**Committee on Trade and Environment**

## **ENVIRONMENTAL DATABASE FOR 2004**

Note by the Secretariat

Corrigendum

Please note that on page 30, G/SPS/N/TPKM/4 should read G/SPS/N/TPKM/81; on page 34, the second last column should be placed under G/SCM/N/95/HUN (page 43); on pages 56 and 57, "non-renewable" should read "renewable"; and on page 65, "acrylic" should read "acyclic". Furthermore, Table 6 (pages 48-56) should be replaced with the attached.

<sup>1</sup>In English only

Table 6: Environment-related Agriculture Notifications (2004)

Symbol	Member	Measure Or Programme	Objective
G/AG/N/ARM/2	Armenia (2003) <i>Green Box Measure</i> General services	Research	To determine sub soil water levels and quality.
		Extension and advisory services	To put in place hydro-meteorological measures to implement environmental and other programs.
G/AG/N/AUS/52	Australia (2002 - 2003) <i>Green Box Measure</i>	Red Meat Research and Development	To further the sustainable use and management of natural resources.
		Rural Industries Research and Development	To provide support for management of research and development programmes for the rural sector focussing on generic programmes such as agribusiness, extension, rural education and climate change.
		National Weeds Program	To reduce the detrimental impact of nationally significant weeds on the sustainability of Australia's natural ecosystem and production capacity.
		Natural Resources Management Program	To minimize land degradation, identify impacts on crops, predict movements through the environment and develop ways of understanding, recognizing and achieving long-term viability.
		Tasmania	To develop and improve efficient and sustainable practices in agriculture
		Rabbit Management	To minimize the economic, environmental and social impacts caused by rabbits by encouraging farmers to implement integrated rabbit control programmes.
		Pest Animal Management	To provide advisory services to minimise the economic, environmental and social impact on all lands in Victoria of actual and potential animal pests.
		Western Australia	To provide training support for sustainable rural management, trade and market development.
		QDPI: - Natural Resources Management Program	To help increase awareness about the sustainable management of natural resources.
		South Australia	To provide extension advice to enhance sustainable economic development.
		Western Australia	To enhance production practices, promote ecologically sustainable development and pest and disease control.
		Tasmania	To ensure the continued development of efficient and sustainable agriculture.
Environmental programmes	To support natural resource management.		

Symbol	Member	Measure Or Programme	Objective
		NHT - National Rivercare Program	To assist community groups to contribute towards the sustainable management, rehabilitation and conservation of rivers and to improve the health of these river systems.
		NHT - Murray-Darling 200114	To promote and coordinate effective planning and management for the equitable, efficient and sustainable use of the water, land and other environmental resources of the Murray-Darling Basin.
		NHT - Farm Forestry Program	To encourage the incorporation of commercial tree growing and management into farming systems.
		Australian Capital Territory	To assist the community groups for sustainable production and conservation of biodiversity and natural resource management.
		Rural Conservation Fund	To provide financial assistance for projects that address conservation criteria such as the management of protected species and habitats and aquatic ecosystems.
		New South Wales	To provide funding for programmes for preventing and mitigating degradation of land and water resources associated with agricultural production.
		Northern Territory - Land Resource Conservation	To identify land resources and evaluate their opportunities and constraints in order to facilitate sustainable development; develop and promote land management practices which conserve, enhance, and rehabilitate land resources including the pastoral estate.
		South Australia - Revegetation	To help communities initiate revegetation projects.
		Tasmania	To limit environmental damage and encourage sound practices to minimise soil erosion and water damage.
		Western Australia	To provide environmental services for all agricultural industries.
G/AG/N/AUS/57	Australia (2003 -2004) <i>Article 16.2 of the Agreement</i>	Technical and financial assistance under paragraph 3 (iii) of the Decision on	To reduce poverty and achieve sustainable development in developing countries not just by improving agriculture and rural development, but also by directing its efforts across a variety of sectors.
		Bilateral and regional programmes	To support programmes in forestry and fisheries, environmental management, management of water resources.

Symbol	Member	Measure Or Programme	Objective
G/AG/N/BRB/16	Barbados (2000 -2002)  <i>Green Box Measure</i>  General Services	Scotland District Development and Protection	To provide for activities for the continuing programme of soil stabilisation and maintenance activities.
		Regulatory programme	To provide the regulatory basis for the protection of the environment from the potentially dangerous side-effects of the production of agriculture crops using modern technology.
G/AG/N/CHL/14	Chile (2001 -2002)  <i>Green Box Measure</i>  General Services	Agricultural research	To generate, adapt and disseminate scientific and technological knowledge and products that contribute to the sustainable (social, economic and environmental) development of the competitiveness of the various actors involved in the agricultural sector.
G/AG/N/CYP/14	Cyprus (2002)  <i>Green Box Measure</i>  General services	Research services	To provide support for research including general research, research in connection with environmental programmes, and research programmes relating to particular products.
		Training services	To provide agricultural training services.
		Infrastructural services	To assist in the development of livestock areas and zones and other infrastructural works for livestock (including works for environmental protection such as treatment of waste, etc.).
		Subsidies for soil conservation works	To provide financial assistance for the construction of soil conservation works for agricultural development.
G/AG/N/CZE/52	Czech Republic (2002)  <i>Green Box Measure</i>	Environmental programmes	To support ecological stability and ecological Agriculture.
G/AG/N/DOM/9	Dominican Republic (2003) <i>Green Box Measure</i>	Environmental Programmes	Natural resource development.
G/AG/N/EEC/49	European Communities (2000 – 2001)  <i>Green Box Measure</i>  General Services	Environmental Programmes	To protect the environment and preserve the countryside, control soil erosion and extensification and aid environmentally sensitive areas; to support and protect organic production by creating conditions of fair competition; to aid forestry measures in agriculture; to conserve genetic resources in agriculture.

Symbol	Member	Measure Or Programme	Objective
G/AG/N/EEC/50	European Communities (2001 – 2002)	Development projects with other countries: Bhutan	To provide extension support in Renewable Natural Resources (1997 – 2003). To assist in the Wang Watershed Management (1997 – 2005).
	Notification under Article 16:2	Development projects with other countries: Egypt	To provide support for the Kafr El Sheik soil improvement.
		Development projects with other countries: Honduras	To provide support for Programme for Agricultural Development and Land Conservation.
		Development projects with other countries: Laos	To provide support for the Phong Sali Forest Conservation and Rural Development.
		Development projects with other countries: Tunisia	To provide support for the Integrated Rural Development and Management of Natural Resources.
G/AG/N/EEC/51	European Communities (2003)	Infrastructural Services	To support arterial drainage; collective irrigation schemes; provide electricity and water supply; farm roads; construction of reservoirs; flood protection.
	<i>Green Box Measure</i>	Resource Retirement Programmes	To set-aside at least 20 per cent cultivated land to be left fallow, wooded or used for non-agricultural purposes.
		Environmental Programmes	To protect environment and preserve the countryside; control soil erosion; give aid for environmentally sensitive areas; support and protect organic production by providing aid; forestry measures in agriculture; and conservation of genetic resources in agriculture.
G/AG/N/GEO/5	Georgia (2002-2003) <i>Green Box Measure</i>	Infrastructural services	To promote reforestation
G/AG/N/HND/16	Honduras (2002 – 2003) <i>Green Box Measure</i>	Tri-national sustainable development programme for the upper lempa river basin	To provide assistance to raise the living standards of the inhabitants of the upper lempa river basin by way of measures encouraging the sustainable development of the intervention area, with a view to breaking the poverty-degradation of natural resources cycle.
		Land-use planning and protection of watersheds and protected areas	To ensure, in conjunction with the communities in the departments of Ocotepeque, Intibucá and Colón, the conservation, delimitation and legalization of small watersheds and water sources.
		Forest policy support project (PROFOR) AFE, COHDEFOR	To promote reforestation.

Symbol	Member	Measure Or Programme	Objective
		Mangrove Management and Conservation Project	To provide training in environmental protection and conservation for communities in the coastal maritime zone in the Gulf of Fonseca and the departments of Valle and Choluteca, which border the mangrove forest.
G/AG/N/HND/16/ Rev.1	Honduras (2001 – 2002) <i>Development Programme</i>	Launch and development of PRONADERS Programme DINADERS, SAG	To raise the living standards of the population and maximizing the potential of natural resources through human, social, environmental and production-oriented development.
	Honduras (2002 – 2003) <i>Green Box Measure</i>	Tri-National Sustainable Development Programme for the Upper Lempa River Basin	To raise the living standards of the inhabitants of the upper Lempa River basin by way of measures encouraging the sustainable development of the intervention area, with a view to breaking the poverty-degradation of natural resources cycle.
		Land-use planning and protection of watersheds and protected areas	To ensure the conservation, delimitation and legalization of small watersheds and water sources.
G/AG/N/HND/17	Honduras <i>Article 18.3 of the Agreement</i>	Mangrove Management and Conservation Project (PROMANGLE). AFE, COHDEFOR	To train environmental protection and conservation for communities in the coastal maritime zone in the Gulf of Fonseca and the departments of Valle and Choluteca, which border the mangrove forest.
		Tri-National Sustainable Development Programme for the Upper Lempa River Basin (SAG)	To raise the living standards of the inhabitants of the upper Lempa River basin by way of measures encouraging the sustainable development of the intervention area, with a view to breaking the poverty-degradation of natural resources cycle.
		Forest Policy Support Project (PROFOR). AFE, COHDEFOR	To apply elements of a forest policy based on the conceptualization of social forestry as an essential part of Honduran development plans and on the implementation of social forestry concepts in specific areas of the country as a strategy to alleviate poverty and reduce ecological vulnerability.
		Land-use planning and protection of watersheds and protected areas (Land programme). AFE, COHDEFOR	To promote conservation, delimitation and legalization of small watersheds and water sources.
G/AG/N/HND/17/ Rev.1	Honduras <i>Article 18.3 of the Agreement</i>	Land-use planning and protection of watersheds and protected areas (Land programme). AFE, COHDEFOR.	To promote Conservation, delimitation and legalization of small watersheds and water sources.

Symbol	Member	Measure Or Programme	Objective
		Tri-National Sustainable Development Programme for the Upper Lempa River Basin (SAG)	To raise the living standards of the inhabitants of the upper Lempa River basin by way of measures encouraging the sustainable development of the intervention area, with a view to breaking the poverty-degradation of natural resources cycle.
G/AG/N/HUN/33	Hungary (1999 - 2000) <i>Green Box Measure</i>	Environmental programmes	To provide assistance to the protection of arable land.
G/AG/N/HUN/37	Hungary (2001 - 2002) <i>Green Box Measure</i>	Structural adjustment assistance provided through investment aids	To provide assistance to soil melioration and irrigation investment.
		Environmental programmes	To provide assistance to the protection of arable land.  To provide assistance to the implementation of the National Agricultural Environment Protection Programme.
		Other	To provide assistance to mending, cultivating and preserving the quality of forests.
G/AG/N/ISR/33	Israel (2002) <i>Green Box Measure</i>	Services for farmers	To provide assistance to plant protection services and soil conservation.
G/AG/N/JPN/98	Japan (2000) <i>Green Box</i>  General Services	Environmental programmes	To support programme for reduction of environmental burden due to dairy farming: payments to dairy farmers who practice appropriate management to tackle environmental problems.
		Research programmes	To research in connection with environmental programmes, and research programmes relating to particular products.
G/AG/N/NZL/39	New Zealand (2002 – 2003) <i>Article 16.2 of the Agreement</i>	Bilateral Programmes on least-developed and net food-importing developing countries	To provide technical and financial assistance to improve their agricultural productivity and sustainability, enhance food security, develop infrastructure and create greater revenue-earning opportunities.
G/AG/N/NZL/40	New Zealand (2003 -2004) <i>Article 16.2 of the Agreement</i>	Bilateral Programmes on least-developed and net food-importing developing countries	To provide technical and financial assistance to improve their agricultural productivity and sustainability, enhance food security, develop infrastructure and create greater revenue-earning opportunities.
G/AG/N/NIC/16/Rev.1	Nicaragua (2002) <i>Green Box Measure</i> General services	Research	To promote sustainable forestry and facilitation of access to forestry information.
		Training and advisory service	To support rural development initiative through the promotion of production techniques to boost productivity and the reduction of costs and climatic and environmental vulnerability.

Symbol	Member	Measure Or Programme	Objective
		Other services	To support green municipalities with regard to the transformation and diversification of sustainable production, increasing productivity, rehabilitation, reduction of vulnerability and environmental education.
G/AG/N/POL/60	Poland (2002) <i>Green Box Measure</i>	Other services: Structures and infrastructures	To modernize rural infrastructure and environment protection.
G/AG/N/SVK/42	Slovak Republic (2002) <i>Green Box Measure</i>	Environmental programmes	To promote ecological procedures and conservation of genetic resources
G/AG/N/SVN/28	Slovenia (2003) <i>Green Box Measure</i>	Environmental programmes	To support ecological production methods.
G/AG/N/THA/50	Thailand (1999) <i>Green Box Measure</i> General Services	Environmental Programme	The programmes aim at encouraging producers to use soil and water resources appropriately in order to prevent soil and water problems which may affect the environment, promoting the easy-to-do techniques to solve the problems of soil and water deterioration and encouraging the use of non-chemical substances in farming.
G/AG/N/TUN/30	Tunisia (2001) <i>Green Box Measure</i> General services	Environnemental conservation	To promote land and afforestation works
G/AG/N/USA/51	United States (2000 - 2001) <i>Green Box Measure</i> <i>General Services</i>	Agricultural Research Service (ARS)	To conduct research and advisory function on a wide variety of topics, including soil and water conservation, plant and animal sciences, human nutrition, and integrated agricultural systems.
		Tennessee Valley Authority (TVA)	To conduct research and advisory function on problems related to agricultural development, environmental quality, and fertilizer material and practices.  To provide information about family farming and profitability using sustainable and environmentally friendly methods.
		Waste management program	To conducts research on problems related to agricultural development, environmental quality; and to prevent pollution.

Symbol	Member	Measure Or Programme	Objective
		Conservation Program Technical Assistance	To research on development of efficient wetlands and of organic plant food and cattle feed from agricultural wastes (broiler litter), and other creative waste management methods.
		Natural Resource Conservation Service (NRCS)	To help producers participate in environmental and conservation programs, such as the Conservation Reserve Program (CRP), Environmental Quality Incentives Program, and the Wetland Reserve Program.
		Conservation Reserve Program (revised)	To promote conservation of soil and water, NRCS provides technical assistance, conducts soil surveys, and assesses erosion factors; assists individuals and localities to develop area-wide plans for resource conservation and development.
		Environmental payments	To reduce soil erosion.
		Wildlife Habitat Incentives Program	To assist farmers to use sound soil and water conservation practices; help landowners implement long term conservation measures; conserve wetlands.
		Wetland Reserve Program	To provide technical assistance and cost-share assistance to landowners to develop habitat for upland wildlife, wetlands wildlife, endangered species, fish and other wildlife.
		Farmland Protection Program	To conserve and restore wetlands through long-term agreements.
		Environmental Quality Incentives Program (EQIP)	To protect top soil by limiting conversion to non-agricultural uses.
