SEVENTH SCHEDULE
VALUE OF IMPORTED GOODS
(s127B)

The customs value of imported goods shall be determined through application of the following Articles in the sequence indicated except where otherwise stated.

ARTICLE 1

Value of the Goods

The customs value of imported goods shall be the price actually paid or payable for the goods when sold for export to Kenya, adjusted in accordance with the provisions of Article 8, provided:

- (1)(a) That there are no restrictions as to the disposition or use of the goods by the buyer other than restrictions which:
 - (i) are imposed or required by law;
 - (ii) limit the geographical area in which the goods may be resold; or
 - (iii) do not substantially affect the value of the goods; and
 - (b) That the price is not subject to some condition or consideration for which a value cannot be determined with respect to the value of the goods being valued.
 - (c) That no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with the provisions of Article 8; and
 - (d) That the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is accepted for customs purposes under the provisions of paragraph (2).
- (2)(a)
 - (i) in cases where the buyer and the seller are related, within the meaning of Article 15, the transaction value shall be accepted provided that the relationship did not influence the price;
 - (ii) where the customs has grounds for considering that the relationship influenced the price of the goods, it shall communicate the grounds in writing to the importer and shall afford reasonable time for the importer to respond thereto.
 - (b) The customs shall accept the transaction value in a sale between related persons where the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time:
 - (i) the transaction value in sales by the same party to unrelated buyers of identical or similar goods sold for export to Kenya;
 - (ii) the customs value of identical or similar goods as determined under the provisions of Article 5;
 - (iii) the customs value of identical or similar goods as determined under the provisions of Article 6.

- (c) In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 8 and costs incurred by the seller in sales in which the seller and the buyer are related.
- (d) The tests set forth in paragraph (2)(b) shall be applied at the initiative of the importer and only for comparison purposes.

ARTICLE 2

Transaction Value of Identical Goods

- (1)(a) If the customs value of imported goods cannot be determined under the provisions of Article 1, the customs value shall be the transaction value of identical goods sold by other sellers for export to Kenya at or about the same time as the goods being valued.
- (b) Under this Article, the transaction value of goods shall be:
 - (i) the transaction value of identical goods in a sale at the same commercial level and in substantially the same quantity as the good being valued; or shall be used to determine the customs value;
 - (ii) where no such sale is found, the transaction value of identical goods sold at a different commercial level or in different quantities adjusted to take account of differences attributable to commercial level or to quantity.

Provided that such adjustments are made on the basis of demonstrated evidence which establishes the reasonableness and accuracy of adjustment, whether the adjustment leads to an increase or a decrease in the value.

- (2) Where the cost and charges referred to in paragraph (2) of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in cost and charges between the imported goods and the identical goods in question arising from differences in distances and mode of transport.

- (3) If, in applying this Article, more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods being valued.

ARTICLE 3

Transaction Value of Similar Goods

- (1)(a) If the customs value of the imported goods cannot be determined under the provisions of Articles 1 or 2, the customs value shall be the transaction value of similar goods sold for export to Kenya and exported at or about the same time as the goods being valued.
- (b) Under this method, the transaction value shall be determined using:
 - (i) the transaction value of similar goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued; or
 - (ii) the transaction value of similar goods sold at a different commercial level or in different quantities adjusted to take account of differences attributable to commercial level or to quantity:

Provided that such adjustments are on basis of demonstrated evidence which establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or decrease in value.

(2) Where the cost and charges referred to in paragraph (2) of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

(3) If, in applying this Article, more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value of the imported goods being valued.

ARTICLE 4

Where the customs value of imported goods cannot be determined under the provisions of Articles 1, 2 or 3, Articles 5 and 6 may be applied, and the sequence of application shall be reversed at the request of the importer.

ARTICLE 5

Deductive Value

(1)(a) If the imported good or identical or similar imported goods are sold in Kenya in the same condition as they were imported the customs value of the imported goods under the provisions of this Article shall be based on the unit price at which the imported goods or identical or similar goods are sold in the greatest aggregate quantity, at or about the time of importation of the goods being appraised, to persons who are not related to the persons from whom they buy such goods, subject to deductions for the following:

- (i) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses in connection with sales of such goods or goods of the same class or kind imported into Kenya;

(b) If neither the imported goods nor identical nor similar imported goods are sold at or about the same time of importation as the goods being appraised, the customs value shall, subject to the provisions of paragraph (1)(a) be based on the unit price at which the imported goods or identical or similar imported goods are sold in Kenya in the same condition as imported at the earliest date after importation of the goods being appraised but before the expiration of ninety days after such importation.

(2) If neither the imported goods nor identical nor similar imported goods are sold in Kenya in the same conditions as imported, then, if the importer so requests, the customs value shall be based on the unit price at which the imported goods, after further processing are sold in the greatest aggregate quantity to persons in Kenya who are not related to the persons from whom they bought such goods, due allowance being made for the value added by such processing and the deductions provided for in paragraph 1(a).

(3) The term "unit price at which goods are sold in the greatest aggregate quantity" means the price at which the greatest number of units is sold in sales to persons who are not related to the

persons from whom they bought such goods at the first commercial level after importation at which such sales take place.

However, the Commissioner as provided under Section 8 of this Act shall verify information supplied by the producer of the goods, through the importer in the country of export.

ARTICLE 7

(1) If the customs value of the imported goods cannot be determined under the provisions of Articles 1 through 6, the customs value shall be determined using reasonable means consistent with the principles and general provisions of the World Trade Organization (WTO) Agreement on Customs Valuation and of Article VII of GATT 1994 and on the basis of available data collected by customs or supplied by the importer.

(2) However, no customs value shall be determined under the provisions of this Act on the basis of:
