

**Committee on Sanitary and Phytosanitary Measures**

**UPDATE ON THE OPERATION OF THE STANDARDS AND  
TRADE DEVELOPMENT FACILITY**

Note by the Secretariat<sup>1</sup>

**I. OVERVIEW**

1. The Standards and Trade Development Facility (STDF) aims to improve capacity in developing countries to meet international sanitary and phytosanitary (SPS) requirements and to increase the effectiveness of high-quality SPS-related technical cooperation. In doing so, the STDF contributes to improved food safety, animal and plant health, economic growth, poverty reduction and food security in developing countries. Its work programme focuses on the following five output areas: (i) development of high-quality tools and information resources to support SPS capacity building for use by beneficiaries, donors and other organizations; (ii) dissemination of experiences and good practices in SPS capacity building; (iii) SPS issues and priorities addressed by other trade capacity building programmes at the country level; (iv) improved capacity of beneficiaries of STDF projects to analyse and implement international SPS requirements; and (v) improved capacity of beneficiaries to identify SPS needs and formulate project proposals.

2. The STDF is a joint initiative of the Food and Agriculture Organization (FAO), the World Organization for Animal Health (OIE), the World Bank, the World Health Organization (WHO) and the World Trade Organization (WTO). The WTO provides the secretariat for the STDF. Other participating organizations include the International Trade Centre (ITC), the United Nations Conference on Trade and Development (UNCTAD) and the United Nations Industrial Development Organization (UNIDO). Representatives of donors to the STDF and representatives of developing countries, including LDCs, are also members of the Facility.<sup>2</sup>

3. This document provides an overview of STDF activities in support of its work programme since the previous SPS Committee meeting on 20-21 October 2010, as well as an overview of past and on-going STDF projects and project preparation grants.

**II. OVERVIEW OF STDF ACTIVITIES**

**A. SPS INDICATORS**

4. The STDF, in collaboration with the Organisation for Economic Cooperation and Development (OECD), prepared a third revision of the draft Technical Working Paper on indicators to measure the performance of national SPS systems. This document – and the provisional set of indicators proposed – is a work-in-progress and reflects discussions at the STDF / OECD technical working meeting (Geneva, 1 July 2010), as well as other comments received, and is available at

---

<sup>1</sup> This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights or obligations under the WTO.

<sup>2</sup> More detailed information on the STDF and its activities can be found on the STDF website (<http://www.standardsfacility.org>).

<http://www.standardsfacility.org/TASPSIndicators.htm>. To further advance this work, in 2011-12, the STDF plans to pilot test a set of preliminary indicators to measure the performance of national SPS systems, based on the logframe's intervention logic, in selected developing countries.

#### B. PUBLIC-PRIVATE PARTNERSHIPS

5. In 2010, the STDF initiated new work on Public-Private Partnerships (PPPs) in the SPS area, a topic of increasing interest to many stakeholders in the SPS community. This work included an international workshop in The Hague on 4-5 October 2010, organized in collaboration with the Ministry of Agriculture, Nature and Food Quality of The Netherlands (LNV) and the World Bank Institute (WBI), on the potential role and value of PPPs in facilitating agricultural development and market access, with a focus on PPPs in support of SPS capacity and co-regulatory approaches. An STDF Briefing (N° 6, November 2010) was produced in English, French and Spanish summarizing the main findings and conclusions of the workshop and is available at <http://www.standardsfacility.org/IRBriefings.htm>. In addition, a desk study on PPPs focused on SPS capacity building and co-regulatory approaches is under preparation and will be available soon at <http://www.standardsfacility.org/TAPPP.htm>.

#### C. ECONOMIC ANALYSIS TO INFORM SPS DECISION-MAKING

6. The STDF continued its work on the use of economic analysis to inform SPS decision making and resource allocation, building on the STDF workshop on this topic held in October 2009. A consultant, Spencer Henson, recently developed a framework to apply the "Multi Criteria Decision Analysis" (MCDA) approach in the SPS context. This framework will be pilot tested in 2011 in three countries in Africa (Malawi, Mozambique and Zambia), one in Asia and one in Latin America (countries to be selected) in order to refine the methodology and develop a set of practical tools for staff of authorities responsible for food safety, animal and plant health, and trade. These will include a manual on the MCDA framework, as well as training materials on its application for use by developing country experts. Following the pilot testing exercise at the country level, three regional training workshops will be organized to equip SPS experts in each region with knowledge and skills to apply the MCDA methodology. The first regional workshop is tentatively planned for August 2011 in Johannesburg, South Africa.

#### D. REGIONAL SPS FRAMEWORKS AND STRATEGIES IN AFRICA

7. The STDF prepared and disseminated the results of a scoping study on regional SPS frameworks and strategies in Africa. The study concludes, *inter alia*, that there is potential for the African Union Commission (AUC) and Regional Economic Communities (RECs) to play a coordinating role in SPS issues at the regional/sub-regional level. However, certain conditions must be in place, notably: (i) increased SPS capacity, including core SPS staff, in the AUC and RECs; (ii) high-level national support for the work of the AUC/RECs and commitment of national institutions to regional coordination; and (iii) clarity and consensus on SPS capacity needs and priorities, based on consultation with all concerned public and private stakeholders. The STDF had informal meetings with the AUC and the RECs on the margins of the EU-funded Better Training for Safer Food (BTSF) initiative in October and November 2010 to discuss how to take forward the recommendations in the report. The full report is available at [http://www.standardsfacility.org/Files/Publications/STDF\\_Regional\\_SPS\\_Strategies\\_in\\_Africa.pdf](http://www.standardsfacility.org/Files/Publications/STDF_Regional_SPS_Strategies_in_Africa.pdf).

8. In addition, the STDF will shortly publish a study on national SPS coordination mechanisms in Africa, based on desk research and a series of meetings with stakeholders in a number of countries including Burkina Faso, Namibia, Tanzania and Uganda. The study will analyse existing SPS coordination mechanisms in a number of countries in Africa and propose a set of practical guidelines to inform the future establishment of such mechanisms and enhance national-level SPS coordination.

#### E. STDF FILM

9. The STDF initiated the production of Arabic, Chinese and Russian versions of the "Trading Safely" film (both the 30 minute and eight minute versions), with the financial support of the Safe Supply of Affordable Food Everywhere (SSAFE) Initiative. This new material will soon be available at <http://www.standardsfacility.org/IRVideos.htm>.

#### F. PARTICIPATION IN OTHER INITIATIVES

10. The STDF continued efforts to draw attention to the Facility as an example of "Aid for Trade in action" (at an issue-specific level) and to highlight the impact that SPS measures can have on the ability of developing countries to gain and/or maintain market access. This included participation in Aid for Trade events, including the Aid for Trade Ministerial for the Special Programme for the Economies of Central Asia (SPECA) in Baku, Azerbaijan, in December 2010, and the Regional Aid-for-Trade Forum for the Caribbean in Bridgetown, Barbados in January 2011. On the margins of the Ministerial meeting in Baku, an SPS side-event was organized in collaboration with the United Nations Industrial Development Organization (UNIDO). More information on this side event is available at <http://www.standardsfacility.org/TAidForTrade.htm>.

11. The STDF actively encouraged its partners, donors, observers and other organizations to submit SPS-related case stories for consideration as part of the 3rd Global Aid for Trade Review, which will focus on monitoring and evaluation, on 18-19 July 2011 in Geneva. The STDF also submitted case stories on its own work, in particular related to SPS indicators, economic analysis and public-private partnerships.

12. The STDF continued its collaboration with the Enhanced Integrated Framework (EIF) in the preparation, validation and update of Diagnostic Trade Integration Studies (DTIS) and project development. This included participation in two regional workshops organized by the EIF. The first workshop was for Central and West African Least Developed Countries (LDCs) and Haiti, held from 8-10 December 2010 in Bamako, Mali. The second workshop was for Eastern and Southern African LDCs, from 15-17 February 2011, in Maseru, Lesotho. The need to clearly articulate trade-related priorities in national development strategies, improve monitoring and demonstrate the results of trade-related assistance on economic growth and poverty reduction were among the key issues discussed. For more information see <http://www.enhancedif.org/>.

13. The STDF also participated in a successful pilot training workshop on project design and logical frameworks, which was organized jointly with the EIF in Kathmandu, Nepal, in March 2011. This training activity, conducted by the Centre for International Development and Training (CIDT) of the University of Wolverhampton, United Kingdom, will be replicated in selected LDCs in 2011 in an effort to improve the overall quality and "ownership" of trade-related project proposals. The STDF will participate in these pilot trainings to assist selected public and private sector SPS officials in designing SPS-related projects. Resulting proposals for funding may be submitted for consideration by the EIF, the STDF or an external donor.

14. The STDF participated in and contributed to various internal and external meetings and events since the last SPS Committee meeting in October 2010. These included the Expert Group Meeting and Conference "Strengthening Responsible Business and Good Governance in Africa" in Brussels, Belgium (16-17 November 2010), the Better Training for Safer Food (BTSF) High Level Conference in Brussels, Belgium (18-19 November 2010), regional WTO SPS seminars for Latin America in Lima, Peru (2-5 November 2010) and for Asian and Pacific Countries in Colombo, Sri Lanka, (23-26 November 2010), the OIE Global Conference on Veterinary Legislation in Djerba, Tunisia (7-9 December 2010) and the FAO/WHO Regional Coordinating Committee for Africa (CCAFRICA) in Accra, Ghana (1-4 February 2011).

### III. PROJECT DEVELOPMENT

15. Project preparation grants (PPGs) are a key mechanism in STDF programme development and help overcome constraints faced by developing countries in the articulation of their needs. They also assist in ensuring synergies with other on-going initiatives, in particular Aid for Trade and the EIF, and in the mobilization of funds to implement activities. A total of 45 PPGs have been approved and funded by the STDF since its inception.

16. At the STDF Working Group meeting on 22 October 2010, three PPGs were approved:

- *STDF/PPG/308* – Developing an SPS action plan for the Central African Republic;
- *STDF/PPG/329* – Support to Public and Private Sector for SPS Implementation in Nepal; and
- *STDF/PPG/335* – Strengthening the capacity for phytosanitary controls in the floriculture sector in Uganda.

### IV. PROJECT FUNDING

17. A total of 47 projects have been approved for STDF funding since its inception. In October 2010, the STDF Working Group approved one new project for funding:

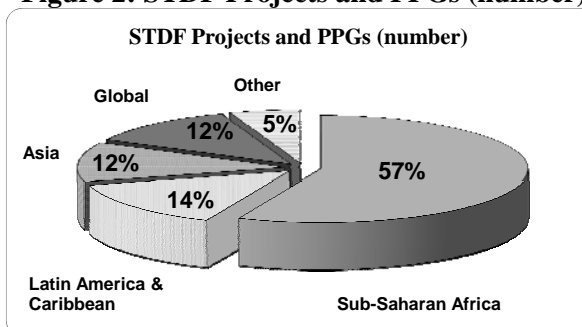

- *STDF/PG/309* – Strengthening SPS capacity in Guinea-Bissau.

18. An overview of the current status of all STDF projects and PPGs benefiting LDCs is provided in Annex I. Since its inception, the STDF has devoted 51 per cent of project resources to LDCs and Other Low Income Countries (OLICs), as shown in Figure 1 below. Hence, the STDF continues to meet its target to devote at least 40 per cent of Facility project resources to LDCs and OLICs. Figure 2 indicates that 57 per cent of the number of STDF projects and PPGs has gone to Sub-Saharan Africa, 14 per cent to Latin America and the Caribbean, and 12 per cent to Asia. In addition, 12 per cent of STDF projects and PPGs can be classified as global.

**Figure 1: STDF projects and PPGs (US\$)**

**Figure 2: STDF Projects and PPGs (number)**

19. Applications for STDF funding can be made at any point in the year but should be received at least 60 working days in advance of each Working Group meeting in order to be considered at that meeting. The next deadline for the submission of applications is 8 April 2011. Applicants are strongly encouraged to read the "Guidance Note for Applicants" available on the STDF website.
