Committee on Agriculture

Original: English

NOTIFICATION

The following submission, dated 12 August 2013, is being circulated at the request of the Delegation of **the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu**. The notification concerns domestic support commitments (**Table DS:1** and the relevant Supporting Tables) for the years **2008-2010**.

Table DS:1

DOMESTIC SUPPORT: THE SEPARATE CUSTOMS TERRITORY OF TAIWAN, PENGHU, KINMEN, AND MATSU

REPORTING PERIOD: 2008

Current Total Aggregate Measurement of Support

Total AMS commitment level for period in question	Currency	Current Total AMS
(from Section I of Part IV of the Schedule)	(from Section I of Part IV of the Schedule)	(from attached Supporting Tables)
1	2	3
14,165.15	Million NT\$	4,014.63

Supporting Table DS:1

DOMESTIC SUPPORT: THE SEPARATE CUSTOMS TERRITORY OF TAIWAN, PENGHU, KINMEN, AND MATSU

REPORTING PERIOD: CALENDAR YEAR 2008

Measures exempt from the reduction commitment - "Green Box"

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (Million NT\$)	Data sources
1	2	3	4
(a) General services	Research: General research, research in relation to environmental programs and product-specific research programs. (Annex 2, paragraph 2(a))	3,479.76	Documents of budget
	Pest and disease prevention: General and product-specific pest and disease control measures and schemes. (Annex 2, paragraph 2(b))	858.28	Documents of budget
	Training services: Education and training. (Annex 2, paragraph 2(c))	302.28	Documents of budget
	Extension and advisory services: Programs for practical application of new technologies, technology improvement of agricultural production, compilation and provision of statistical data and information, strengthening of management of agricultural organizations. (Annex 2, paragraph 2(d))	2,329.00	Documents of budget
	Inspection services: The inspection and control of veterinary medicine, feed, food, pesticide residue, water quality, and grading and the implementation of Chinese Taipei's Agricultural Standard system. (Annex 2, paragraph 2(e))	609.61	Documents of budget
	Marketing and promotion services: Programs for the improvement of the marketing, processing and consumption of food; Establishment of wholesale market. (Annex 2, paragraph 2(f))	1,164.19	Documents of budget

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (Million NT\$)	Data sources
1	2	3	4
	Infrastructural services: Planning and construction of irrigation/drainage facilities and rural roads, land consolidation for agricultural sector and establishment of rural community. (Annex 2, paragraph 2(g))	9,119.81	Documents of budget
(f) Payments for relief from natural disasters	Aid for natural disaster: government payments for relief of damaged incomes by natural disasters. (Annex 2, paragraph 8)	3,735.46	Agricultural Statistics Yearbook
	Interest subsidy: Special loans granted to farmers for the relief of damaged farms due to natural disasters. (Annex 2, paragraph 8)	54.87	Bureau of Agricultural Finance, COA
	a. Loan types, borrowers, purposes, credit lines, loan interest, loan maturity, repayments, and lending institutions. b. Fund is sourced from the Agricultural Development Fund.		
(h) Structural adjustment assistance provided through resource retirement programmes	Land retirement programs: The conversion of farm land to forestry use and island-wide reforestation. (Annex 2, paragraph 10)	304.72	Documents of budget
(j) Environmental programmes	Interest subsidy for pollution reduction: provision of low interest loans to hog farmers for the purchase of pollution prevention facilities. (Annex 2, paragraph 12)	4.23	Bureau of Agricultural Finance, COA
	Programs for preventing pollution, managing agricultural waste and monitoring on the pollution of the water and soil, for promoting the sustainable use of farm land. (Annex 2, paragraph 12)	138.64	Documents of budget
	Interest subsidy: Loan granted to farmers for the use of water and soil conservation. (Annex 2, paragraph 12)	11.24	Bureau of Agricultural Finance, COA
	Land conservation subsidy ¹ : payments for the maintenance of farmland in environmentally good condition by growing green manure crops or setting-aside. (Annex 2, paragraph 12)	9,879.60	Agriculture and Food Agency, COA

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (Million NT\$)	Data sources
1	2	3	4
(k) Regional assistance programmes	Programs for disadvantaged farms: Integrated agricultural construction and environmental improvement programs for disadvantaged farms. (Annex 2, paragraph 13)	168.35	Documents of budget
Total Green Box		32,160.03	

Note:

¹ Land conservation subsidy: Responding to the need to ease restrictions on rice imports and cut agricultural supports in the wake of WTO accession, the COA implemented the "Adjustment Program of Paddy and Upland Field Utilization". This program is steadily adjusting the growing of rice, coarse grains, and contract sugarcane for sale to the government at guaranteed prices, while also offering payments for the maintenance of farmland in environmentally good condition by growing green manure crops or setting-aside. In order to comply with the WTO regulations, the amount of payment is lower than the extra costs or loss of income. The COA provided assistance for fallowing on a total area of 221,679 hectares in 2008. This achieved lower domestic agricultural support goals, while taking into consideration farmland ecology and soil fertility needs.

DOMESTIC SUPPORT: THE SEPARATE CUSTOMS TERRITORY OF TAIWAN, PENGHU, KINMEN, AND MATSU

REPORTING PERIOD: CALENDAR YEAR 2008 / MARKETING YEAR 2008/2009

Calculation of the Current Total Aggregate Measurement of Support

Description of basic products (including non-product-specific AMS)	Product-specific AMS (from Supporting Tables DS:5 to DS:7 below)	Value of production ²	Support as a % of value of production	Current Total AMS (aggregate)
	(Million NT\$)	(Million NT\$)	(%)	(Million NT\$)
1	2	3	4	5
Rice (paddy)	2,768.23	31,362.75	8.83	2,768.23
Corn	286.09	559.34	51.15	286.09
Sorghum	10.21	35.44	28.81	10.21
Peanuts	207.34	2,464.07	8.41	207.34
Sugar	173.46	546.76	31.72	173.46
Tobacco leaves	193.16	321.92	60.00	193.16
Vegetables ³	194.47	48,514.05	0.40	⁴
Table sugarcane	14.02	501.66	2.79	⁴
Sweet potatoes	97.32	2,553.79	3.81	⁴
Forage crops ⁵	111.13	902.93	12.31	111.13
Other crops ⁶	265.00	3,760.20	7.05	265.00
All other (not in AMS calculation) ⁷	0.00	234,592.22	0.00	⁴
Non-product-specific AMS (from Supporting Table DS: 9 below)	8,257.86	326,115.13	2.53	⁴
Total: Current Total AMS				4,014.63

Notes:

² The calculated AMS is not subject to reduction or inclusion in the current AMS because the calculated AMS is less than 5 per cent of value of production (*de minimis* exclusion).

³ Value of production (excluding forage crops, which is estimated as described in footnote (5)) is reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture.

⁴ "Vegetables" include radishes, carrots, other root vegetables, taros, scallions, scallion bulbs, leeks, garlic, water-chestnuts, water bamboo, other stem vegetables, leaf-mustard, water-convolvulus, celery, other leaf-vegetables, day lily, oriental pickling melons, cucumbers, white gourds, bitter gourds, eggplants, tomatoes, peppers, kidney beans, peas, other fruit vegetables, watermelons, seed watermelons, cantaloupes and strawberries.

⁵ "Value of production of forage crops" is calculated on the basis of the production of pangola grass, napier grass and others which are reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture. The value of production is estimated by the production times the estimated averaged unit price (hay of pangola grass NT\$4.6/kg, napier grass NT\$1.1/kg, others NT\$1.6/kg).

⁶ "Value of production of other crops" is calculated by deducting the sum value of the crops listed in Supporting Table DS:4 (including rice, feed corn, sorghum, peanuts, sugar, vegetables, table sugarcane, sweet potatoes, tobacco leaves, forage crops) and those crops not included in AMS calculation (including fruit, tea, soybean, ornamental plants and mildew) from the total value of crops. "Other crops" includes food corn, adzuki beans, other coarse grains (millet, common beans, mung beans,) sesame, other special crops (cassava, tachia rush, triangle rush, perfume plants, sunflowers).

⁷ "All other (not in AMS calculation)" include fruits, tea, soybeans, ornamental plants, mildew and livestock. "Fruits" include bananas, pineapples, ponkans, wentan pomeloes, tou pomeloes, pai pomeloes, tankans, liuchengs, lemons, grape fruit, other citrus, longans, mangoes, betel nuts, guavas, plums, peaches, persimmons, papayas, wax apples, grapes, loquats, Japanese apricots, lichees, olives, carambolas, pears, apples, jujubes, sugar apples, passion fruit, coconuts and other fruits. "Livestock" include cattle, hogs, goats, horses, deer, rabbits, layer, broiler, colorful broiler, tsaiya, mule&muscovy duck, geese, turkeys, cow milk, goat milk, hides, velvets, honey, royal jelly, hen eggs and duck eggs.

Sugar	Jan. 2008	Contract guaranteed purchase	24.88	8.23	7,659.00		127.52	¹³
All Commodities (before <i>de minimis</i>)							3,088.91	

Notes:

⁸ Price support level for rice is calculated on the basis of government planned purchase.

⁹ "Applied administered price of rice" is sourced from "Taiwan Food Statistics Book" published by Agriculture and Food Agency (AFA). "External reference price" is based on the CIF price of rice imported by Hong Kong, China in 1990-1992, which serves as the arithmetic average of the price in 1990-1992. Chinese Taipei did not import rice, and thus did not have data on rice imports. Hong Kong, China is the closest territory to Chinese Taipei and shares similar rice consumption pattern with the latter; therefore, data on rice imports in Hong Kong, China are used as external reference for rice.

"Imported value and volume of rice in Hong Kong, China" is sourced from "Hong Kong Trade Statistics".

"Exchange rate of NT dollars to HK dollars" is sourced from "Hong Kong Monthly Digest of Statistics".

"Conversion rates of paddy to milled rice" is sourced from Agriculture and Food Agency (AFA).

"Eligible production of rice" is sourced from Agriculture and Food Agency AFA.

¹⁰ Price support level for rice is calculated on the basis of government supplementary purchase.

¹¹ Price support level for rice is calculated on the basis of government additional purchase.

¹² "Applied administered price of tobacco leaves" is based on the weighted average of the prices for the purchase of different grades of locally produced tobacco leaves. Data are sourced from "Taiwan Tobacco & Liquor Corporation" (which was transformed from Taiwan Tobacco & Wine Monopoly Bureau (TTWMB)).

"External reference price of tobacco leaves" is based on the CIF price of tobacco leaves imported from Thailand in 1990-1992, which shares the same quality of those grown in Chinese Taipei. Data are sourced from TTWMB.

"Eligible production of tobacco leaves" is sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by Taiwan Tobacco & Liquor Corporation (TTLIC).

¹³ "Applied administered price of sugar" and "eligible production of sugar" in 1991 are sourced from Taiwan Sugar Corporation (TSC).

"External reference price of sugar" is based on the CIF imported price of sugar in 1991. Data are sourced from Taiwan Sugar Corporation (TSC).

Notes:

¹⁴ "Budget outlay of soybean, corn (feed), sorghum" is sourced from Agriculture and Food Agency.

¹⁵ Under the Adjustment Program of Paddy and Upland Field Utilization, for farmers converting rice production to supported crops (peanuts, vegetables, ornamental crops, forage crops and other crops (refer to footnote 6 in Supporting Table DS:4)), there is a diversion payment of NT\$22,000 or NT\$45,000 (with contract for feed corn) per hectare paid since the second crop of 1997.

¹⁶ In addition to the diversion payment, for each of the hectare in adjoining farms with total area of over 30 hectares, there is a bonus payment of NT\$4,000 per hectare. For the conversion of rice production to supported crops mentioned in the preceding footnote.

¹⁷ "Historical data are not available for a breakdown of the diversion and bonus payments of each individual crop in the category of vegetables, ornamental plants and other crops, therefore, only the general category payments are shown."

	Extension and advisory services: Programs for practical application of new technologies, technology improvement of agricultural production, compilation and provision of statistical data and information, strengthening of management of agricultural organizations. (Annex 2, paragraph 2(d))	2,367.04	Documents of budget
	Inspection services: The inspection and control of veterinary medicine, feed, food, pesticide residue, water quality, and grading and the implementation of Chinese Taipei's Agricultural Standard system. (Annex 2, paragraph 2(e))	607.85	Documents of budget
	Marketing and promotion services: Programs for the improvement of the marketing, processing and consumption of food; Establishment of wholesale market. (Annex 2, paragraph 2(f))	1,073.70	Documents of budget

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (Million NT\$)	Data sources
1	2	3	4
	Infrastructural services: Planning and construction of irrigation/drainage facilities and rural roads, land consolidation for agricultural sector and establishment of rural community. (Annex 2, paragraph 2(g))	13,265.68	Documents of budget
(f) Payments for relief from natural disasters	Aid for natural disaster: government payments for relief of damaged incomes by natural disasters. (Annex 2, paragraph 8)	11,238.36	Agricultural Statistics Yearbook
	Interest subsidy: Special loans granted to farmers for the relief of damaged farms due to natural disasters. (Annex 2, paragraph 8)	63.67	Bureau of Agricultural Finance, COA
	a. Loan types, borrowers, purposes, credit lines, loan interest, loan maturity, repayments, and lending institutions. b. Fund is sourced from the Agricultural Development Fund.		
(h) Structural adjustment assistance provided through resource retirement programmes	Land retirement programs: The conversion of farm land to forestry use and island-wide reforestation. (Annex 2, paragraph 10)	524.16	Documents of budget
(j) Environmental programmes	Interest subsidy for pollution reduction: provision of low interest loans to hog farmers for the purchase of pollution prevention facilities. (Annex 2, paragraph 12)	3.84	Bureau of Agricultural Finance, COA
	Programs for preventing pollution, managing agricultural waste and monitoring on the pollution of the water and soil, for promoting the sustainable use of farm land. (Annex 2, paragraph 12)	85.50	Documents of budget
	Interest subsidy: Loan granted to farmers for the use of water and soil conservation. (Annex 2, paragraph 12)	12.58	Bureau of Agricultural Finance, COA
	Land conservation subsidy ¹⁹ : payments for the maintenance of farmland in environmentally good condition by growing green manure crops or setting-aside. (Annex 2, paragraph 12)	9,548.13	Agriculture and Food Agency, COA

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (Million NT\$)	Data sources
1	2	3	4
(k) Regional assistance programmes	Programs for disadvantaged farms: Integrated agricultural construction and environmental improvement programs for disadvantaged farms. (Annex 2, paragraph 13)	123.76	Documents of budget
Total Green Box		44,064.90	

Note:

¹⁹ Land conservation subsidy: Responding to the need to ease restrictions on rice imports and cut agricultural supports in the wake of WTO accession, the COA implemented the "Adjustment of Paddy and Upland Crop Utilization Program". This program is steadily adjusting the growing of rice, coarse grains, and contract sugarcane for sale to the government at guaranteed prices, while also offering payments for the maintenance of farmland in environmentally good condition by growing green manure crops or setting-aside. In order to comply with the WTO regulations, the amount of payment is lower than the extra costs or loss of income. The COA provided assistance for fallowing on a total area of 213,697 hectares in 2009. This achieved lower domestic agricultural support goals, while taking into consideration farmland ecology and soil fertility needs.

REPORTING PERIOD: CALENDAR YEAR 2009 / MARKETING YEAR 2009/2010

Calculation of the Current Total Aggregate Measurement of Support

Description of basic products (including non-product-specific AMS)	Product-specific AMS (from Supporting Tables DS:5 to DS:7 below)	Value of production ²⁰	Support as a % of value of production	Current Total AMS (aggregate)
	(Million NT\$)	(Million NT\$)	(%)	(Million NT\$)
1	2	3	4	5
Rice (paddy)	2,550.14	33,775.02	7.55	2,550.14
Corn	198.97	689.72	28.85	198.97
Sorghum	5.67	10.07	56.31	5.67
Peanuts	218.49	2,762.76	7.91	218.49
Sugar	150.86	585.02	25.79	150.86
Tobacco leaves	234.71	378.68	61.98	234.71
Vegetables ²¹	217.05	47,568.07	0.46	²²
Table sugarcane	15.11	476.75	3.17	²²
Sweet potatoes	108.93	2,336.19	4.66	²²
Forage crops ²³	185.98	1,018.87	18.25	185.98
Other crops ²⁴	309.29	3,832.47	8.07	309.29
All other (not in AMS calculation) ²⁵	0.00	228,436.90	0.00	²²
Non-product-specific AMS (from Supporting Table DS: 9 below)	9,211.28	321,870.52	2.86	²²
Total: Current Total AMS				3,854.11

Notes:

²⁰ Value of production (excluding forage crops, which is estimated as described in footnote (23)) is reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture.

²¹ "Vegetables" include radishes, carrots, other root vegetables, taros, scallions, scallion bulbs, leeks, garlic, water-chestnuts, water bamboo, other stem vegetables, leaf-mustard, water-convolvulus, celery, other leaf-vegetables, day lily, oriental pickling melons, cucumbers, white gourds, bitter gourds, eggplants, tomatoes, peppers, kidney beans, peas, other fruit vegetables, watermelons, seed watermelons, cantaloupes and strawberries.

²² The calculated AMS is not subject to reduction or inclusion in the current AMS because the calculated AMS is less than 5% of value of production (*de minimis* exclusion).

²³ "Value of production of forage crops" is calculated on the basis of the production of pangola grass, napier grass and others which are reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture. The value of production is estimated by the production times the estimated averaged unit price (hay of pangola grass NT\$4.6/kg, napier grass NT\$1.1/kg, others NT\$1.6/kg).

²⁴ "Value of production of other crops" is calculated by deducting the sum value of the crops listed in Supporting Table DS: 4 (including rice, feed corn, sorghum, peanuts, sugar, vegetables, table sugarcane, sweet potatoes, tobacco leaves, forage crops) and those crops not included in AMS calculation (including fruit, tea, soybean, ornamental plants and mildew) from the total value of crops. "Other crops" includes food corn, adzuki beans, other coarse grains (millet, common beans, mung beans,) sesame, other special crops (cassava, tachia rush, triangle rush, perfume plants, sunflowers).

²⁵ "All other (not in AMS calculation)" include fruits, tea, soybeans, ornamental plants, mildew and livestock. "Fruits" include bananas, pineapples, ponkans, wentan pomeloes, tou pomeloes, pai pomeloes, tankans, liuchengs, lemons, grape fruit, other citrus, longans, mangoes, betel nuts, guavas, plums, peaches, persimmons, papayas, wax apples, grapes, loquats, Japanese apricots, lichees, olives, carambolas, pears, apples, jujubes, sugar apples, passion fruit, coconuts and other fruits. "Livestock" include cattle, hogs, goats, horses, deer, rabbits, layer, broiler, colorful broiler, tsaiya, mule&muscovy duck, geese, turkeys, cow milk, goat milk, hides, velvets, honey, royal jelly, hen eggs and duck eggs.

All Commodities (before <i>de minimis</i>)							2,892.61	

Notes:

²⁶ Price support level for rice is calculated on the basis of government planned purchase.

²⁷ "Applied administered price of rice" is sourced from "Taiwan Food Statistics Book" published by Agriculture and Food Agency (AFA). "External reference price" is based on the CIF price of rice imported by Hong Kong, China in 1990-1992, which serves as the arithmetic average of the price in 1990-1992. Chinese Taipei did not import rice, and thus did not have data on rice imports. Hong Kong, China is the closest territory to Chinese Taipei and shares similar rice consumption pattern with the latter; therefore, data on rice imports in Hong Kong, China are used as external reference for rice.

"Imported value and volume of rice in Hong Kong, China" is sourced from "Hong Kong Trade Statistics".

"Exchange rate of NT dollars to HK dollars" is sourced from "Hong Kong Monthly Digest of Statistics".

"Conversion rates of paddy to milled rice" is sourced from Agriculture and Food Agency (AFA).

"Eligible production of rice" is sourced from Agriculture and Food Agency AFA.

²⁸ Price support level for rice is calculated on the basis of government supplementary purchase.

²⁹ Price support level for rice is calculated on the basis of government additional purchase.

³⁰ "Applied administered price of tobacco leaves" is based on the weighted average of the prices for the purchase of different grades of locally produced tobacco leaves. Data are sourced from "Taiwan Tobacco & Liquor Corporation" (which was transformed from Taiwan Tobacco & Wine Monopoly Bureau (TTWMB)).

"External reference price of tobacco leaves" is based on the CIF price of tobacco leaves imported from Thailand in 1990-1992, which shares the same quality of those grown in Chinese Taipei. Data are sourced from TTWMB.

"Eligible production of tobacco leaves" is sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by Taiwan Tobacco & Liquor Corporation (TTLC).

³¹ "Applied administered price of sugar" and "eligible production of sugar" in 1991 are sourced from Taiwan Sugar Corporation (TSC).

"External reference price of sugar" is based on the CIF imported price of sugar in 1991. Data are sourced from Taiwan Sugar Corporation (TSC).

Total Green Box		41,428.22	

Note:

³⁶ Land conservation subsidy: Responding to the need to ease restrictions on rice imports and cut agricultural supports in the wake of WTO accession, the COA implemented the "Adjustment of Paddy Field Multiple Utilization Program". This program is steadily adjusting the growing of rice, coarse grains, and contract sugarcane for sale to the government at guaranteed prices, while also offering payments for the maintenance of farmland in environmentally good condition by growing green manure crops or setting-aside. In order to comply with the WTO regulations, the amount of payment is lower than the extra costs or loss of income. The COA provided assistance for fallowing on a total area of 206,467 hectares in 2010. This achieved lower domestic agricultural support goals, while taking into consideration farmland ecology and soil fertility needs.

Calculation of the Current Total Aggregate Measurement of Support

Description of basic products (including non-product-specific AMS)	Product-specific AMS (from Supporting Tables DS:5 to DS:7 below)	Value of production ³⁷	Support as a % of value of production	Current Total AMS (aggregate)
	(Million NT\$)	(Million NT\$)	(%)	(Million NT\$)
1	2	3	4	5
Rice (paddy)	2,637.90	30,355.77	8.69	2,637.90
Corn	173.06	518.26	33.39	173.06
Sorghum	0.45	108.68	0.41	³⁸
Peanuts	232.21	3,467.74	6.70	232.21
Sugar	142.18	794.31	17.90	142.18
Tobacco leaves	223.27	354.17	63.04	223.27
Vegetables ³⁹	224.98	51,087.60	0.44	³⁸
Table sugarcane	13.31	408.09	3.26	³⁸
Sweet potatoes	85.37	2,384.77	3.58	³⁸
Forage crops ⁴⁰	196.44	968.36	20.29	196.44
Other crops ⁴¹	275.98	4,557.04	6.06	275.98
All other (not in AMS calculation) ⁴²	0.00	239,987.70	0.00	³⁸
Non-product-specific AMS (from Supporting Table DS: 9 below)	6,185.96	334,992.49	1.85	³⁸
Total: Current Total AMS				3,881.03

Notes:

³⁷ Value of production (excluding forage crops, which is estimated as described in footnote (40)) is reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture.

³⁸ The calculated AMS is not subject to reduction or inclusion in the current AMS because the calculated AMS is less than 5% of value of production (*de minimis* exclusion).

³⁹ "Vegetables" include radishes, carrots, other root vegetables, taros, scallions, scallion bulbs, leeks, garlic, water-chestnuts, water bamboo, other stem vegetables, leaf-mustard, water-convolvulus, celery, other leaf-vegetables, day lily, oriental pickling melons, cucumbers, white gourds, bitter gourds, eggplants, tomatoes, peppers, kidney beans, peas, other fruit vegetables, watermelons, seed watermelons, cantaloupes and strawberries.

⁴⁰ "Value of production of forage crops" is calculated on the basis of the production of pangola grass, napier grass and others which are reported in "Agricultural Statistics Yearbook" published by the Council of Agriculture. The value of production is estimated by the production times the estimated averaged unit price (hay of pangola grass NT\$4.6/kg, napier grass NT\$1.1/kg, others NT\$1.6/kg).

⁴¹ "Value of production of other crops" is calculated by deducting the sum value of the crops listed in Supporting Table DS: 4 (including rice, feed corn, sorghum, peanuts, sugar, vegetables, table sugarcane, sweet potatoes, tobacco leaves, forage crops) and those crops not included in AMS calculation (including fruit, tea, soybean, ornamental plants and mildew) from the total value of crops. "Other crops" includes food corn, adzuki beans, other coarse grains (millet, common beans, mung beans,) sesame, other special crops (cassava, tachia rush, triangle rush, perfume plants, sunflowers).

⁴² "All other (not in AMS calculation)" include fruits, tea, soybeans, ornamental plants, mildew and livestock. "Fruits" include bananas, pineapples, ponkans, wentan pomeloes, tou pomeloes, pai pomeloes, tankans, liuchengs, lemons, grape fruit, other citrus, longans, mangoes, betel nuts, guavas, plums, peaches, persimmons, papayas, wax apples, grapes, loquats, Japanese apricots, lichees, olives, carambolas, pears, apples, jujubes, sugar apples, passion fruit, coconuts and other fruits. "Livestock" include cattle, hogs, goats, horses, deer, rabbits, layer, broiler, colorful broiler, tsaiya, mule&muscovy duck, geese, turkeys, cow milk, goat milk, hides, velvets, honey, royal jelly, hen eggs and duck eggs.

All Commodities (before <i>de minimis</i>)							2,961.22	

Notes:

⁴³ Price support level for rice is calculated on the basis of government planned purchase.

⁴⁴ "Applied administered price of rice" is sourced from "Taiwan Food Statistics Book" published by Agriculture and Food Agency (AFA). "External reference price" is based on the CIF price of rice imported by Hong Kong, China in 1990-1992, which serves as the arithmetic average of the price in 1990-1992. Chinese Taipei did not import rice, and thus did not have data on rice imports. Hong Kong, China is the closest territory to Chinese Taipei and shares similar rice consumption pattern with the latter; therefore, data on rice imports in Hong Kong, China are used as external reference for rice.

"Imported value and volume of rice in Hong Kong, China" is sourced from "Hong Kong Trade Statistics".

"Exchange rate of NT dollars to HK dollars" is sourced from "Hong Kong Monthly Digest of Statistics".

"Conversion rates of paddy to milled rice" is sourced from Agriculture and Food Agency (AFA).

"Eligible production of rice" is sourced from Agriculture and Food Agency AFA.

⁴⁵ Price support level for rice is calculated on the basis of government supplementary purchase.

⁴⁶ Price support level for rice is calculated on the basis of government additional purchase.

⁴⁷ "Applied administered price of tobacco leaves" is based on the weighted average of the prices for the purchase of different grades of locally produced tobacco leaves. Data are sourced from "Taiwan Tobacco & Liquor Corporation" (which was transformed from Taiwan Tobacco & Wine Monopoly Bureau (TTWMB)).

"External reference price of tobacco leaves" is based on the CIF price of tobacco leaves imported from Thailand in 1990-1992, which shares the same quality of those grown in Chinese Taipei. Data are sourced from TTWMB.

"Eligible production of tobacco leaves" is sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by Taiwan Tobacco & Liquor Corporation (TTLC).

⁴⁸ "Applied administered price of sugar" and "eligible production of sugar" in 1991 are sourced from Taiwan Sugar Corporation (TSC).

"External reference price of sugar" is based on the CIF imported price of sugar in 1991. Data are sourced from Taiwan Sugar Corporation (TSC).

Notes:

⁴⁹ "Budget outlay of soybean, corn (feed), sorghum" is sourced from Agriculture and Food Agency.

⁵⁰ Under the Adjustment of Paddy Field Multiple Utilization Program, for farmers converting rice production to supported crops (peanuts, vegetables, ornamental crops, forage crops and other crops (refer to footnote 41 in Supporting Table DS:4)), there is a diversion payment of NT\$24,000, NT\$35,000 (with contract for forage crops), or NT\$45,000 (with contract for feed corn) per hectare paid, and the bonus payment cancelled since the first crop of 2009.

⁵¹ Historical data are not available for a breakdown of the diversion payments of each individual crop in the category of vegetables, ornamental plants and other crops, therefore, only the general category payments are shown.
