29 September 2004

(04-4085)

Committee on Sanitary and Phytosanitary Measures

SUMMARY OF THE MEETING HELD ON 22-23 JUNE 2004

Note by the Secretariat²

Corrigendum

The paragraph 132 of G/SPS/R/34 should read as follows:

Peru – Situation regarding FMD

132. The representative of reported that in the past three years and eight months, no disease focus had been observed. Currently 97 per cent of the national territory was declared free of FMD with vaccination. In one of the areas free with vaccination, the monitoring system had observed eight foci in the Lima department of the type O virus in June 2004. This information had been provided to the OIE on 26 June 2004. The last FMD focus in Peru had been observed in October 2000; virus type O had been last observed in 1997. The government had adopted comprehensive sanitary measures to control and eradicate the FMD virus.
