Committee on Agriculture

Original: English

## NOTIFICATION

### *Revision*

The following submission, dated 23 December 2016, is being circulated at the request of the Delegation of the **United States of America**. The revision concerns the notification of domestic support commitments (**Table DS:1** and the relevant Supporting Tables) for the marketing year **2013**.

---

The revision reflects corrections to the reported value of production for several commodities and a correction to direct payments in decoupled income support.

Table DS:1

DOMESTIC SUPPORT: UNITED STATES OF AMERICA

REPORTING PERIOD: MARKETING YEAR 2013

*Current Total Aggregate Measurement of Support*

Total AMS commitment level for period in question	Currency	Current Total AMS
(from Section 1 of Part IV of the Schedule)	(from Section 1 of Part IV of the Schedule)	(from attached Supporting Tables)
1	2	3
19,103.294	USD million	6,891.782

**Supporting Table DS:1**

**DOMESTIC SUPPORT: UNITED STATES OF AMERICA**

REPORTING PERIOD: FISCAL YEAR 2013 (EXCEPT AS NOTED)

*Measures exempt from the reduction commitment – "Green Box"*

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
<b>(a) General services:</b>	<b>12,670</b>	
Agricultural Research Service (ARS)		Research and advisory function. Acquires, maintains, and disseminates information.
Agricultural Research	1,071	Includes National Agricultural Library functions.
Buildings & Facilities	15	Conducts research on a wide variety of topics, including soil and water conservation, plant and animal sciences, human nutrition, and integrated agricultural systems.
Misc. Contributed Funds	30	
National Institute for Food and Agriculture (NIFA)		Formerly Cooperative State Research, Extension, and Education Service (CSREES). Renamed National Institute for Food and Agriculture (NIFA) beginning FY 2009 by 2008 Farm Act (PL110-246).
Research and Education Activities	662	Research function. Provides grants to state agricultural research establishments. Participates in cooperative planning with state research institutions.
Integrated Activities	105	Funds integrated research, education, and extension grants programmes.
Extension Activities	395	Advisory function. Participates with state cooperative extension system on applied education, information, and technology transfer.
Biomass Research and Development	27	Funds research and development projects leading to the production of bio-based industrial products. Jointly managed by USDA and the Department of Energy. Authorized by the Biomass Research and Development Act of 2000 (Title III, PL 106-224); extended under the 2008 Farm Act (PL 110-246). (Previously administered by Rural Cooperative-Business Service.)
Rural Bus. and Coop. Development Services (RBCD)		
Rural Cooperative Development Grants	34	Provides grants to non-profit corporations and institutions of higher learning to fund centers for development of new cooperatives and improve operations of existing cooperatives (PL 104-127); also provides grants for value-added marketing for cooperatives reauthorized by the 2008 Farm Act (PL 110-246).

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
Animal & Plant Health Inspection Service (APHIS)		
Salaries & Expenses <sup>2</sup>	1,038	Inspection/pest and disease control function.
Buildings & Facilities	2	Protects animal and plant resources from destructive pests and diseases.
Miscellaneous Trust Funds	14	
State programmes for agriculture		
Regular annual outlays by states, net of fees and taxes <sup>3</sup>	2,452	State governments provide a number of generally available services. Includes extension, marketing, and research. Amount reported is net of producer fees and taxes paid for various services.
Grain Inspection, Packers and Stockyard Administration (GIP&S)		
Salaries & Expenses	36	Marketing/inspection functions. Establishes standards. Provides for official inspection and implementation of the system of standards for marketing and conducts surveillance and investigatory activities to protect producers and consumers from unfair trade practices.
Limitation on Inspection and Weighing Services Expenses	3	
Food Safety Inspection Service (FSIS)		
Salaries & Expenses	996	Safety/inspection function.
Inspec. & Grading of Farm Products	11	Provides in-plant inspection to assure quality of meat and poultry and the accuracy of labelling.
Agricultural Marketing Service (AMS)		
Marketing Services	78	Marketing function.
Payments to States & Possessions	55	Develops marketing standards and provides news and inspection services. Grants to states for projects, such as improving marketing information, and developing grading standards.
Perishable Agricultural Commodity Act Fund	10	Uses license fees to take legal actions against unfair buyer trade practices.
Expenses and Refunds, Inspection and Grading of Farm Products (formerly called Miscellaneous Trust Funds)	160	Grading and certification services are provided on a fee-for-service basis.
Risk Management Agency (RMA)		
Agency administrative and operating expenses	73	Funds for management of the Federal Crop Insurance Program.
Administrative & operating reimbursements to insurers	1,350	Reimbursements for certain administrative and operating expenses of insurance companies delivering Federal crop insurance.
Underwriting gains to insurers	2,878	Underwriting gains provided to insurance companies under the Standard Reinsurance Agreement.

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
Office of the Chief Economist World Agricultural Outlook Board (WAOB)	4	Research and advisory function. Provides economic information about current outlook and situation for commodity supply and price.
Economic Research Service (ERS) Economic Research Service	79	Research and advisory function. Performs economic research and analysis for the public, Congress, and the Executive Branch.
National Agricultural Statistics Service (NASS) National Agricultural Statistics Service	175	Research and advisory function. Provides official estimates of resource utilization, production, and prices of agricultural products.
Farm Service Agency (FSA) <sup>3</sup> Conservation Reserve Program Technical Assistance	107	Extension, advisory, and training service functions. USDA agencies provide various technical services to help producers participate in Conservation Reserve Program (CRP)
Natural Resource Conservation Service (NRCS) <sup>3</sup> Conservation Operations	795	Extension, advisory, and training service functions. To promote conservation of soil and water, NRCS provides technical assistance, conducts soil surveys, and assesses erosion factors (formerly activity of "SCS").
Resource Conservation and Development	0	Assists individuals and localities to develop area-wide plans for resource conservation and development.
Foreign Agriculture Service (FAS) Trade Adjustment Assistance for Farmers (TAA for Farmers)	15	The American Recovery and Reinvestment Act (ARRA) of 2009 reauthorized and modified the TAA for Farmers program. Producers of groups of commodities certified as suffering losses from import competition during the period 1 October 2008 through 31 December 2010, could apply to receive free information, technical assistance, and support to develop and implement Business Adjustment Plans.
<b>(b) Public Stockholding for Food Security:</b>	<b>0</b>	
<b>(c) Domestic food aid:</b>	<b>109,591</b>	
Food & Consumer Services (FCS) Nutrition Programs Administration (formerly Food Program Administration)	139	For administration of food programmes providing access to more nutritious diets for low income people and children.

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
Supplemental Nutrition Assistance Program (SNAP) (formerly Food Stamp Program)	82,548	Low income people receive financial assistance to help purchase nutritious food. (Renamed Supplemental Nutrition Assistance Program (SNAP) beginning FY 2009 by the 2008 Farm Act (PL110-246)).
Child Nutrition Programmes	19,325	Cash and commodities to assist children to attain adequate diets. Includes special milk, school lunch and breakfast, homeless children, and other programmes.
Special Supplemental Nutrition program for Women, Infants, and Children (WIC)	6,557	Food supplements to improve health of low income mothers, infants, and young children.
Commodity Assistance Program (CAP)	275	CAP includes previously separate programmes: Commodity Supplemental Food, Emergency Food, assistance to Indian Reservations and to Pacific Islands and Nutrition for the Elderly.
Agricultural Marketing Service (AMS) Section 32	747	Funds purchases of commodities distributed to low-income, children, and elderly people through the FNS food programmes described above.
<b>(d) Decoupled income support:</b>	<b>5,795</b>	
Farm Service Agency (FSA) Direct Payments	4,843	Payments made to producers and landowners based on acreage and production in a prior base period, as specified in the 2002 Farm Act (PL 107-171) and reauthorized in the 2008 Farm Act (PL110-246).
Tobacco quota buyout	952	Buyout of marketing quota under tobacco price support program, terminated under provisions of the Fair and Equitable Tobacco Reform Act of 2004 (Title VI, PL 108-357). Payments are funded through assessments on tobacco product manufacturers and importers. The legislation also terminated the tobacco price and income support program at the end of the 2004 marketing year.
<b>(e) Income insurance and safety-net programmes:</b>	<b>0</b>	Note: Most insurance programme support to producers is reported by commodity in Supporting Table DS:7; adjusted gross revenue insurance is reported in Supporting Table DS:9
<b>(f) Payments for relief from natural disasters:</b>	<b>174</b>	
Farm Service Agency (FSA) Non-insured Crop Disaster Assistance Program (NAP, crop year)	172	Under the 1994 Federal Crop Insurance Reform Act (P.L.103-354), producers of crops not currently insurable under other programmes received benefits if it was determined by the USDA that there had been yield losses greater than 35% for the area, and greater than 50% for the individual farm. The area loss requirement was eliminated per Section 109 of the Agricultural Risk Protection Act of 2000 (P.L. 106-224). The 50% loss requirement for each producer has been continued.

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
Emergency loans <sup>4</sup>	2	Emergency loans provide emergency funding and technical assistance for farmers and ranchers to rehabilitate farmland damaged by natural disasters and for carrying out emergency water conservation measures in periods of severe drought.
<b>(g) Structural adjustment through producer retirement programmes:</b>	<b>0</b>	
<b>(h) Structural adjustment through resource retirement programmes:</b>	<b>0</b>	
<b>(i) Structural adjustment through investment aids:</b>	<b>93</b>	
Farm Service Agency (FSA) Farm Credit Programs <sup>4</sup>	89	Programme includes (i) short-term and long-term loans made at preferential interest rates and (ii) guarantees of private loans. Eligibility (clearly defined in regulations) determined by status as owner-operator of a family-sized farm in situations of structural disadvantage (cannot obtain credit elsewhere).
State Mediation Grants	4	Grants provided to states to assist producers having problems meeting credit obligations. Assistance must be provided through certified agricultural loan mediation program.
<b>(j) Environmental payments:</b>	<b>4,988</b>	
Farm Service Agency (FSA) Conservation Reserve Program	1,776	Soil erosion reduction and other environmental benefits are addressed through 10-year rental agreements to establish permanent cover crops on cropland.
Emergency Conservation Program	41	Assists in funding emergency conservation measures necessary to restore farmland damaged by natural disasters.
Conservation loans	4	Loans are made to cover costs of implementing qualifying conservation projects. Reported expenditure is interest subsidy for direct and guaranteed loans. Authorized under the 2008 Farm Act and implemented in 2010.
Voluntary Public Access and Wildlife Habitat Incentives (VPA-WHIP)	0	Provides grants to State and tribal governments to implement programmes to encourage farmers and ranchers to develop enhanced wildlife habitat and allow public access on their lands for wildlife dependent recreation. Authorized under the 2008 Farm Act and first implemented in 2010.
Natural Resource Conservation Service (NRCS) Agricultural Management Assistance Program	2	Provides cost-share assistance for conservation practices that improve water management, water quality, and erosion control. Reauthorized under 2008 Farm Act (PL 110-246).

Agency and programme, by measure and type (some agency names have changed)	Outlays (USD million) <sup>1</sup>	Description of programme
Conservation Stewardship Program <sup>5</sup>	1,042	Provides payments for structural and land management practices that address resource concerns. Authorized by 2008 Farm Act (PL 110-246).
Grassland Reserve Program	63	Long-term contracts or easements to restore and conserve grassland. Reauthorized under 2008 Farm Act (PL 110-246).
Wetland Reserve Program	400	Conservation and restoration of wetlands through long-term agreements. Producers must implement a conservation plan and retire crop acreage base. Funding transferred to NRCS under 2002 Farm Act (PL 107-171).
Wildlife Habitat Incentives Program	64	Provides technical assistance and cost-share assistance to landowners to develop habitat for upland wildlife, wetlands wildlife, endangered species, fish, and other wildlife. Funds come from CCC under 5-10 year contracts (Title III, Public Law 104-127).
Farmland Protection Program	118	Conservation plans are made and easements purchased through State, tribe, or local government agencies to protect topsoil by limiting conversion to non-agricultural uses. Conservation plans must be carried out over the 30 years or more of the easement term. Authorized by the 1996 Farm Act (Public Law 104-127); renamed under 2008 Farm Act (PL 110-246).
Environmental Quality Incentives Program (EQIP)	1,374	Encourages farmers and ranchers to adopt practices that reduce environmental and resource problems. Half of the funds are targeted to livestock production practices. Authorized by the 1996 Farm Act (PL 104-127) and reauthorized under the 2002 Farm Act (PL 107-171) and 2008 Farm Act (PL 110-246).
Agricultural Water Enhancement Program	55	The Agricultural Water Enhancement Program (AWEP) is a voluntary conservation initiative that provides financial and technical assistance to agricultural producers to implement agricultural water enhancement activities on agricultural land for the purposes of conserving surface and ground water and improving water quality. Authorized by 2008 Farm Act (PL 110-246), the programme supersedes the Ground and Surface Water Protection Program.
Chesapeake Bay Watershed Initiative	49	The programme assists producers in implementing activities to improve water quality and quantity, and restore, enhance and preserve soil, air, and related resources in the Chesapeake Bay Watershed. Authorized by 2008 Farm Act (PL 110-246).
<b>(k) Payments Under Regional Assistance Programmes</b>	<b>0</b>	
<b>(l) Other:</b>	<b>0</b>	
<b>Grand Total</b>	<b>133,311</b>	

1 Unless otherwise specified, data are outlays for fiscal years. Outlays were excluded from domestic U.S. tables if not related directly to internal support of production agriculture. Wages and salaries and administrative expenses were excluded except where such outlays reflect the level of services provided to agriculture.

- 2 Includes an estimated USD 577 million for pest and disease management programmes.
- 3 In providing technical assistance, USDA agencies explain and determine eligibility for conservation programmes, help develop individual conservation plans, help install approved practices, provide information and educational assistance, and consult with universities and other government agencies. Beginning in 2002, expenditures for technical assistance under most farm programmes transitioned from FSA to NRCS, leading to a change in accounting for technical assistance that was not immediately reflected in reporting of NRCS technical assistance. Estimates of NRCS technical assistance have continued to be included under FSA/NRCS CTA, as well as under NRCS Conservation Operations and as part of NRCS program payments under Environmental Payments, leading to double-counting of NRCS technical assistance. Beginning in 2009, CRP technical assistance is reported separately under FSA, while NRCS general conservation technical assistance continues to be reported as part of Conservation Operations, and NRCS program payments continue to include some technical assistance expenditures.
- 4 Derived as the difference between FSA farm loans and commercial interest rates times the value of loans made during the year. Data also include budget outlays for recognized losses on FSA loan guarantees.
- 5 The Conservation Stewardship Program (CStP) superseded the Conservation Security Program (CSP) under the 2008 Farm Act. The total reported for CStP includes expenditures on remaining CSP contracts.

Wool	0.000	39.209	1.960	<sup>2</sup>
Total	13,995.197			6,891.782
Non-product-specific AMS (from Supporting Table DS:9 below)	272.444	391,579.773	19,578.989	<sup>2</sup>
<b>Total: Current Total AMS</b>				<b>6,891.782</b>

- 1 Value of production from National Agricultural Statistics Service (NASS) where available. For remaining commodities, value of production estimated from best available sources, including cash receipts from Economic Research Service Farm Income Data, production and value of sales from the 2012 Census of Agriculture, production and price data from State extension service bulletins, and price data from the Risk Management Agency.
- 2 AMS is not subject to reduction or inclusion in the current total AMS because the calculated AMS is less than 5% of value of production (*de minimis* exclusion).
- 3 Includes chickpeas and lentils, which are combined with other dry peas into a single category for crop insurance.
- 4 Includes all livestock eligible for Livestock Forage Disaster Program (LFP) and/or emergency feed & grazing assistance under the Emergency Assistance Livestock, Honeybees and Farm-Raised Fish Program (ELAP). Value of production included for all species for which data are available-alpacas, bison, deer, elk, emus, equine, goats, llamas, poultry (chickens, turkeys, ducks, geese, and other miscellaneous poultry), sheep, and swine.
- 5 Orchards, vineyards, nursery category includes trees, bushes and vines eligible for TAP.
- 6 Poultry category includes all poultry eligible for the LIP program: broilers and other chickens, layers, turkeys, ducks, and other poultry (geese, Cornish hens). Value of production includes all eligible species for which data are available (does not include Cornish hens).

Total all Commodities (before <i>de minimis</i> )							4,324.367	

1 External reference price is 1986-88 average price from FAS/USDA reported prices, FOB Northern Europe and other world ports.

2 Reference price based on 1986-88 average Caribbean price adjusted to include transportation costs of USD 28.66/ton (28.66 + 202.164 = 230.824). Annual Caribbean price is the simple average of 12 monthly prices. Applied administered price is the announced loan rate for cane sugar (18.75 cents per lb.). Eligible production for market price support is the smaller of either actual production or the Overall Allotment Quantity (OAQ), as provided for in the 2002 Farm Act (PL 107-171) and continued under the 2008 Farm Act (PL 110-246). The OAQ sets the amount of sugar that may be marketed during any year, thereby determining the maximum amount of production eligible for price support. Eligible production for 2013 is actual sugar production.

All Commodities Before <i>de minimis</i>	2013	Subtotal all direct payments					2,292.297		<b>2,292.297</b>	

- Marketing loan gains, loan deficiency payments, and forfeitures constitute benefits under the Marketing Assistance Loan Program (certificate exchange gains were discontinued after 2009). Covered commodities include corn, soybeans, wheat, rice (both medium and long-grain), upland cotton, barley, grain sorghum, oats, peanuts, oilseeds (which include canola, crambe, flaxseed, mustard seed, rapeseed, safflower, sesame seed, and sunflower seed), dry peas, honey, lentils, mohair, small and large chickpeas, and wool. Only commodities for which there were payments in the reporting year are included in the notification. No benefits were paid under this program during the 2013 marketing year.
- Four supplemental disaster programmes, the Livestock Indemnity Program (LIP), the Livestock Forage Disaster Program (LFP), the Emergency Livestock Assistance Program (ELAP), and the Tree Assistance Program (TAP), were authorized by the 2008 Farm Act. LIP provides payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather. LFP provides payments to eligible producers of covered livestock for grazing losses. ELAP provides emergency relief to eligible producers of livestock, honey bees, and farm-raised fish for losses due to disease, adverse weather, or other conditions not covered by other programmes under Supplemental Agricultural Disaster Assistance. TAP provides assistance to eligible orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes and vines damaged by natural disasters. These programmes terminated at the end of FY 2011 under provisions of the 2008 Farm Act. They were extended through FY 2013 under the American Taxpayer Relief Act of 2012 but were not funded. The programmes were restored under the 2014 Farm Act and cover eligible losses beginning 1 October 2011.

- 3 The Average Crop Revenue Election (ACRE) program was authorized by the 2008 Farm Act. Producers on a farm with covered commodities and/or peanuts who elect to participate in the ACRE program must enroll for all covered commodities and peanut acreage on the farm. Producers may elect to enroll in ACRE anytime beginning with the 2009 crop year through the duration of the 2008 Farm Act, but once enrolled in ACRE, the farm remains in the programme through 2012. Direct payments are reduced by 20% and marketing assistance loan rates are reduced by 30% on enrolled farms. Covered commodities include corn, soybeans, wheat, rice (both medium and long-grain), upland cotton, barley, grain sorghum, oats, peanuts, oilseeds (which include canola, crambe, flaxseed, mustard seed, rapeseed, safflower, sesame seed, and sunflower seed), dry peas, lentils, and small and large chickpeas. Only commodities for which there were payments in the reporting year are included in the notification.
- 4 Species-specific payment data not available for Livestock Forage Disaster Program (LFP) or for emergency feed & grazing assistance under the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP). Eligible livestock include alpacas, adult or non-adult dairy cattle, beef cattle, beefalo, buffalo, deer, elk, emus, equine, goats, llamas, poultry, reindeer, sheep, and swine.

- 1 Producers may choose one of the various types of crop yield or revenue insurance plans made available each year. The contracted-for insurance premiums are subsidized. The chosen guarantee (coverage) level commonly ranges from 50% to 85% of the historical average yield or expected revenue.
- 2 Interest subsidies constitute a benefit under the Marketing Assistance Loan Program. Covered commodities include corn, soybeans, wheat, rice (both medium and long-grain), upland cotton, barley, grain sorghum, oats, peanuts, oilseeds (which include canola, crambe, flaxseed, mustard seed, rapeseed, safflower, sesame seed, and sunflower seed), dry peas, honey, lentils, mohair, small and large chickpeas, and wool. Only commodities for which there were benefits in the reporting year are included in the notification, unless the commodity is included on the basis of other support. Chickpeas and lentils are reported with dry peas because they are included under dried peas for crop insurance purposes, and premium subsidies are not reported separately.
- 3 Fees/levies include loan origination and related fees for most loan commodities.
- 4 Includes chickpeas and lentils, which are combined with other dry peas into a single category for crop insurance.
- 5 Species-specific payment data not available for Livestock Forage Disaster Program (LFP) or for emergency feed & grazing assistance under the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP). Eligible livestock include alpacas, adult or non-adult dairy cattle, beef cattle, beefalo, buffalo, deer, elk, emus, equine, goats, llamas, poultry, reindeer, sheep, and swine.

**Supporting Table DS:9**

**DOMESTIC SUPPORT: UNITED STATES OF AMERICA**

REPORTING PERIOD: FISCAL YEAR 2013 (EXCEPT AS NOTED)

*Non-Product-Specific AMS*

Measure type(s)	Non-product-specific budgetary outlays	Other non-product specific support	Associated fees/levies	Total non-product-specific support	Data sources and comments
	USD million	USD million	USD million	USD million	
1	2	3	4	5	6
Irrigation on Bureau of Reclamation Projects in 17 Western States:		167.314		167.314	Based on a "debt financing method." A long-term interest rate is applied to the outstanding unpaid balance of capital investment by the Government in irrigation facilities to obtain the subsidy. Irrigators repay the principal but not the interest on the project debt.
Net Federal budget outlays for grazing livestock on Federal Land	65.069		19.490	45.579	The data are net budget outlays for livestock grazing on public range land in 16 Western States operated by the Forest Service (FS) and Bureau of Land Management (BLM). The net budget outlays include (as negative outlays) the receipts for fees paid by livestock producers, but do not include other "non-fee" costs paid by the producers, such as for building and maintaining water supplies and fences. Including the other non-fee costs could reduce the net outlay figure, perhaps to zero.
Adjusted gross revenue insurance (premium subsidies) (crop year)	9.462			9.462	Adjusted Gross Revenue (AGR) and AGR-Lite policies insure revenue of the entire farm rather than an individual crop by guaranteeing a percentage of average gross farm revenue, including a small amount of livestock revenue. The policies use information from a producer's Schedule F tax forms, and current year expected farm revenue, to calculate policy revenue guarantee.
Countercyclical payments (crop year)	0.000			0.000	Provides payments when prices of programme commodities fall below a target price. Payments are based on historical acres and yields and do not require current production of the historically produced commodity. Authorized by the 2002 Farm Act (PL107-171).

Measure type(s)	Non-product-specific budgetary outlays	Other non-product specific support	Associated fees/levies	Total non-product-specific support	Data sources and comments
	USD million	USD million	USD million	USD million	
1	2	3	4	5	6
Farm storage facility loans:	9.090			9.090	Provides low-cost financing for farmers to build or upgrade on-farm grain storage and handling facilities. The programme is authorized under the Commodity Credit Corporation Charter Act of 1949. It was discontinued in the early 1980s and re-established in FY 2000.
Biomass crop assistance program:	0.000			0.000	Provides financial assistance to producers or entities that deliver eligible biomass material to designated biomass conversion facilities for use as heat, power, biobased products or biofuels. Assistance is for costs of collection, harvest, storage and transportation associated with delivery of eligible materials. Authorized by the 2008 Farm Act (PL 110-246).
Rural Energy for American Program (formerly Renewable Energy Program)	39.000			39.000	Provides direct loans, loan guarantees, and grants to farmers, ranchers, and small rural businesses to purchase renewable energy systems and make energy efficiency improvements. Reauthorized by the 2008 Farm Act (PL 110-246).
Reimbursement Transportation Cost Payment for Geographically Disadvantaged Farmers and Ranchers (RTCP)	2.000			2.000	Provides payments to reimburse higher costs for transportation of agricultural inputs and commodities faced by geographically disadvantaged producers in Hawaii, Alaska, Puerto Rico, Guam, American Samoa, the Northern Mariana Islands, Micronesia, the Marshall Islands, Palau, and the US Virgin Islands. Authorized under the 2008 Farm Act (P.L. 110-246) and first implemented in 2010.
Total non-product specific support:	124.620	167.314	19.490	<b>272.444</b>	AMS is not subject to reduction because the total is less than 5% of value of production of U.S. agriculture (0.05*USD 391,580 mil. = USD 19,579 mil. in 2013)
