security. The legal instruments implementing this system were provided in document G/LIC/N/1/BOL/1 in 1997, and have not changed.

- How, if at all, has the scope or nature of the system described in document G/LIC/N/3/BOL/3 changed from the previous submissions?
