Committee on Import Licensing

Original: French

AGREEMENT ON IMPORT LICENSING PROCEDURES

NOTIFICATION UNDER ARTICLES 5¹ AND 7.3 OF THE AGREEMENT

CHAD

The following notification, dated 30 September 2013, is being circulated at the request of the delegation of Chad.

Please be advised that Chad's import licensing regime applies only to the following products:

- sulphur;
- other explosives.

Certain products and/or materials containing or operating by means of ozone-depleting substances.

A special import authorization, issued by the Minister of Trade, is required for the importation of these products.

The rules and procedures governing authorization of the importation of these products are established in the following texts, copies of which are attached* to this notification:

- Order No. 054/MCPI/DG/DC/95 abolishing import and export licences and establishing the negative list of products subject to special import authorization;
- Order No. 006/MICA/MEE/2000 regulating the importation of certain products and/or materials containing or operating by means of ozone-depleting substances;
- Order No. 010/MICA/DG/DC/2000 establishing the procedures for the granting of special import authorization for certain products and/or materials containing or operating by means of ozone-depleting substances.

The three Orders are available for consultation on the Ministry of Trade and Industry website at: <http://www.commerce.gouv.td>.

ⁱ "Members which institute licensing procedures or changes in these procedures shall notify the Committee of such within 60 days of publication" (Article 5.1 of the Agreement).

* Available for consultation in the Secretariat (Market Access Division) (in French only).
