

CHAPTER 76

Primary Rules

Notes

- For the purposes of this Chapter, assembly operations, other than simple assembly operations, of goods of this Chapter are to be considered as substantial transformation.
- A change of classification solely by virtue of coiling of bars or rods to wire or uncoiling wire to bars or rods is not considered to be substantial transformation.

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
Chapter 76	Aluminium and articles thereof	
76.01	Unwrought aluminium	<i>As specified for subheadings</i>
7601.10	- Aluminium, not alloyed	<i>As specified for split subheadings</i>
ex7601.10(a)	- <u>Of a purity of 99.9 % or more</u>	CTSHS
ex7601.10(b)	- <u>Other</u>	CTH
7601.20	- Aluminium alloys	CTSH
76.02	Aluminium waste and scrap	The origin shall be the country where aluminium waste and scrap of this heading are derived from manufacturing or processing operations or from consumption
76.03	Aluminium powders and flakes	<i>As specified for subheadings</i>
7603.10	- Powders of non-lamellar structure	CTSH, except from split heading ex7603.20(a)
7603.20	- Powders of lamellar structure; flakes	<i>As specified for split subheadings</i>
ex7603.20(a)	- <u>Powders of lamellar structure</u>	CTSHS
ex7603.20(b)	- <u>Flakes</u>	CTH
76.04	Aluminium bars, rods and profiles	CTH
76.05	Aluminium wire	[CTH provided that the cross-sectional area of the rod is reduced by at least 25%]
76.06	Aluminium plates, sheets and strip, of a thickness exceeding 0.2 mm	CTH
76.07	Aluminium foil (whether or not printed or backed with paper, paperboard, plastics or similar backing materials) of a thickness (excluding any backing) not exceeding 0.2 mm.	<i>As specified for subheadings</i>
7607.11	- Not backed: -- Rolled but not further worked	[CTSH, except from 76.06 or a change to foil of heading 76.07 from heading 76.06, if there has been a reduction in the thickness of the source product by at least 25 %]

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
7607.19 7607.20	-- Other - Backed	CTH CTH
76.08	Aluminium tubes and pipes.	[CTH provided that the cross-sectional area of the rod is reduced by at least 25%]
76.09	Aluminium tube or pipe fittings (for example, couplings, elbows, sleeves).	CTH
76.10	Aluminium structures (excluding prefabricated buildings of heading 94.06) and parts of structures (for example, bridges and bridge-sections, towers, lattice masts, roofs, roofing frameworks, doors and windows and their frames and thresholds for doors, balustrades, pillars and columns); aluminium plates, rods, profiles, tubes and the like, prepared for use in structures.	<i>As specified for split headings</i>
ex76.10(a) ex76.10(b) ex76.10(c)	<u>Structures</u> <u>Parts of structures</u> <u>Other</u>	CTHS CTH CTH, except from heading 76.04 through 76.06, 76.08 or 76.09
76.11	Aluminium reservoirs, tanks, vats and similar containers, for any material (other than compressed or liquefied gas), of a capacity exceeding 300 l, whether or not lined or heat-insulated, but not fitted with mechanical or thermal equipment.	CTH
76.12	Aluminium casks, drums, cans, boxes and similar containers (including rigid or collapsible tubular containers), for any material (other than compressed or liquefied gas), of a capacity not exceeding 300 l, whether or not lined or heat-insulated, but not fitted with mechanical or thermal equipment.	CTH
76.13	Aluminium containers for compressed or liquefied gas.	CTH
76.14	Stranded wire, cables, plaited bands and the like, of aluminium, not electrically insulated.	CTH
76.15	Table, kitchen or other household articles and parts thereof, of aluminium; pot scourers and scouring or polishing pads, gloves and the like, of aluminium; sanitary ware and parts thereof, of aluminium.	CTH

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
76.16	Other articles of aluminium.	<i>As specified for subheadings</i>
7616.10	- Nails, tacks, staples (other than those of heading 83.05), screws, bolts, nuts, screw hooks, rivets, cotters, cotter-pins, washers and similar articles	CTH
7616.91	- Other -- Cloth, grill, netting and fencing, of aluminium wire	[CTH]
7616.99	-- Other	[CTSH]

CHAPTER 78

Primary Rules

Notes

1. For the purposes of this Chapter, assembly operations, other than simple assembly operations, of goods of this Chapter are to be considered as substantial transformation.
2. A change of classification solely by virtue of coiling of bars or rods to wire or uncoiling wire to bars or rods is not considered to be substantial transformation.

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
Chapter 78	Lead and articles thereof	
78.01	Unwrought lead.	<i>As specified for subheadings</i>
7801.10	- Refined lead	CTSH
7801.91	- Other : -- Containing by weight antimony as the principal other element	CTH
7801.99	-- Other	<i>As specified for split subheadings</i>
ex7801.99(a)	<u>Alloys</u>	CTSH
ex7801.99(b)	<u>Other</u>	CTH
78.02	Lead waste and scrap	The origin shall be the country where lead waste and scrap of this heading are derived from manufacturing or processing operations or from consumption
78.03	Lead bars, rods, profiles and wire.	<i>As specified for split headings</i>
ex78.03(a)	- <u>Bars, rods and profiles</u>	CTH
ex78.03(b)	- <u>Wire</u>	[CTHS provided that the cross-sectional area of input material is reduced by at least 25%.]
78.04	Lead plates, sheets, strip and foil; lead powders and flakes.	<i>As specified for split headings</i>
ex78.04(a)	<u>Lead foil</u>	CTHS
ex78.04(b)	<u>Powders</u>	CTHS
ex78.04(c)	<u>Flakes</u>	CTHS, except from split heading ex 78.04(b)
ex78.04(d)	<u>Other</u>	CTHS
78.05	Lead tubes, pipes and tube or pipe fittings (for example, couplings, elbows, sleeves).	CTHS
ex78.05(a)	- Tubes and pipes	<i>As specified for headings</i>
ex78.05(b)	- Other	
78.06	Other articles of lead.	CTH

CHAPTER 79

Primary Rules

Notes

1. For the purposes of this Chapter, assembly operations, other than simple assembly operations, of goods of this Chapter are to be considered as substantial transformation.
2. A change of classification solely by virtue of coiling of bars or rods to wire or uncoiling wire to bars or rods is not considered to be substantial transformation.

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
Chapter 79	Zinc and articles thereof.	
79.01	Unwrought zinc.	<i>As specified for split headings</i>
ex79.01(a)	<u>Alloys</u>	CTHS
ex79.01(b)	<u>Other</u>	CTH
79.02	Zinc waste and scrap.	The origin shall be the country where zinc waste and scrap of this heading are derived from manufacturing or processing operations or from consumption
79.03	Zinc dust, powders and flakes.	<i>As specified for headings</i>
7903.10	- Zinc dust	CTH
7903.90	- Other	<i>As specified for split subheadings</i>
ex7903.90(a)	<u>Powders</u>	CTSHS
ex7903.90(b)	<u>Other</u>	CTH
79.04	Zinc bars, rods, profiles and wire.	<i>As specified for split headings</i>
ex79.04(a)	- Bars, rods and profiles	CTH
ex79.04(b)	- <u>Wire</u>	[CTHS provided the cross-sectional area of input material is reduced by at least 25%.]
79.05	Zinc plates, sheets, strip and foil.*	CTH
79.06	Zinc tubes, pipes and tube or pipe fittings (for example, couplings, elbows, sleeves).	CTHS
ex79.06(a)	- Tubes and pips	<i>As specified for heading</i>
ex79.06(b)	- Other	
79.07	Other articles of zinc.	<i>As specified for split headings</i>
ex79.07(a)	- <u>Electroplating anodes</u>	[CTH, except from the change by tapping or piercing or the addition of hooks]
ex79.07(b)	- <u>Other</u>	CTH

* During review of overall coherence, specific consideration will be given to this item (G/RO/W/22/Rev.4)

CHAPTER 80

Primary Rules

Notes

1. For the purposes of this Chapter, assembly operations, other than simple assembly operations, of goods of this Chapter are to be considered as substantial transformation.
2. A change of classification solely by virtue of coiling of bars or rods to wire or uncoiling wire to bars or rods is not considered to be substantial transformation.

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
Chapter 80	Tin and articles thereof	
80.01	Unwrought tin	<i>As specified for subheadings</i>
8001.10	- Tin, not alloyed	CTH or manufacture of refined tin of this subheading from unrefined tin of the same subheading.
8001.20	- Tin alloys	CTSH
80.02	Tin waste and scrap	The origin shall be the country where tin waste and scrap of this heading are derived from manufacturing or processing operations or from consumption.
80.03	Tin bars, rods, profiles and wire	<i>As specified for split headings</i>
ex80.03(a) ex80.03(b)	<u>Bars, rods, profiles</u> <u>Wire</u>	CTH [CTHS, provided that the cross-sectional area of the rod is reduced by at least 25%.]
80.04	Tin plates, sheets and strip, of a thickness exceeding 0.2 mm	CTH
80.05	Tin foil (whether or not printed or backed with paper, paperboard, plastics or similar backing materials), of a thickness (excluding any backing) not exceeding 0.2 mm; tin powders and flakes.	CTHS
ex80.05(a) ex80.05(b)	<u>Foil</u> <u>Powders and flakes</u>	<i>As specified for heading</i>
80.06	Tin tubes, pipes and tube or pipe fittings (for example, couplings, elbows, sleeves)	CTHS
ex80.06(a) ex80.06(b)	- Tubes and pipes - Other	<i>As specified for heading</i>
80.07	Other articles of tin	<i>As specified for split headings</i>

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
ex80.07(a)	- <u>Electroplating anodes</u>	CTH, except from the change by tapping or piercing or the addition of hooks
ex80.07(b)	- <u>Other</u>	CTH

CHAPTER 81

Primary Rules

Notes

1. For the purposes of this Chapter, assembly operations, other than simple assembly operations, of goods of this Chapter are to be considered as substantial transformation.
2. A change of classification solely by virtue of coiling of bars or rods to wire or uncoiling wire to bars or rods is not considered to be substantial transformation.

HS Code Number	Description of goods	Origin Criteria
(1)	(2)	(3)
Chapter 81	Other base metals; cermets; articles thereof.	
81.01	Tungsten (wolfram) and articles thereof, including waste and scrap	<i>As specified for split headings</i>
ex81.01(a)	<u>Alloys</u>	CTHS
ex81.01(b)	<u>Refined tungsten</u>	CTHS
ex81.01(c)	<u>Waste and scrap</u>	The origin shall be the country where the waste and scrap of this split heading are derived from manufacturing or processing operations or from consumption
ex81.01(d)	<u>Bars and rods, other than those obtained simply by sintering, profiles</u>	CTHS
ex81.01(e)	<u>Plates, sheets, strip and foil</u>	CTHS; or cold-rolling from articles of the same split heading]
ex81.01(f)	<u>Wire</u>	CTHS
ex81.01(g)	<u>Tubes and pipes</u>	CTHS; or cold-rolling from articles of the same split heading

CHAPTER 82

Primary Rules

Notes

Goods or Parts Produced from Blanks

- (a) The country of origin of a good or part produced from a blank which by application of the Harmonized System General Interpretative Rule 2(a) is classified in the same heading, subheading or subdivision as the complete or finished good or part, shall be the country in which every working edge, working surface and working part was configured to final shape and dimension, provided, in its imported condition, the blank from which it was produced: (i) was not capable of functioning, and (ii) was not advanced beyond the initial stamping process or any processing required to remove the material from the forging platter or casting mould.
- (b) If the criteria in paragraph 1 are not satisfied, the country of origin is the country of origin of the blank of this Chapter

CHAPTER 83

Primary Rules

Note

Goods on Parts Produced from Blanks

A good or part produced from a blank: The country of origin of a good or part produced from a blank, which by application of the Harmonized System General Interpretative Rule 2(a) is classified in the same heading, subheading or subdivision as the complete or finished good or part, shall be the country in which the blank was finished, provided finishing included configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.

83.11	Wire, rods, tubes, plates, electrodes and similar products, of base metal or of metal carbides, coated or cored with flux material, of a kind used for soldering, brazing, welding or deposition of metal or of metal carbides; wire and rods, of agglomerated base metal powder, used for metal spraying.	CTH

A. Primary Rules for Chapters 84-90 applicable to primary rules contained in Column (3)

1. Limitations on change in classification rules in the matrix.- Where satisfaction of the rules of this Chapter results solely from the following circumstances, origin shall be determined as indicated herein:

(a) Goods obtained by disassembly

A change of classification which results from the disassembly of goods shall not be considered as the change required by the rule set forth in the matrix. The country of origin of the parts recovered from the goods shall be the country where the parts are recovered, unless the importer, exporter or any person with a justifiable cause to determine the origin of parts demonstrates another country of origin on the basis of verifiable evidence such as origin marks on the part itself or documents.

(b) Collection of parts

Where a change in classification results from the application of HS General Interpretative Rule 2(a) with respect to collections of parts that are presented as unassembled articles of another heading or subheading the individual parts shall retain their origin prior to such collection.

(c) Recertification or retesting

A change of classification which results from the recertification or retesting of the good shall not be considered as the change required by the rule set out in the matrix.

(d) Assembly of the collection of parts

Goods assembled from a collection of parts classified as the assembled good by application of General Interpretative Rule 2 shall have origin in the country of assembly, provided the assembly would have satisfied the primary rule for the good had each of the parts been presented separately and not as a collection.

2. Additional Primary Chapter Rule – When Chapter Rule 1 does not apply and the other primary rules in this Chapter are not met in the last country of production, the following shall be applied in sequence:

(a) Parts and accessories produced from blanks

(1) The country of origin of goods that are produced from blanks which, by application of the HS General Interpretative Rule 2(a), are classified in the same heading or subheading as the complete or finished goods, shall be the country in which the blank was finished provided finishing included configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.

(2) Paragraph 1 above applies to goods classifiable in provisions for parts or parts and accessories, including goods specifically named under such provisions, and to goods classifiable in headings 84.80 and 84.83.

(b) When the good is produced from materials or components that changed classification but did not satisfy the primary rule applicable to the good, the country of origin of the

good is the country that furnished all or the major portion of that material or component.

(c) The following rules apply only to goods classifiable under provisions for “parts” or “parts and accessories” and which are not described by name in the Harmonized System, applied in sequence.

- (1) Goods produced by assembly of 5 or more parts(whether or not originating), other than parts provided for in rule A2(c)(3) shall have origin in the country of assembly.
- (2) Goods produced as a result of processing non-originating components other than parts provided for in rule A2(c)(3) into a device or apparatus capable of performing one or more new mechanical or electrical functions shall have origin in the country of such processing.
- (3) The following parts shall not be counted for purposes of rule A2(c)(1) nor shall the operations described be deemed to result in a new mechanical or electrical function for purposes of rule A2(c)(2):
 - (i) the attachment of machinery to a base;
 - (ii) the installation of machinery or apparatus into cabinets or similar encasements;
 - (iii) the attachment of parts of general use as defined in Note 2 to Section XVI of the Harmonized System or similar parts of plastic (Chapter 39) ;
 - (iv) the attachment of handles, dials, knobs, hand cranks, and other consumer-operated controls;
 - (v) the attachment of a power cord or change of mains voltage/frequency by adding transformer, adapter or converter;
 - (vi) the installation of batteries, accumulators, sensors, thermostats or other articles not designed to become a permanent part of the good;
 - (vii) the attachment of accessories or parts (including printed circuits with components assembled thereon), which serve only to enhance the operation of the machine or device;
 - (viii) the addition of manuals, warranty cards, certificates of conformance to standards (with or without testing), or labels;
 - (ix) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (x) simple painting and polishing operations;
 - (xi) affixing or printing marks, labels, logos and other distinguishing signs on products or their packaging; or
 - (xii) the installation of software.

3. Legal note for Subheadings 8471.50, 8471.60, 8471.70 and 8471.80 - For purposes of subheadings 8471.50, 8471.60, 8471.70 and 8471.80, the assembly of goods of those subheadings in the same housing with units of other subheadings within that group shall be origin conferring.

B. Residual Rules for Chapters 84-90 applicable to rules contained in Column (3)

For purposes of Rule 3(d) of Appendix 2 the following residual rules shall be applied in sequence:

1. For goods classifiable under provisions for “parts” or “parts and accessories” and which are not described by name, the country of origin shall be the country of assembly provided the goods are produced by the assembly of two or more parts (other than parts of general use, as defined in Note 2 to Section XV or similar parts of plastic (Chapter 39)), and one or more of the parts (other than parts of general use, as defined in Note 2 to Section XV or similar parts of plastic (Chapter 39)) satisfies the requirements for origin in the country of assembly. For purposes of this rule, the following parts shall not be counted nor shall the operations described be deemed to be origin conferring operations:
 - (a) the attachment of machinery to a base;
 - (b) the installation of machinery or apparatus into cabinets or similar encasements;
 - (c) the attachment of parts of general use as defined in Note 2 to Section XV of the Harmonized System or similar parts of plastic (Chapter 39);
 - (d) the attachment of handles, dials, knobs, hand cranks, and other consumer-operated controls;
 - (e) the attachment of a power cord or change of mains voltage/frequency by adding transformer, adapter or converter;
 - (f) the installation of batteries, accumulators, sensors, thermostats or other articles not designed to become a permanent part of the good;
 - (g) the attachment of accessories or parts (including printed circuits with components assembled thereon), which serve only to enhance the operation of the machine or device;
 - (h) the addition of manuals, warranty cards, certificates of conformance to standards (with or without testing), or labels;
 - (i) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (j) simple painting and polishing operations;
 - (k) affixing or printing marks, labels, logos and other distinguishing signs on products or their packaging; or
 - (l) the installation of software.
2. When the good is produced from materials originating in a single country that did not undergo the change in classification or did not otherwise satisfy the primary rule applicable to the good, the country of origin is the country in which those materials originated;
3. The country of origin shall be the country of origin of that material (or functional element) that gives the good its essential character, to the extent to which the principle of essential character can be applied. Otherwise, the country of origin shall be the country in which the major portion of those materials originated, as determined on the basis of weight.

C. Notes for Chapters 84-90 applicable to primary rules contained in Column (4)

(a) Application of the value added rule

1. The term "**x% value added rule**" shall mean manufacture where the increase in value acquired as a result of working and processing, and if applicable, the incorporation of parts originating in the country of manufacture represents at least x% of the ex-works price of the product. "X" is the percentage indicated for each heading.

2. The term "**ex-works price**" shall mean the price to be paid for the product obtained to the manufacturer in whose undertaking the last working or processing is carried out (this price shall not include internal taxes which are, or may be, repaid when such product is exported);

3. The term "**value acquired as a result of working and processing and incorporation of parts originating in the country of manufacture**" shall mean the increase in value resulting from the assembly itself, together with any preparatory, finishing and checking operations, and from the incorporation of any parts originating in the country where the operations in question were carried out, including profit and the general costs borne in that country as a result of the operations;

4. The term "**value of non-originating materials**" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the country of importation.

(b) Primary rules with regard to change in classification

1. Goods obtained by disassembly

A change of classification which results from the disassembly of goods shall not be considered as the change required by the rule set forth in this Appendix. The country of origin of the parts recovered from the goods shall be the country where the parts are recovered.

2. Collection of parts

Where a change in classification results from the application of HS General Interpretative Rule 2(a) with respect to collections of parts that are presented as unassembled articles of another heading or subheading the individual parts shall retain their origin prior to such collection.

3. Recertification or retesting

A change of classification which results from the recertification or retesting of the good shall not be considered as the change required by the rule set out in this Appendix.

4. Assembly of the collection of parts

Goods assembled from a collection of parts classified as the assembled good by application of General Interpretative Rule 2 shall have origin in the country of assembly, provided the assembly would have satisfied the primary rule for the good had each of the parts been presented separately and not as a collection.

(c) Primary rules with regard to parts and accessories produced from blanks

1. The country of origin of goods that are produced from blanks which, by application of the HS General Interpretative Rule 2(a), are classified in the same heading or subheading as the complete or finished goods, shall be the country in which the blank was finished provided finishing included

configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.

2. Paragraph 1 above applies to goods classifiable in provisions for parts or parts and accessories, including goods specifically named under such provisions, and to goods classifiable in headings 84.80 and 84.83.

(d) Application of Residual Rule 3(f) of this Appendix - major portion rule

For the purposes of Chapters 84-90, the criterion used to determine the major portion of the materials as set forth in Rule 3(f) of this Appendix is their value.

91.13	Watch straps, watch bands and watch bracelets, and parts thereof.	<i>As specified for subheadings</i>
9113.10	- Of precious metal or of metal clad with precious metal	CTH or change from parts to finished goods classified in the same subheading
9113.20	- Of base metal, whether or not gold- or silver-plated	CTH or change from parts to finished goods classified in the same subheading
9113.90	- Other	CTH
91.14	Other clock or watch parts.	CTH

CHAPTER 92

Note:

[A. Primary Rules for Chapters 92 applicable to primary rules contained in Column (3)

1. Limitations on change in classification rules in the matrix.- Where satisfaction of the rules of this Chapter results solely from the following circumstances, origin shall be determined as indicated herein:

(a) Goods obtained by disassembly

A change of classification which results from the disassembly of goods shall not be considered as the change required by the rule set forth in the matrix. The country of origin of the parts recovered from the goods shall be the country where the parts are recovered, unless the importer, exporter or any person with a justifiable cause to determine the origin of parts demonstrates another country of origin on the basis of verifiable evidence such as origin marks on the part itself or documents.

(b) Collection of parts

Where a change in classification results from the application of HS General Interpretative Rule 2(a) with respect to collections of parts that are presented as unassembled articles of another heading or subheading the individual parts shall retain their origin prior to such collection.

(c) Recertification or retesting

A change of classification which results from the recertification or retesting of the good shall not be considered as the change required by the rule set out in the matrix.

(d) Assembly of the collection of parts

Goods assembled from a collection of parts classified as the assembled good by application of General Interpretative Rule 2 shall have origin in the country of assembly, provided the assembly would have satisfied the primary rule for the good had each of the parts been presented separately and not as a collection.

2. Additional Primary Chapter Rule – When Chapter Rule 1 does not apply and the other primary rules in this Chapter are not met in the last country of production, the following shall be applied in sequence:

(a) Parts and accessories produced from blanks

- (1) The country of origin of goods that are produced from blanks which, by application of the HS General Interpretative Rule 2(a), are classified in the same heading or subheading as the complete or finished goods, shall be the country in which the blank was finished provided finishing included configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.

- (b) When the good is produced from materials or components that changed classification but did not satisfy the primary rule applicable to the good, the country of origin of the

good is the country that furnished all or the major portion of that material or component.

- (c) The following rules apply only to goods classifiable under provisions for “parts” or “parts and accessories” and which are not described by name in the Harmonized System, applied in sequence.
- (1) Goods produced by assembly of 5 or more parts(whether or not originating), other than parts provided for in rule A2(c)(3) shall have origin in the country of assembly.
 - (2) Goods produced as a result of processing non-originating components other than parts provided for in rule A2(c)(3) into a device or apparatus capable of performing one or more new mechanical or electrical functions shall have origin in the country of such processing.
 - (3) The following parts shall not be counted for purposes of rule A2(c)(1) nor shall the operations described be deemed to result in a new mechanical or electrical function for purposes of rule A2(c)(2):
 - (i) the attachment of machinery to a base;
 - (ii) the installation of machinery or apparatus into cabinets or similar encasements;
 - (iii) the attachment of parts of general use as defined in Note 2 to Section XVI of the Harmonized System or similar parts of plastic (Chapter 39) ;
 - (iv) the attachment of handles, dials, knobs, hand cranks, and other consumer-operated controls;
 - (v) the attachment of a power cord or change of mains voltage/frequency by adding transformer, adapter or converter;
 - (vi) the installation of batteries, accumulators, sensors, thermostats or other articles not designed to become a permanent part of the good;
 - (vii) the attachment of accessories or parts (including printed circuits with components assembled thereon), which serve only to enhance the operation of the machine or device;
 - (viii) the addition of manuals, warranty cards, certificates of conformance to standards (with or without testing), or labels;
 - (ix) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (x) simple painting and polishing operations;
 - (xi) affixing or printing marks, labels, logos and other distinguishing signs on products or their packaging; or
 - (xii) the installation of software.

B. Residual Rules for Chapters 92 applicable to rules contained in Column (3)

For purposes of Rule 3(d) of Appendix 2 the following residual rules shall be applied in sequence:

1. For goods classifiable under provisions for “parts” or “parts and accessories” and which are not described by name, the country of origin shall be the country of assembly provided the goods are produced by the assembly of two or more parts (other than parts of general use, as defined in Note 2 to Section XV or similar parts of plastic (Chapter 39)), and one or more of the parts (other than parts of general use, as defined in Note 2 to Section XV or similar parts of plastic (Chapter 39)) satisfies the requirements for origin in the country of assembly. For purposes of this rule, the following parts shall not be counted nor shall the operations described be deemed to be origin conferring operations:
 - (a) the attachment of machinery to a base;
 - (b) the installation of machinery or apparatus into cabinets or similar encasements;
 - (c) the attachment of parts of general use as defined in Note 2 to Section XV of the Harmonized System or similar parts of plastic (Chapter 39);
 - (d) the attachment of handles, dials, knobs, hand cranks, and other consumer-operated controls;
 - (e) the attachment of a power cord or change of mains voltage/frequency by adding transformer, adapter or converter;
 - (f) the installation of batteries, accumulators, sensors, thermostats or other articles not designed to become a permanent part of the good;
 - (g) the attachment of accessories or parts (including printed circuits with components assembled thereon), which serve only to enhance the operation of the machine or device;
 - (h) the addition of manuals, warranty cards, certificates of conformance to standards (with or without testing), or labels;
 - (i) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (j) simple painting and polishing operations;
 - (k) affixing or printing marks, labels, logos and other distinguishing signs on products or their packaging; or
 - (l) the installation of software.
2. When the good is produced from materials originating in a single country that did not undergo the change in classification or did not otherwise satisfy the primary rule applicable to the good, the country of origin is the country in which those materials originated;
3. The country of origin shall be the country of origin of that material (or functional element) that gives the good its essential character, to the extent to which the principle of essential character can be applied. Otherwise, the country of origin shall be the country in which the major portion of those materials originated, as determined on the basis of weight.

C. Notes for Chapters 92 applicable to primary rules contained in Column (4)

(a) Application of the value added rule

1. The term "**x% value added rule**" shall mean manufacture where the increase in value acquired as a result of working and processing, and if applicable, the incorporation of parts originating in the country of manufacture represents at least x% of the ex-works price of the product. "X" is the percentage indicated for each heading.

2. The term "**ex-works price**" shall mean the price to be paid for the product obtained to the manufacturer in whose undertaking the last working or processing is carried out (this price shall not include internal taxes which are, or may be, repaid when such product is exported);

3. The term "**value acquired as a result of working and processing and incorporation of parts originating in the country of manufacture**" shall mean the increase in value resulting from the assembly itself, together with any preparatory, finishing and checking operations, and from the incorporation of any parts originating in the country where the operations in question were carried out, including profit and the general costs borne in that country as a result of the operations;

4. The term "**value of non-originating materials**" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the country of importation.

(b) Primary rules with regard to change in classification

1. Goods obtained by disassembly

A change of classification which results from the disassembly of goods shall not be considered as the change required by the rule set forth in this Appendix. The country of origin of the parts recovered from the goods shall be the country where the parts are recovered.

2. Collection of parts

Where a change in classification results from the application of HS General Interpretative Rule 2(a) with respect to collections of parts that are presented as unassembled articles of another heading or subheading the individual parts shall retain their origin prior to such collection.

3. Recertification or retesting

A change of classification which results from the recertification or retesting of the good shall not be considered as the change required by the rule set out in this Appendix.

4. Assembly of the collection of parts

Goods assembled from a collection of parts classified as the assembled good by application of General Interpretative Rule 2 shall have origin in the country of assembly, provided the assembly would have satisfied the primary rule for the good had each of the parts been presented separately and not as a collection.

(c) Primary rules with regard to parts and accessories produced from blanks

The country of origin of goods that are produced from blanks which, by application of the HS General Interpretative Rule 2(a), are classified in the same heading or subheading as the complete or finished goods, shall be the country in which the blank was finished provided finishing included configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.]

[Criterion to apply Appendix 2, Rule 3(f)]

The criterion to determine the major portion of the materials as set forth in Appendix 2, Rule 3(f) for the Chapter is value.

HS Code Number	Description of goods	Origin Criteria	Notes
(1)	(2)	(3)	(4)
Chapter 92	Musical instruments; parts and accessories of such articles	<i>As specified for headings</i>

92.09	Parts (for example, mechanisms for musical boxes) and accessories (for example, cards, discs and rolls for mechanical instruments) of musical instruments; metronomes, tuning forks and pitch pipes of all kinds.	[CTH]	[CTH except from 92.09; or 35% value added rule]

CHAPTER 93

Primary Rules

Notes

1. A good or part produced from a blank for headings 93.05: The country of origin of a good or part produced from a blank, which by application of the Harmonized System General Interpretative Rule 2(a) is classified in the same heading, subheading or subdivision as the complete or finished good or part, shall be the country in which the blank was finished, provided finishing included configuring to final shape by the removal of material (other than merely by honing or polishing or both), or by forming processes such as bending, hammering, pressing or stamping.
2. A good or part produced from a blank for heading 93.07:
 - (a) The country of origin of a good or part produced from a blank for heading 93.07 which by application of the Harmonized System General Interpretative Rule 2(a) is classified in the same heading, subheading or subdivision as the complete or finished good or part, shall be the country in which every working edge, working surface and working part was configured to final shape and dimension, provided, in its imported condition, the blank from which it was produced:
 - (i) was not capable of functioning, and
 - (ii) was not advanced beyond the initial stamping process or any processing required to remove the material from the forging platter or casting mould.
 - (b) If the criteria in paragraph 1 are not satisfied, the country of origin is the country of origin of the blank of this Chapter

[Criteria to apply Appendix 2, Rule 3(f)]

The criteria to determine the major portion of the materials as set forth in Appendix 2, Rule 3(f) for this Chapter is value.

HS Code Number	Description of goods	Origin Criteria
