Notes:

- (1) Value of production for most products is equal to total market receipts (source: Statistics Canada, Table: 32-10-0045-01 - Farm Cash Receipts, annual (dollars)). For grains and oilseeds, value of production is equal to production multiplied by price (source for production: Statistics Canada Table: 32-10-0359-0; source for price: calculated from Statistics Canada, Table: 32-10-0045-01 - Farm Cash Receipts, annual (dollars)). The de minimis level is 5%.

- (2) Statistics Canada regards the value of production (VOP) for "sugar beets" as confidential information beginning in the year 2012. As a result, it no longer publishes the VOP data in a single product category and the data has been amalgamated into "other crops". There are no existing product-specific support measures provided for "sugar beets".
