(b) where an international application for a patent (Singapore) is to be treated as an application for a patent under the Act, the date of filing of the earliest application filed in or for a country which is a convention country or which, in accordance with

the law of a convention country or a treaty or international convention to which a convention country is a party, is equivalent to such an application, the priority of which is claimed in a declaration filed for the purposes of Article 8 of the Patent Cooperation Treaty, provided that such priority claim has not been lost or abandoned under the provisions of that Treaty;

Costs

5.—The Registrar may make an order for costs in respect of —

- (a) any of the matters set out in the second column of Part I of the Third Schedule; and
- (b) the expenses and allowances of a person in relation to proceedings under the Act or these Rules.

Taxation of costs

6.—(1) Where the Registrar has made an order for costs in favour of a party to proceedings before the Registrar and the party wishes to have party and party costs taxed by the Registrar, the party shall, within one month from the date of the order for costs —

- (a) apply for the costs to be taxed by filing a copy of the bill of costs; and
- (b) send at the same time a copy of the bill of costs to every other person entitled to be heard in the taxation proceedings.

(2) Every bill of costs shall set out in 2 separate sections the following:

- (a) work done in the cause or matter; and
- (b) all disbursements made in the cause or matter.

(3) The costs claimed under paragraph (2) shall set out the sum claimed for each item.

(4) The bill of costs shall set out in chronological order, with dates, all relevant events in the cause or matter.

(5) Where costs have already been awarded for any of the events set out, this fact and the amount awarded shall be indicated.

(6) Any party on whom a copy of the bill of costs has been served in accordance with paragraph (1) shall, if he wishes to dispute the bill, within 14 days from the receipt of the copy of the bill, mark the copy thereof in accordance with paragraph (7) and send a copy thereof duly marked to both the Registrar and the party requesting for taxation.

(7) A party on whom a copy of the bill of costs has been served shall effect marking on the copy thereof served by writing on the right hand margin against each item the word "Agree" if he agrees with the cost claimed for that item or the word "Disagree" if he disagrees.

(8) Upon the expiry of the period of time referred to in paragraph (6), the Registrar shall give to the parties entitled to be heard in the taxation proceedings notice of the date and time appointed for taxation.

(2) The Registrar may, if he thinks it is necessary to do so, adjourn the proceedings from time to time.

(3) The provisions relating to the scale of costs in the Third Schedule shall apply to the taxation proceedings.

(4) When the bill has been taxed, the Registrar shall proceed to make his certificate for the amount of the taxed costs.

(5) Costs awarded in proceedings before the Registrar are not intended to compensate the parties for the expense to which they have been put.

International exhibitions

8.—(1) An applicant for a patent who wishes the disclosure of matter constituting an invention to be disregarded in accordance with section 14 (4) (c) shall, within the same day of filing the application for the patent, inform the Registrar in writing that the invention has been displayed at an international exhibition.

(2) The applicant shall, within 4 months from the day of filing the application, file a certificate, issued by the authority responsible for the exhibition, stating that the invention was in fact exhibited there.

(3) The certificate shall also state the opening date of the exhibition and, where the first disclosure of the invention did not take place on the opening date, the date of the first disclosure.

(4) The certificate shall be accompanied by an identification of the invention, duly authenticated by the authority.

Declaration of priority for purposes of section 17 (2)

9.—(1) Subject to paragraph (2), a declaration for the purposes of section 17 (2) made in or in connection with an application for a patent (referred to in this rule and rules 9A and 9B as the application in suit) shall be made at the time of filing the application in suit.

(2) A declaration for the purposes of section 17 (2) may be made after the date of filing if —

(a) it would cause —

(i) the application in suit to have a declared priority date, where there was none previously; or

(ii) the declared priority date of the application in suit to be brought forward to an earlier date;

(b) it is made within 16 months from —

(i) where sub-paragraph (a) (i) applies, the declared priority date; or

(ii) where sub-paragraph (a) (ii) applies, the earlier date;

(c) it is made on Patents Form 57;

(d) the prescribed fee has been paid; and

(e) the condition referred to in paragraph (4) is satisfied.

(3) Where a request to the Registrar to correct a mistake in a declaration for the purposes of section 17 (2) would, if granted, cause the declared priority date to be changed to a different date, the request shall not be granted unless —

(a) it is made within 16 months from the declared priority date, as changed;

(b) it is made on Patents Form 57;

(c) the prescribed fee has been paid; and

(d) the condition referred to in paragraph (4) is satisfied.

(4) For the purposes of paragraphs (2) (e) and (3) (d), the condition is that —

(a) the applicant has not made any request under section 27 (2) to publish the application in suit during the period prescribed for the purposes of section 27; or

(b) any such request has been withdrawn.

(5) Subject to paragraph (6), a declaration for the purposes of section 17 (2) shall specify, in respect of each priority application —

(a) the date of filing of the priority application; and

(b) the country in or for which the priority application was made.

(6) Where the application in suit is an international application for a patent (Singapore), paragraph (5) shall not apply in respect of a priority application if —

(a) the date of filing of that priority application; and

(b) the country in or for which that priority application was made,

have been indicated in compliance with rule 4.10 (a) and (b) of the Regulations under the Patent Cooperation Treaty.

(7) Where section 26 (11) applies, a declaration for the purposes of section 17 (2) shall not be made in or in connection with a new application referred to in section 26 (11) if the declaration has not also been made in or in connection with the earlier application.

(8) In this rule and rules 9B and 9C —

"priority application" means an earlier relevant application specified in a declaration for the purposes of section 17 (2);

"relevant application" has the same meaning as in section 17 (5).

Request to Registrar for permission to make late declaration under section 17 (2B)

9A.—(1) The period prescribed for the purposes of section 17 (2A) (b) shall be 2 months.

(2) For the purposes of section 17 (2D) (a), a request under section 17 (2B) shall —

(b) be made on Patents Form 57;

(c) be made only if the prescribed fee has been paid;

(d) if the applicant failed to file the application in suit within the period referred to in section 17 (2A) (a), state the reason for the failure to file the application in suit within that period; and

(e) be made only if —

(i) the request relates to an international application for a patent (Singapore); or

(ii) where the request does not relate to an international application for a patent (Singapore), the condition referred to in paragraph (3) is satisfied.

(3) For the purposes of paragraph (2) (e) (ii), the condition is that —

(a) the applicant has not made any request under section 27 (2) to publish the application in suit during the period prescribed for the purposes of section 27; or

(b) any such request has been withdrawn.

(4) Where the Registrar determines that every applicable condition referred to in section 17 (2D) for granting a request under section 17 (2B) has been satisfied, the Registrar shall grant the request and notify the applicant accordingly.

(5) Where the condition referred to in section 17 (2D) (b) for granting a request under section 17 (2B) has not been satisfied, the Registrar shall notify the applicant that the Registrar intends to refuse the request unless —

(a) observations are made or evidence is filed, within 2 months from the date of the notification, to satisfy the Registrar that the applicant's failure to file the application in suit within the period referred to in section 17 (2A) (a) —

(i) occurred in spite of due care required by the circumstances having been taken; or

(ii) was unintentional; and

(b) the Registrar is so satisfied on the observations made or evidence filed.

(6) Where paragraph (5) applies, the Registrar shall refuse the request under section 17 (2B), and shall inform the applicant accordingly, if —

(a) the applicant fails to make the observations or file the evidence within 2 months from the date of the Registrar's notification; or

(b) the Registrar is not satisfied, on all the observations made and evidence filed, that the applicant's failure to file the application in suit within the period referred to in section 17 (2A) (a) —

(i) occurred in spite of due care required by the circumstances having been taken; or

(ii) was unintentional.

Furnishing of application or file number and of priority documents to support declaration under section 17 (2)

9B.—(1) Subject to paragraph (3), the applicant shall, before the end of the period of 16 months from the declared priority date, furnish to the Registry the application or file number of each priority application.

(2) Subject to paragraph (3), if the applicant fails to comply with paragraph (1) in respect of any priority application, the declaration for the purposes of section 17 (2) shall be disregarded in so far as it relates to that priority application.

(3) Where the application in suit is an international application for a patent (Singapore), paragraphs (1) and (2) shall not apply in respect of any priority application the application or file number of which has been indicated in compliance with rule 4.10 (a) of the Regulations under the Patent Cooperation Treaty.

(4) Where the Registrar, by notice sent to the applicant or proprietor, as the case may be, requires him to furnish to the Registry, in respect of any priority application, a copy of that priority application which is —

(a) duly certified by the authority with which it was filed; or

(b) otherwise acceptable to the Registrar,

the applicant or proprietor, as the case may be, shall, within 2 months from the date of the notice —

(i) comply with the Registrar's requirement; or

(ii) if a copy of that priority application is kept at the Registry, as an alternative to complying with the Registrar's requirement, file —

(A) a request that a copy of that priority application be prepared; and

(B) Patents Form 26 requesting the Registrar to certify the prepared copy.

(5) If the applicant or proprietor, as the case may be, fails to comply with paragraph (4) in respect of any priority application, the declaration for the purposes of section 17 (2) shall be disregarded in so far as it relates to that priority application.

Translation of priority documents

9C.—(1) Where —

(a) a copy of any priority application is furnished under rule 9B (4);

(b) that priority application is in a language other than English;

(c) the validity of the claim to priority is relevant to determining whether the invention concerned is patentable; and

(d) the Registrar, by notice sent to the applicant or proprietor, as the case may be, requires him to furnish to the Registry an English translation of that priority application,

the applicant or proprietor, as the case may be, shall, within 2 months from the date of the notice —

(i) furnish to the Registry both of the following at the same time:

(A) an English translation of that priority application;

(B) a copy of a verification document —

(BA) made in accordance with the Registrar's requirements; and

(BB) verifying that the translation corresponds to the original text of that priority application; or

(ii) if an English translation of that priority application is kept at the Registry, as an alternative to complying with the Registrar's requirement, file —

(A) a request that a copy of the translation be prepared; and

(B) Patents Form 26 requesting the Registrar to certify the prepared copy.

(2) The Registrar may, by notice, require to be filed at the Registry or sent to the Registrar, within such period as may be specified in the notice, the original of the verification document.

(3) If the applicant or proprietor, as the case may be, fails to comply with —

(a) paragraph (1) in respect of any priority application; or

(b) the Registrar's requirement under paragraph (2) in respect of any verification document relating to any priority application,

the declaration for the purposes of section 17 (2) shall be disregarded in so far as it relates to that priority application.

(d) every person who has been identified in the application for a patent or a statement filed under section 24 (2) (a) as being, or being believed to be, the inventor or joint inventor of the invention.

(3) If any person who is sent a copy of the reference and statement under paragraph (2) wishes to oppose the making of the order or the granting of the relief sought, he ("the opponent") shall, within 2 months from the date of the Registrar's letter forwarding such copies, file a counter-statement on Patents Form 3 setting out fully the grounds of his opposition and the Registrar shall send a copy of the counter-statement to the person making the reference and to those recipients of the copy of the reference and statement who are not party to the counter-statement.

(4) The person making the reference or any such recipient may, within 2 months from the date of the Registrar's letter forwarding a copy of the counter-statement, file evidence in support of his case and shall send a copy of the evidence —

(a) in any case, to the opponent; and

(b) in the case of evidence filed by such a recipient, to the person making the reference.

(5) Within 2 months from the date of the Registrar's letter forwarding the copy of such evidence to him or, if no such evidence is filed, within 2 months from the expiration of the period within which the copy of such evidence could have been filed, the opponent may file evidence in support of his case

and shall send a copy of the evidence so filed to the person making the reference and those recipients; and, within 2 months from the date of receipt of the copy of the opponent's evidence, that person or any of those recipients may file further evidence confined to matters strictly in reply and shall send a copy of it to the persons mentioned in paragraph (4) (a) and (b).

(6) No further evidence shall be filed except by leave or direction of the Registrar.

(7) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

11.—(1) A reference under section 20 (1) (b) shall be made on Patents Form 2 and shall be accompanied by a copy thereof and a statement setting out fully the nature of the question, the facts relied upon by the co-proprietor making the reference and the order he is seeking.

(2) The Registrar shall send a copy of the reference and statement to —

(a) each co-proprietor who is not a party to the reference and who has not otherwise indicated, in writing, his consent to the making of the order sought;

(b) any person to whom it is alleged in the reference that any right in or under an application for a patent should be transferred or granted;

(c) any person (not being a party to the reference) who is shown in the register as having a right in or under the patent application;

(9) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

Orders under section 20

12.—(1) Where an order is made under section 20 that an application for a patent shall proceed in the name of one or more persons none of whom was an original applicant, the Registrar shall notify all original applicants and their licensees, of whom he is aware, of the making of the order.

(2) A person notified under paragraph (1) may make a request under section 23 (3) within 2 months from the date of the notification received from the Registrar.

Prescribed period for new application under section 20 (3)

13.—The prescribed period for the purpose of subsection (3) of section 20 shall be 3 months from the day on which the time for appealing from an order made under that subsection expires without an appeal being brought or, where an appeal is brought, from the day on which it is finally disposed of.

Request by joint applicants under section 22

15.—(1) A request under section 22 by a joint applicant shall be made on Patents Form 5 and shall be accompanied by a copy thereof and a statement setting out fully the facts upon which he relies and the directions which he seeks.

(2) The Registrar shall send a copy of the request and statement to each of the other joint applicant who shall, if he wishes to oppose the request, within 2 months from the date of the Registrar's letter forwarding such copies to him, file a counter-statement on Patents Form 3 setting out fully the grounds of his opposition, and the Registrar shall send a copy of the counter-statement to the person making the request and to each of the other joint applicant who is not a party to the counter-statement.

(3) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

Referral to Registrar under section 23

16.—(1) Where, following the making of such an order as is mentioned in section 23 (3), a question is referred to the Registrar under section 23 (5) as to whether any person is entitled to be granted a licence or whether the period or terms of the licence are reasonable, the reference shall be made on Patents Form 6 and shall be accompanied by a copy thereof and a statement setting out fully the facts upon which the person making the reference relies and the terms of the licence which he is prepared to accept or grant.

(2) The Registrar shall send a copy of the reference and statement to every person in whose name the application is to proceed or, as the case may be, every person claiming to be entitled to be granted a licence, in either case not being the person who makes the reference, and if any recipient does not agree to grant or accept a licence for such period and upon such terms, he shall, within 2 months from the date of the Registrar's letter forwarding such copies to him, file a counter-statement on Patents Form 3 setting out fully the grounds of his opposition and the Registrar shall send a copy of the counter-statement to the person making the reference.

INVENTORS

Mention of inventor

17.—(1) An application to the Registrar under section 24 (1) or (3) by any person who alleges —

(a) that he ought to have been mentioned as the inventor or joint inventor of an invention in any patent granted or published application for a patent for the invention; or

(b) that any person mentioned as sole or joint inventor in any patent granted or published application for a patent for the invention ought not to have been so mentioned,

shall be made on Patents Form 7 and shall be accompanied by a statement setting out fully the facts relied upon.

(2) The Registrar shall send a copy of any such application and statement to —

(a) every person registered as proprietor of, or applicant for, the patent (other than the applicant under section 24 himself);

(b) every person who has been identified in the application for the patent or a statement filed under section 24 (2) (a) as being, or being believed to be, the inventor or joint inventor of the invention; and

(c) every other person whose interests the Registrar considers may be affected by the application.

(3) Any recipient of a copy of such an application and statement who wishes to oppose the application shall, within 2 months from the date of the Registrar's letter forwarding such copies to him, file a counter-statement on Patents Form 3 setting out fully the grounds of his opposition, and the Registrar shall send a copy of the counter-statement to each of the persons described in this rule other than any person who is party to the counter-statement.

(4) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

(5) The document prescribed for the purposes of section 24 (1) shall be an addendum or erratum slip.

Procedure where applicant is not inventor or sole inventor

18.—(1) Subject to rules 28 and 86 (8) and (8A), the period prescribed for the purposes of section 24 (2) shall be —

(a) where there is no declared priority date, 16 months from the date of filing of the application for a patent; or

(b) where there is a declared priority date, 16 months from the declared priority date.

(1A) A statement filed under section 24 (2) shall be made on Patents Form 8.

(2) Where —

(a) the applicant is not the sole inventor; or

(b) the applicants are not the joint inventors of the invention,

and the application does not contain a declared priority date which relates to an earlier relevant application as defined in section 17 (5) (b), the Registrar shall send a copy of the Patents Form 8 filed under paragraph (1) to each inventor who is not one of the applicants.

(3) Where the application is an international application for a patent (Singapore), the requirements of paragraph (1) shall be treated as having been complied with if the provisions of rules 4.1 (a) (iv) and 4.6 of the Regulations under the Patent Co-operation Treaty have been complied with, whether or not there was any requirement that they be complied with.

APPLICATIONS FOR PATENTS

Application for grant of patent

19.—(1) A request for the grant of a patent shall be made on Patents Form 1.

(2) Where a document containing an indication that a patent is sought in pursuance of an application is filed with the Registrar without Patents Form 1 or the filing fee, the Form shall be filed with, and the fee shall be paid to, the Registry within one month from the date of the filing of the document.

(3) The specification contained in an application for a patent made under section 25 shall state the title of the invention and continue with the description and the claim or claims and the drawings, if any, in that order.

(4) The title appearing in the request, specification and abstract shall be short, precise and indicate the matter to which the invention relates; and if in the opinion of the Registrar it fails to comply with this paragraph, the Registrar may reframe it so that it does so comply.

(5) The description shall first state the title of the invention as appearing in the request and shall —

(a) specify the technical field to which the invention relates;

(b) indicate the background art which, as far as it is known to the applicant, can be regarded as useful for the understanding, searching and examination of the invention;

(c) disclose the invention as claimed in such terms that the technical problem, even if not expressly stated as such, and its solution can be understood, and shall state the advantageous effects, if any, of the invention with reference to the background art;

(d) briefly describe the figures in the drawings, if any;

(e) set forth at least one mode for carrying out the invention claimed, with examples where appropriate, and with reference to the drawings, if any; and

(f) indicate explicitly, when it is not otherwise obvious from the description or the nature of the invention, the way or ways in which the invention satisfies the condition in section 13 (1) (c) of being capable of industrial application.

(6) The number of claims shall be reasonable in consideration of the nature of the invention claimed, and where there are several claims, the claims shall be numbered consecutively in Arabic numerals.

(7) The definition in the claim of the matter for which protection is sought shall be in terms of the technical features of the invention which may be expressed in structural, functional or mathematical terms.

(8) Claims shall be written —

(a) in 2 parts, the first part consisting of a statement indicating those technical features of the invention which are necessary in connection with the definition of the claimed subject-matter and which, in combination, appear to be part of the prior art and the second part preceded by the words “characterised in that”, “characterised by”, “wherein the improvement comprises”, or other words to the same effect, followed by a statement stating concisely the technical features which, in combination with the features stated in the first part, define the matter for which protection is sought; or

(b) in a single statement containing a recitation of a combination of several elements or steps, or a single element or step, which defines the matter for which protection is sought.

(9) Claims shall not rely, in respect of the technical features of the invention, on references to the description or drawings, unless such a reference is necessary for the understanding of the claim or enhances the clarity or conciseness of the claim.

(10) Where —

(a) the documents filed at the Registry to initiate an application for a patent include something which —

(i) is or appears to be a description of the invention for which the patent is sought; and

(ii) is in a language other than English; and

(b) the applicant has not filed an English translation of that thing,

the Registrar shall notify the applicant that an English translation of that thing is required.

(11) Where the applicant has been notified under paragraph (10), he shall, within 2 months from the date of the notification, file an English translation of that thing.

(12) If the applicant fails to comply with paragraph (11), the Registrar shall refuse his application for a patent.

Micro-organisms

20.—The Fourth Schedule shall have effect in relation to certain applications for patents, and granted patents, for inventions which require for their performance the use of micro-organisms.

Drawings

21.—(1) Drawings forming part of an application for a patent made under section 25 shall be on sheets the size of which shall be A4 (29.7 cm x 21 cm).

(2) The sheets shall not contain frames round the usable or used surface.

(3) The minimum margins shall be as follows:

- (a) top: 2.5 cm;
- (b) left side: 2.5 cm;
- (c) right side: 1.5 cm; and
- (d) bottom: 1.0 cm.

(4) The margins, when submitted, must be completely blank.

(5) Drawings shall be executed as follows:

- (a) without colouring in durable, black, sufficiently dense and dark, uniformly thick and well-defined lines and strokes to permit satisfactory reproduction;
- (b) cross-sections shall be indicated by oblique hatching which should not impede the clear reading of the reference signs and leading lines;
- (c) the scale of the drawings and the distinctiveness of their graphical execution shall be such that a photographic reproduction with a linear reduction in size to two-thirds would enable all details to be distinguished without difficulty. If, as an exception, the scale is given on a drawing, it shall be represented graphically;
- (d) all numbers, letters and reference lines, appearing on the drawings, shall be simple and clear and brackets, circles and inverted commas shall not be used in association with numbers and letters;
- (e) each element of each figure shall be in proper proportion to each of the other elements in the figure, except where the use of a different proportion is indispensable for the clarity of the figure;

(f) the height of the numbers and letters shall not be less than 0.32 cm and for the lettering of drawings, the Latin and, where customary, the Greek alphabets shall be used;

(g) the same sheet of drawings may contain several figures; where figures drawn on 2 or more sheets are intended to form one whole figure, the figures on the several sheets shall be so arranged that the whole figure can be assembled without concealing any part of the partial figures; and the different figures shall be arranged without wasting space, clearly separated from one another and shall be numbered consecutively in Arabic numerals, independently of the numbering of the sheets;

(h) reference signs not mentioned in the description or claims shall not appear in the drawings, and vice versa; and the same features, when denoted by reference signs, shall throughout the application, be denoted by the same signs;

(i) the drawings shall not contain textual matter, except, when required for the understanding of the drawings, a single word or words such as “water”, “steam”, “open”, “closed”, “section on AA”, and in the case of electric circuits and block schematic or flow sheet diagrams, a few short catchwords; and

(j) the sheets of drawings shall be numbered in accordance with rule 23 (13) and (14).

(6) Flow sheets and diagrams shall be considered drawings for the purposes of these Rules.

(7) Paragraphs (1) to (4) and (5) (f), (g) and (j) shall not apply to any drawing to be filed with the Registry using the electronic online system, and that drawing shall instead comply with practice directions issued by the Registrar in place of the requirements of those paragraphs.

Abstracts

22.—(1) The abstract shall commence with a title for the invention.

(2) The abstract shall contain a concise summary of the disclosure as contained in the specification.

(3) The summary shall indicate the technical field to which the invention belongs and be drafted in such a way which allows a clear understanding of the technical problem to which the invention relates, the gist of the solution of that problem through the invention, and the principal use or uses of the invention.

(4) Where appropriate, the abstract shall also contain the chemical formula which, among those contained in the specification, best characterises the invention but shall not contain statements on the alleged merits or value of the invention or on its speculative application.

(5) The abstract shall be as concise as the disclosure permits and shall normally not contain more than 150 words.

(6) If the specification contains any drawings, the applicant shall indicate on the abstract the figure or, exceptionally, the figures of the drawings which he suggests should accompany the abstract when published.

(7) The Registrar may decide to publish one or more other figures if he considers that they better characterise the invention.

(8) Each main feature mentioned in the abstract and illustrated by a drawing shall be followed by the reference sign used in that drawing.

(9) The abstract shall be so drafted that it constitutes an efficient instrument for the purposes of searching in the particular technical field, in particular by making it possible to assess whether there is a need to consult the specification itself.

Size and presentation of documents

23.—(1) Subject to paragraph (29), this rule shall apply to all documents (including drawings) making up an application for a patent, including any replacement thereof, to be filed with the Registry by any means.

(1A) All documents referred to in paragraph (1) shall be in English.

(2) Unless otherwise provided, the specification (including any drawing therein), abstract and any replacement sheet thereof shall be filed singly.

(3) All documents referred to in paragraph (1) shall be so presented as to permit direct reproduction by photography, electrostatic or electronic processes, scanning, photo offset and microfilming, in an unlimited number of copies.

(4) All sheets must be free from cracks, creases and folds.

(5) Only one side of the sheet shall be used.

(6) All documents referred to in paragraph (1) shall be in A4 paper size (29.7 cm x 21 cm) and shall be on pliable, strong, white, smooth, matt and durable paper.

(7) Each sheet (other than drawings) shall be used with its short sides at the top and bottom (upright position).

(8) The request for the grant of a patent, the description, claims, drawings and abstract shall each commence on a new sheet.

(9) The sheets shall be so connected that they can be easily turned when consulted, and easily separated and joined again if they have been separated.

(10) The minimum margins of the sheets containing the description, the claims and the abstract shall be as follows:

(a) top: 2.0 cm;

(b) left side: 2.5 cm;

(c) right side: 2.0 cm; and

(d) bottom: 2.0 cm.

(11) The margins of the documents making up the application, when filed, and of any replacement documents, must be completely blank.

(12) In the application, except in the drawings —

- (a) all sheets in the request shall, when filed, be numbered consecutively; and
- (b) all other sheets shall, when filed, be numbered consecutively as a separate series,

and all such numbering shall be in Arabic numerals placed at the top or bottom of the sheet, in the middle, but not in the top or bottom margin.

(13) All sheets of drawings contained in the application shall be numbered consecutively as a separate series.

(14) Such numbering shall be in Arabic numerals placed at the top or bottom of the sheet, in the middle, but not in the top or bottom margin.

(15) Every document (other than drawings) referred to in paragraph (1) shall be typed or printed in a dark, indelible colour in at least 11/2 line spacing and in characters of which the capital letters are not less than 0.21 cm high except that graphic symbols and characters and chemical and mathematical formulae may be written or drawn, in a dark indelible colour.

(16) The request for the grant of a patent, the description, claims and abstract shall not contain drawings.

(17) The description, claims and abstract may contain chemical or mathematical formulae.

(18) The description and the abstract may contain tables.

(19) The claims may contain tables only if their subject-matter makes the use of tables desirable.

(20) In all documents referred to in paragraph (1), units of weights and measures shall be expressed in terms of the metric system.

(21) If a different system is used, units of weights and measures shall also be expressed in terms of the metric system.

(22) Temperatures shall be expressed in degrees Celsius.

(23) For the other physical values, the units recognised in international practice shall be used, for mathematical formulae the symbols in general use, and for chemical formulae the symbols, atomic weights and molecular formulae in general use shall be employed.

(24) In general, use should be made of technical terms, signs and symbols generally accepted in the field in question.

(25) If a formula or symbol is used in the specification, a copy thereof, prepared in the same manner as drawings, shall be furnished if the Registrar so directs.

(26) The terminology and the signs shall be consistent throughout the application.

(27) All documents referred to in paragraph (1) shall be reasonably free from deletions and other alterations, over-writings and interlineations and shall, in any event, be legible.

(28) Non-compliance with this rule may be authorised by the Registrar if the authenticity of the content is not in question and the requirements for good reproduction are not in jeopardy.

(29) Paragraphs (2) and (4) to (15) shall not apply to any document to be filed with the Registry using the electronic online system, and that document shall instead comply with practice directions issued by the Registrar in place of the requirements of those paragraphs.

Form of statements, counter-statements and evidence

24.—Rule 23 (3) to (7) shall apply, with the necessary modifications, to any statement, counter-statement or evidence filed, unless the Registrar directs otherwise.

Unity of invention

25.—(1) Without prejudice to the generality of section 25 (5) (d), where 2 or more inventions are claimed (whether in separate claims or as alternatives within a single claim), such inventions shall be treated as being so linked as to form a single inventive concept only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features.

(2) In this rule, “special technical features” means those technical features which define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

(3) If the applicant requests a hearing within the time allowed, the Registrar shall, after giving the applicant an opportunity of being heard, determine whether the application shall be allowed or refused.

send a copy of that evidence to the defendant; and, within 2 months from the date of receipt of the copy of the plaintiff's evidence, the defendant may file further evidence confined to matters strictly in reply and shall send a copy of it to the plaintiff.

(6) No further evidence shall be filed by either party except by leave or direction of the Registrar.

(4) If the proprietor of the patent fails to file the counter-statement in accordance with paragraph (3), he shall not be allowed to take part in the subsequent proceedings, and the application for revocation shall be considered by the Registrar as if each specific fact set out in the statement were conceded, except in so far as it is contradicted by other document in the possession of the Registrar.

(5) The applicant may, within 3 months from the date of receipt of the copy of the amendment (if any) and the counter-statement, file evidence as he may desire to adduce in support of his case and shall at the same time send a copy of that evidence to the proprietor.

(a) the Registrar shall direct the applicant for revocation of the patent to file Patents Form 36 requesting re-examination of the patent, together with the prescribed re-examination fee and any security for the costs or expenses of the proceedings specified by the Registrar, within 2 months from the date of the direction, and if the applicant fails to do so within that period he shall be deemed to have abandoned his application; and

(2) If amendments have been proposed under section 83 (1) by the proprietor of the patent, the Examiner shall in the re-examination report include an opinion as to whether the amendment proposed —

(a) is allowable under section 84 (3); and

(b) would overcome, in whole or in part, any of the grounds of revocation specified in the application for revocation.

Copies and conclusions of re-examination report

82.—The Registrar shall send a copy of the re-examination report to both the applicant for revocation of the patent and the proprietor of the patent, and he shall take into consideration the conclusions of the re-examination report in making his determination on the patent or the patent as amended.

Award of costs on surrender of patent

83.—If, in proceedings before the Registrar under section 80, the proprietor of a patent offers to surrender his patent under section 40, the Registrar shall, in deciding whether costs should be awarded to the applicant for revocation, consider whether proceedings might have been avoided if the applicant had given reasonable notice to the proprietor before the application was filed.

Notification of an opportunity to amend

84.—(1) Where it appears to the Registrar in accordance with section 81 that the patent ought to be revoked, the proprietor of the patent shall be so notified and afforded an opportunity, within 3 months from the date of such notification, to make observations and to amend the specification of the patent.

NATIONAL PROCESSING OF INTERNATIONAL APPLICATIONS

Treatment of international applications

86.—(1) Subject to this rule, in relation to an international application for a patent (Singapore) which is, under section 85, to be treated as an application for a patent under the Act, the prescribed period for the purposes of section 86 (3) and (6) shall be —

(a) in a case where —

(i) the relevant date is on or after 1st May 2002, and the national phase of the application begins on or after 1st January 2004; or

(ii) Singapore has been elected in accordance with Chapter II of the Patent Co-operation Treaty,

30 months from the relevant date; or

(b) in any other case, 20 months from the relevant date.

(2) Payment of the prescribed fee shall be made within the period prescribed in paragraph (1) (a) or (b), as the case may be, and if the applicant so wishes, together with the filing of Patents Form 37.

(3) (*Deleted by S 93/2007*)

(3A) Where an international application for a patent (Singapore) has begun the national phase, a request may be made under section 17 (2B) within one month from the date the national phase of the application begins.

(4) In the case of an international application for a patent (Singapore) —

(a) rule 8 (1) shall not apply if the applicant, on filing the application, states in writing to the receiving Office that the invention has been displayed at an international exhibition;

(b) rule 8 (2), (3) and (4) may be complied with at any time before the end of 2 months from the time limit for entering the national phase;

(c) *(Deleted by S 366/2004)*;

(d) where an English translation of a document or part of a document is required by the Act or these Rules to be filed before or at the time limit for entering the national phase, verification of the translation, as required under rule 112 and permitted by rule 51 bis 1 (d) of the Regulations under the Patent Co-operation Treaty, may be given to the Registrar at any time before the end of 2 months from that time limit.

(5) For the purposes of section 86 (3) and (6), where an English translation of the application or any amendment of the application is required, the translation —

(a) shall exclude the request and abstract unless —

(i) the applicant expressly requests the Registrar to proceed earlier than the expiry of the period prescribed in paragraph (1); and

(ii) the application has not been published in accordance with the Patent Co-operation Treaty;

(b) shall include any textual matter in the drawings in a form which complies with rule 49.5 (d) of the Regulations under the Patent Co-operation Treaty;

(c) where a title has been established by the International Searching Authority under rule 37.2 of the Regulations under the Patent Co-operation Treaty which differs from the title included in the application as originally filed, shall include the former title in place of the latter; and

(d) may exclude any textual matter contained in a sequence listing forming part of the description if such textual matter complies with rule 12.1 (d) of the Regulations under the Patent Co-operation Treaty and the description complies with rule 5.2 (b) of those Regulations.

(6) Where an applicant is required to file a translation into English both of an application as originally filed and of the amendment to it, in accordance with paragraph (5), in order to satisfy the relevant conditions of section 86 (3) and (6) and at the expiry of the applicable period referred to in paragraph (1), the prescribed fee has been paid and one but not both of the necessary translations has been filed —

(a) the Registrar shall give notice to the applicant at the address furnished by the applicant in accordance with rule 31 requiring the applicant to file the required translation within 2 months from the date on which the notice is sent; and

(b) the applicable period shall be treated in respect of that translation as not expiring until the end of the period specified in the notice given under sub-paragraph (a).

(7) The Registrar shall publish any translation supplied in accordance with section 86 (3) or (6) following the filing of Patents Form 38 accompanied by the payment of the prescribed fee.

(8) In the case of an international application for a patent (Singapore) in respect of which the conditions specified in section 86 (3) (a) are satisfied, the period prescribed for the purposes of section 24 (2) shall be 2 months from the time limit for entering the national phase.

(8A) In the case of an international application for a patent (Singapore) in respect of which the conditions specified in section 86 (3) (b) are satisfied, the period prescribed for the purposes of section 24 (2) shall be the later of the following periods to expire:

- (a) the period prescribed by rule 18 (1);
- (b) 2 months from the date on which those conditions are satisfied.

(9) Where, in relation to an international application for a patent (Singapore), the applicant desires that section 85 (1) shall not cease to apply to the application by virtue of the operation of section 85 (3), application shall be made to the Registrar on Patents Form 39, accompanied by a statement of the facts upon which the applicant relies.

(10) An international application for a patent (Singapore) shall not be treated as withdrawn under the Act if it, or the designation of Singapore in it, is deemed to be withdrawn under the Patent Co-operation Treaty where, in the same or comparable circumstances in relation to an application under the Act (other than an international application for a patent) —

- (a) the Registrar could have directed that an irregularity be rectified under rule 100 or that an extension be granted under rule 108; and
- (b) the Registrar determines that the application would not have been treated as withdrawn under the Act.

(11) Where under section 85 (3) an application is not to be treated as withdrawn and the applicant wishes to proceed —

- (a) the Registrar may amend any document received by the Registry from the receiving Office or the International Bureau and alter any period or time which is specified in the Act or these Rules upon such terms (including payment of any appropriate prescribed fee) as he may direct; and
- (b) the fee prescribed under section 86 (3) shall not be payable.

(12) Where the applicant satisfies the Registrar that —

- (a) because of an error made by the receiving Office, an international application for a patent (Singapore) has been accorded a date of filing which is incorrect; or
- (b) the priority claim made under Article 8 (1) of the Patent Co-operation Treaty has been considered not to have been made by the receiving Office or the International Bureau because of an error made by the Office or the Bureau,

the Registrar may amend any document received by the Registry from the receiving Office or the International Bureau or alter any period or time which is specified in the Act or these Rules as if the error were an error on the part of the Registry.

(13) Where —

- (a) an international application for a patent (Singapore) purports to designate Singapore; and
- (b) the applicant alleges that he has been refused a filing date under the said Treaty on account of an error or omission in any institution having functions under the said Treaty,

the applicant may apply to the Registrar for it to be treated as an application under the Act by filing Patents Form 39, accompanied by a statement of the facts upon which he relies; and the Registrar may amend any document filed by the applicant and alter any period or time which is specified in the Act or these Rules upon such terms as he may direct.

(14) In this rule, “receiving Office” has the same meaning as in the Patent Co-operation Treaty.

(15) In this rule, in relation to an international application for a patent (Singapore) —

"relevant date" means the declared priority date or, where there is no declared priority date, the date of filing of that application;

"time limit for entering the national phase" means the end of the relevant period prescribed by paragraph (1) or, in a case where that period has been extended under paragraph (6), rule 100 or 108, the end of that period as so extended.

HEARINGS, AGENTS AND CORRECTION OF ERRORS

Registrar’s discretionary powers

87.—Before exercising any discretionary power vested in him by or under the Act adversely to any party to a proceeding before him, the Registrar shall, if so required, hear such person thereon.

Request for hearing

88.—(1) A request for the exercise of the discretionary powers of the Registrar under rule 87 shall be made on Patents Form 40 and shall be filed within one month from the date of notification by the Registrar of any objection to an application or the date of any other indication that he proposes to exercise a discretionary power, and the Registrar may refuse to hear any party who has not filed the request within the time allowed.

(2) Upon receipt of a request under paragraph (1), the Registrar shall send to the person making the request a notice of a time when he may be heard which shall be not less than 14 days from the date of the notice.

(3) In inter partes proceedings, any party who intends to refer at the hearing to any document not already mentioned in the proceedings shall, unless the Registrar consents and the other party agrees, give at least 14 days’ notice of his intention with details of, or a copy of, the document to the Registrar and the other party.

(4) After hearing the party or parties desiring to be heard or, if no party so desires, without a hearing, the Registrar shall decide the matter and shall notify all parties of his decision and, if any party so desires, shall give his reasons for the decision.

Hearings in public

89.—(1) Subject to paragraph (2), where a hearing before the Registrar of any dispute between 2 or more parties relating to any matter in connection with a patent or an application for a patent takes place after the publication of the application under section 27, the hearing of the dispute shall be in public.

(2) After consulting those parties to the dispute who appear in person or are represented at a hearing to which paragraph (1) applies, the Registrar may direct that the hearing not be held in public.

Right of audience

90.—(1) Unless the Registrar directs otherwise in any particular case —

(a) all attendances upon the Registrar by a party to any proceedings before the Registrar or any other matter under the Act or these Rules may be made by or through —

(i) an advocate and solicitor; or

(ii) any other person,

appointed by the party to act on his behalf; and

(b) every notice, application or other document filed under the Act by the party may be signed by the advocate and solicitor or the person so appointed.

(2) Where any party to any proceedings before the Registrar or any other matter under the Act or these Rules appoints an advocate and solicitor or any other person —

(b) to act on his behalf in substitution for another,

the advocate and solicitor or person shall file a declaration of authorisation in Patents Form 41 on the first occasion when he acts on behalf of the party.

Correction of errors in patents and applications

91.—(1) Except where rule 9 (3) or 56 (3) applies, a request for the correction of an error of translation or transcription or of a clerical error or mistake in any specification of a patent, in an application for a patent or in any document filed in connection with a patent or such an application shall be made on Patents Form 23.

(1A) The request shall be accompanied by a copy of the document with the proposed correction indicated in the following manner:

(a) by striking through any text, figure or other matter to be replaced or deleted; and

(b) by underlining any replacement text, figure or other matter.

(1B) *(Deleted by S 93/2007)*

(1C) Paragraph (1A) shall not apply if the request is to be filed using the electronic online system; and the request shall instead comply with practice directions issued by the Registrar in place of the requirements in that paragraph, including the filing of such other document prepared in such manner as may be specified therein.

(2) Where such a request relates to a specification, no correction shall be made therein unless the correction is obvious in the sense that it is immediately evident that nothing else would have been intended than what is offered as the correction.

(3) Where the Registrar requires notice of the proposed correction to be advertised, he shall inform the applicant in writing accordingly and request him, within 2 months from the date of his letter, to file Patents Form 42; and upon receipt of the form the Registrar shall proceed with the advertisement.

(4) The advertisement under paragraph (3) shall be made by publication of the request and nature of the proposed correction in the journal and in such other manner as the Registrar may direct.

(5) Any person may, at any time within 2 months from the date of the advertisement, give notice to the Registrar of opposition to the request on Patents Form 43.

(6) Such notice of opposition shall be accompanied by a supporting statement setting out fully the facts on which the opponent relies and the relief which he seeks.

(7) The Registrar shall send a copy of the notice and the statement to the person making the request who, if he desires to proceed with the request, shall, within 2 months from the date of the Registrar's letter forwarding such copies to him, file a counter-statement on Patents Form 3 setting out fully the grounds on which he contests the opposition and the Registrar shall send a copy of the counter-statement to the opponent.

(8) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

(9) Where the Registrar grants the request for correction, the person making the request shall, if the Registrar so requires, and within the time specified by the Registrar, file a new specification as corrected, which shall be prepared in accordance with rules 19, 21 and 23.

(10) *(Deleted by S 93/2007)*

(11) No amendment or correction (other than an amendment or correction introduced in order to comply with the formal requirements) may be introduced in the new specification to be filed under paragraph (9).

and, in this sub-paragraph, references to a culture derived from a deposited culture of a micro-organism are references to a culture so derived which exhibits those characteristics of the deposited culture essential for the performance of the invention.

(4) For the purpose of enabling any act specified in section 57 to be done in relation to the culture for the services of the Government, the undertakings specified in sub-paragraph (3) —

- (a) an entry is made in the register under section 53 to the effect that licences are to be available as of right; or

(b) a compulsory licence is granted under section 55,

Availability of cultures to experts

3.—(1) Subject to sub-paragraph (3), where, before the preparations for publication under section 27 of an application for a patent have been completed, the applicant gives notice to the Registrar on Patents Form 50 of his intention that a sample of the micro-organism should be made available only to an expert, the provisions of this paragraph shall have effect.

(2) The Registrar —

(a) shall, at the time of publication of the application under section 27, publish a notice in the journal that the provisions of this paragraph have effect; and

(b) notwithstanding paragraph 2, shall not, until the patent is granted or the application has been withdrawn, has been treated as having been abandoned, has been refused or is treated as having been refused, issue any certificate authorising release of a sample otherwise than under this paragraph.

(3) In the case of an international application for a patent (Singapore), the applicant may, for the purpose set out in sub-paragraph (1), give notice in writing to the International Bureau under rule 13 bis 3 of the Regulations under the Patent Co-operation Treaty before the technical preparations for international publication of the application are complete of his intention that a sample of the micro-organism should be made available only to an expert and he shall be treated by the Registrar for the purposes of this paragraph as having complied with the conditions in sub-paragraph (1) and sub-paragraph (2) (a) shall not apply.

(4) Any person wishing to have a sample of the micro-organism made available (“the requester”) —

(a) shall apply to the Registrar on Patents Form 51 together with the form provided for by the Regulations under the Patent Co-operation Treaty nominating the person (“the expert”) to whom he wishes the sample to be made available; and

(b) shall at the same time file undertakings by the expert as set out in paragraph 2 (3) in accordance with the provisions of that paragraph.

(5) The Registrar shall send a copy of Patents Form 51 filed under sub-paragraph (4) to the applicant for the patent and shall specify the period within which the applicant may object, in accordance with sub-paragraph (6), to a sample of the micro-organism being available to the expert.

(6) Unless, within the period specified by the Registrar under sub-paragraph (5) (or within such longer period as the Registrar may, on application made to him within that period, allow), the applicant for the patent sends notice in writing to the Registrar that he objects to a sample of the micro-organism being made available to the expert and gives his reasons for his objection, the Registrar shall send a copy of any form lodged with him under sub-paragraph (4) (a) and of his certificate authorising the release of the sample —

(a) to the applicant for the patent;

(b) to the international depositary authority concerned;

(c) to the requester; and

(d) to the expert.

(7) Where, in accordance with sub-paragraph (6), the applicant for the patent sends notice to the Registrar of his objection to the issue of a certificate in favour of the expert, the Registrar —

(a) shall decide, having regard to the knowledge, experience and technical qualifications of the expert and to any other factors he considers relevant, whether to issue his certificate in favour of the expert; and

(b) if he decides to authorise the release of the sample to the expert, shall send to the persons referred to in sub-paragraph (6) a copy of any form lodged with him under sub-paragraph (4) (a) and of his certificate authorising the release of the sample to the expert.

(8) Before making a decision in accordance with sub-paragraph (7), the Registrar shall afford the applicant and the requester the opportunity of being heard.

(9) If the Registrar decides under sub-paragraph (7) not to issue his certificate in favour of the expert, the requester may, by notice in writing to the Registrar and the applicant, nominate another person as the expert for the purposes of this paragraph; and the Registrar shall give such directions as he may think fit with regard to the subsequent procedure.

(10) Nothing in this paragraph shall affect the rights under section 56 of any Government department or of any person authorised in writing by a Government department.

(ii) is not able lawfully, to satisfy such a request, for the culture to be made available;

(b) ceases temporarily or permanently to carry out the functions of an international depositary authority; or

(c) ceases for any reason to conduct its activities as an international depositary authority in an objective and impartial manner,

subject to sub-paragraph (3), the applicant or proprietor may, unless the culture has been transferred to another international depositary authority which is able to make it available, make a new deposit of a culture of the micro-organism.

(2) For the purposes of paragraph 1 and this paragraph, the deposit shall be treated as always having been available if, within 3 months of the receipt of such notification or of the international depositary authority ceasing to perform the functions of an international depositary authority or to conduct its activities as such an authority in an objective and impartial manner, the applicant or proprietor —

(a) in a case where the deposit has not already been transferred, makes the new deposit;

(b) furnishes to the international depositary authority with which the new deposit is made a declaration that the culture so deposited is of the same micro-organism as was the culture originally deposited; and

(c) requests amendment of the specification under section 31 or 38, as the case may be, so as to indicate the accession number of the transferred or new deposit and, where applicable, the name of the international depositary authority with which the deposit has been made.

(3) The new deposit referred to in sub-paragraph (1) —

(a) shall, subject to sub-paragraph (b), be made with the same international depositary authority as was the original deposit; or
