Committee on Import Licensing

Original: English

REPLIES TO QUESTIONNAIRE ON IMPORT LICENSING PROCEDURES¹

NOTIFICATION UNDER ARTICLE 7.3 OF THE AGREEMENT ON IMPORT LICENSING PROCEDURES (2016)

RUSSIAN FEDERATION

The following communication, dated 30 September 2016, is being circulated at the request of the delegation of the Russian Federation.

1 OZONE DEPLETING SUBSTANCES	2
2 PLANT PROTECTION CHEMICALS.....	5
3 HAZARDOUS WASTE.....	7
4 WILD LIVE ANIMALS AND CERTAIN WILD GROWING PLANTS	13
5 TOXIC SUBSTANCES EXCEPT FOR PRECURSORS OF THE NARCOTIC DRUGS AND SUBSTANCES WITH PSYCHOTROPIC EFFECTS	15
6 NARCOTIC DRUGS, SUBSTANCES WITH PSYCHOTROPIC EFFECTS AND THEIR PRECURSORS	18
7 MEDICINES AND PHARMACEUTICAL PRODUCTS.....	20
8 HUMAN ORGANS AND TISSUES, BLOOD AND ITS COMPONENTS.....	23
9 CIVIL RADIO-ELECTRONIC AND/OR HIGH-FREQUENCY MEANS (REM AND HFM) INCLUDING BUILT-IN OR FORMING PART OF OTHER GOODS	25
10 SPECIAL DEVICES INTENDED FOR UNAUTHORISED OBTAINING OF INFORMATION	30
11 ENCRYPTION DEVICES	34
12 OFFICE AND CIVIL WEAPON, ITS MAIN PARTS AND CARTRIDGES	38
13 COMBINE HARVESTERS	41

¹ See document G/LIC/3, Annex, for the Questionnaire.

1 OZONE DEPLETING SUBSTANCES

Outline of System

1. The Russian Federation manages its obligations for ozone depleting substances controlled by the Montreal Protocol on Substances that Deplete the Ozone Layer through the Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 134 of 16.08.2012, as last amended on 18.08.2015, Annex 2.1). The import, export and manufacture of the ozone depleting substances is prohibited under the Montreal Protocol except where an essential or critical use exemption has been granted by the parties to the Montreal Protocol. The Russian Federation's Montreal Protocol obligations are implemented through a system of licensing and quota restrictions on ozone depleting substances.

Purposes and coverage of licensing

2. The requirements of the licensing system are:

- import or export of ozone depleting substances, with import quotas set in line with Montreal Protocol obligations;
- Pre-charged equipment containing ozone depleting substances.

Strict conditions and reporting requirements apply in relation to all licenses issued.

Tariff line code(s) affected, based on HS(2012)	Detailed Product Description
Ex 2903 79 110 0	CHFCl ₂ (HCFC-21) Fluorodichloromethane
Ex 2903 71 000 0	CHF ₂ Cl (HCFC-22) Difluorochloromethane

3. The system applies to goods from all countries-parties of the Montreal Protocol.

4. The licensing system implements Russian Federation's legal obligations under the Montreal Protocol. As well as limits on production and consumption of ozone depleting substances leading to eventual phase-out, the Protocol requires the establishment of a licensing and quota system.

5. The legislation under which licences are maintained includes:

- Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.1 (Decision of the Board of EEC № 134 of 16.08.2012, as last amended on 18.08.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- Federal Law "On Protection of Environment" № 7-FZ of 10.01.2002 (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- RF Resolution "On measures of state regulation of consumption and turnover of ozone depleting substances" № 228 of 24.03.2014 (as last amended on 03.10.2015);
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 of 17.02.2012 (as last amended on 30.07.2015) "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences";
- Order of the Ministry of Natural Resource and Environment of the Russian Federation № 907 of 22.11.2011 (as last amended on 15.07.2013) "On approval of the Administrative Regulations of the Federal Service for Supervision of Natural Resources to provide a public service permitting the transboundary movement of ozone depleting substances and products containing them".

Licensing is a legislative requirement. It is an offence to import, export or manufacture a scheduled substance without a licence. It is not possible to abolish this system without legislative approval.

The legislation does not leave designation of products to administrative discretion. All substances that require licenses are specified in a schedule to the legislation. No other substances require licensing under this legislation.

Procedures

6. The quantity of controlled ozone depleting substances that can be imported into the Russian Federation is limited through the Montreal Protocol.

- I. Information on quotas is published on website of the Ministry of Industry and Trade of the Russian Federation (<http://minpromtorg.gov.ru/>) and on special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>). There are no quotas on amounts to be imported from specific countries, but imports and exports of ozone depleting substances must be from countries that are Parties to the Montreal Protocol and its relevant amendments. The legislation does not provide for any exception or derogation from licensing requirements.
- II. The size of the quotas determined annually. Each licence specifies the amount and type of substance to be imported for the entire duration of the licence.

Quotas are based on the total annual consumption (i.e. production plus imports) limit under the Montreal Protocol.
- III. The size of quota and volume of production based on total annual consumption limit under the Montreal Protocol.

Unused quotas are not added to those of the succeeding period as limits under the Montreal Protocol and domestic legislation are not cumulative. The names of importers are available to the public on the website of the Ministry of Natural Resources and Ecology.
- IV. Licence applications may be made at any time. The Government determined the quota allocations during 2 weeks from the time announcing the opening of quotas.
- V. The maximum processing time for permit is 20 days. The maximum processing time for licence is 15 days.
- VI. The minimum period between the granting of licences and the date of opening of the period of importation is 15 days. Licences can be granted at any time before or during a licence period.
- VII. The authority to grant or refuse licences lies on the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be approved by the Federal Service for Supervision of Natural Resources.
- VIII. There is no limit to the number of licences that can be issued. The quantity of ozone depleting substances that can be imported is limited under the Montreal Protocol. Quota allocation based on relative imports in the previous licence period (3 years).
- IX. There are no bilateral quotas or export restraint arrangements.
- X. Not applicable.
- XI. Not applicable.

7. Not applicable.

8. A licence may be refused if the applicant does not meet ordinary criteria. Where applications are refused, applicants will be given the reasons for such refusal in writing. An applicant may apply to the Ministry of Industry and Trade of the Russian Federation for a review of the decision not to issue a licence.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Federal Service for Supervision of Natural Resources or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are: for permit – 100 000 Rubles, for licence – 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. Licensees are not permitted to trade in ozone depleting substances with non-parties to the Montreal Protocol.

Conditions may also apply to the purpose to which the imported substance is to be applied if its consumption has been approved for a specific purpose through the Montreal Protocol.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

2 PLANT PROTECTION CHEMICALS**Outline of System**

1. Import of unregistered plant protection means samples for the registration and production tests and researches, as well as limited number of unregistered plant protection means for elimination of newly detected quarantine pest hotbeds is carried out without a license by presentation of the conclusion of the Russian Federation executive authority, exercising state registration of plant protection means, about the appropriateness of import with indication of plant protection means names, quantity, preparation form, rate of application, concentration, packaging, factory name and country of origin (the Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries - Decision of the Board of the Eurasian Economic Commission № 134 of 16.08.2012, as last amended on 18.08.2015, Annex 2.2).

Purposes and coverage of licensing

2. Imports of unregistered plant protection means are subject to non-automatic licensing.

Tariff line code(s) affected, based on HS(2012)	Detailed Product Description
Ex 3808	Plant protection chemicals

3. The system applies to goods originating in and coming from all countries.

4. Non-automatic import licensing is for the purpose of administering import restrictions maintained to protect human, animal or plant life or health.

5. The legislation under which licences are maintained includes:

- Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.2 (Decision of the Board of EEC № 134 of 16.08.2012, as last amended on 18.08.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- Federal Law "On Protection of Environment" № 7-FZ of 10.01.2002 (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences".

Procedures

6. Not applicable.

7. Where there is no quantitative limit on importation of a product or on imports from a particular country:

- (a) Application should be made in advance of arrival of the goods. The maximum processing time for permit is 30 days. The maximum processing time for licence is 15 days.
- (b) Applications for permission to import can be processed immediately provided all information is available and the application is considered to be urgent.
- (c) Permits may be issued at any period of the year.
- (d) The authority to grant or refuse licences lies on the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be approved by the Ministry of Agriculture of the Russian Federation.

8. A licence may be refused if the applicant does not meet ordinary criteria. Where applications are refused, applicants will be given the reasons for such refusal in writing. An applicant may apply

to the Ministry of Industry and Trade of the Russian Federation for a review of the decision not to issue a licence.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Ministry of Agriculture of the Russian Federation or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are – 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

3 HAZARDOUS WASTE

Outline of System

1. The Russian Federation manages its obligations for hazardous waste controlled by the Basel Convention for the Control of Trans-boundary Movements of Hazardous Waste and their Disposal (Basel Convention) through the Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, Annex 2.3).

Purposes and coverage of licensing

2. In accordance with the Russian Federation's obligations under the Basel the licensing system applies to hazardous wastes as listed in the schedules of the Basel Convention.

Tariff line code(s) affected, based on HS(2012)	Detailed Product Description
2618 00 000 0	Granulated slag (slag sand) from the manufacture of ferrous metals
2619 00	Slag, dross (other than granulated slag), scalings and other waste from the manufacture of ferrous metals
Ex 2620 30 000 0	Scalings containing copper oxide
2620	Slag, ash and residues (other than from the manufacture of ferrous metals) containing metals, arsenic or their compounds, including:
2620 11 000 0	hard zinc
Ex 2620 21 000 0	lead output, lead dross
Ex 2620 29 000 0	lead sludge, containing 30% of lead or more
Ex 2620 40 000 0	aluminium slag
Ex 2620 99 950 9	salt slag, containing magnesium

3. The system applies to hazardous wastes originating in and coming from all countries that are a party to the Basel Convention.

4. The licensing system ensures that Russian Federation's commitments as a party to the Basel Convention are upheld. To that effect, trans-boundary movements of hazardous wastes and other wastes is to be reduced to the minimum consistent with the environmentally sound and efficient management of such wastes and to be conducted in such a manner which will protect human health and the environment against the adverse effects which may result from such movement. The licensing system is not intended to restrict the quantity or value of imports.

5. Licensing is a statutory requirement for the import of any hazardous waste listed in schedules to the Basel Convention. It is not possible to abolish the system without legislative approval. The legislation under which licences are maintained includes:

- Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries, Annex 2.3 (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, as last amended on 01.09.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences";
- Order of the Ministry of Natural Resource an Environment of the Russian Federation № 179 of 29.06.2012 (as last amended on 16.01.2015) "On approval of the Administrative

Regulations of the Federal Service for Supervision of Natural Resources to provide a public service to issue permits for transboundary movement of wastes".

Procedures

6. Not applicable.

7. Where there is no quantitative limit on importation of a product or on imports from a particular country. The maximum processing time for permit is 30 days. The maximum processing time for licence is 15 days.

- (a) The licensing system requires that a permit be obtained before hazardous waste is exported from the Russian Federation, imported into or transited through the Russian Federation.
- (b) No. Permits are issued only after authorisation by the Ministry of Industry and Trade of the Russian Federation.
- (c) Permits may be issued at any period of the year.
- (d) The authority to grant or refuse licences lies on the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be approved by The Federal Service for Supervision of Natural Resources.

8. A licence may be refused if the applicant does not meet ordinary criteria. Where applications are refused, applicants will be given the reasons for such refusal in writing. An applicant may apply to the Ministry of Industry and Trade of the Russian Federation for a review of the decision not to issue a licence.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Federal Service for Supervision of Natural Resources or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are: for permit – 200 000 Rubles, for licence – 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. In some cases the approval/certification of other agencies is required prior to the issue of a permit. The permit applicant is responsible to obtain all relevant approvals and licenses.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

4 WILD LIVE ANIMALS AND CERTAIN WILD GROWING PLANTS

Outline of System

1. Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, Annex 2.7) regulates international trade of species, live wildlife, and species listed under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES). The Resolution of the Government of the Russian Federation № 337 of 04.05.2008 (as last amended on 28.01.2012) ensures fulfilment of obligations under CITES (except sturgeon fishes).

Purposes and coverage of licensing

2. Resolution № 337 regulates:

- the import of all live animals and plants listed under CITES;
- the import of non-live animal and plant specimens, including parts and derivatives, of species listed under CITES.

The whole list is represented in G/MA/QR/N/RUS/2.

3. The legislation applies to the importation of goods from all countries.

4. The Resolution № 337 seeks to implement the Russian Federation's obligations under CITES, by regulating international trade in wildlife and wildlife products, to contribute to the protection and conservation of species that are endangered, or could become endangered.

5. The controls on the importation of goods specified in this category are statutory requirements under the legislation detailed below:

- Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries, Annex 2.7 (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, as last amended on 01.09.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- Federal Law № 52-FZ of 24.04.1995 "On Wildlife" (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 337 of 04.05.2008 (as amended on 28.01.2012) "On measures to ensure fulfilment of the obligations of the Russian Federation under the Convention on International Trade in Endangered Species of Wild Fauna and Flora, CITES, on 3 March 1973, in respect of species of wild fauna and flora, endangered, except sturgeon";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for

licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";

- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences".

The Federal Service for Supervision of Natural Resources is responsible for administration legislation in this sphere. The legislation does not allow for administrative discretion regarding goods/items subject to import controls. It is not possible for the Government or executive branch to abolish the systems without legislative approval.

Procedures

6. Not applicable.

7.(a) Application should be made well in advance of arrival of the goods to allow time for the application to be assessed against the legislation and the relevant import policy. For commodities that require an import permit, permits cannot be issued retrospectively. However, not all goods require an import permit and clearance to import can be given at the point of entry provided the import conditions have been met. However, CITES permits will not be issued retrospectively.

(b) In the case of most importations in this category it will not be possible for permission to be issued immediately on request.

(c) Permits may be issued at any period of the year.

(d) Applications for permission to import most animals, animal products, plants and plant products involve an approach to a single agency – The Federal Service for Supervision of Natural Resources

8. An application to The Federal Service for Supervision of Natural Resources for an import permit may only be refused under the ordinary criteria for such applications. Reasons for refusal will be advised in writing.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the website of The Federal Service for Supervision of Natural Resources (<http://www.rpn.gov.ru>).

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are – 3 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. In some cases the approval/certification of other agencies is required prior to the issue of a permit. The permit applicant is responsible to obtain all relevant approvals and licenses.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

5 TOXIC SUBSTANCES EXCEPT FOR PRECURSORS OF THE NARCOTIC DRUGS AND SUBSTANCES WITH PSYCHOTROPIC EFFECTS

Outline of System

1. Licences are issued to control the import of toxic substances except for precursors of the drugs and substances with psychotropic effects (Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 134 of 16.08.2012, as last amended on 18.08.2015, Annex 2.13).

Purposes and coverage of licensing

2. The licensing system permits to control the turnover of toxic substances of different origins for protection of human, animal or plant life or health.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

6 NARCOTIC DRUGS, SUBSTANCES WITH PSYCHOTROPIC EFFECTS AND THEIR PRECURSORS

Outline of System

1. Licences are issued to control the import of specified narcotic drugs, substances with psychotropic effects and their precursors (Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, Annex 2.12).

Purposes and coverage of licensing

2. This system fulfils part of the Russian Federation's obligation under the Single Convention on Narcotic Drugs, 1961, the Convention on Psychotropic Substances, 1971, and Table I and Table II of the Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, 1988.

3. The system applies to importers of controlled substances from all countries.

4. The use of import licences enables the Government to restrict and monitor the quantities of controlled substances imported. This is intended to prevent the over-supply and diversion of controlled substances and is one strategy adopted to address drug misuse. The system is based on the requirements of the international treaties. The system is not intended to restrict the quantity or volume of imports.

5. The controls on the importation of goods specified in this category are statutory requirements under the legislation detailed below:

- Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries, Annex 2.12 (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, as last amended on 01.09.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- Federal Law № 3-FZ of 08.01.1998 (as last amended on 03.02.2015) "On Narcotic Drugs and Psychotropic substances";
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 681 of 30.06.1998 (as last amended on 12.10.2015) "On list of narcotic drugs, substances with psychotropic effects and their precursors";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences";
- Order of the Federal Drug Control Service of the Russian Federation № 470 of 02.11.2011 (as last amended on 01.07.2013) "On approving the administrative regulation of the Federal Service of the Russian Federation under the control of drug trafficking for public service permitting the Federal Drug Control Service to provide a public service issuing permission for export and import of drugs, psychotropic substances or their precursors".

This system cannot be abolished without legislative approval.

Procedures

6. Temporary quantitative restrictions may be used, but do not act now.
- 7.(a) There is no minimum advance notice required for a licence. Goods arriving at the port without a licence cannot be imported and retrospective permits cannot be issued. The maximum processing time for permit is 20 days. The maximum processing time for licence is 15 days.
- (b) No.
- (c) No.
- (d) Import licences are issued by the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be approved by the Federal Drug Control Service of the Russian Federation or by the Federal Service on Surveillance in Healthcare.
8. An application to the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation for an import licence may only be refused under the ordinary criteria for such applications. Reasons for refusal will be advised in writing.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Federal Drug Control Service of the Russian Federation or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are – 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.
15. There is no penalty for the non-utilisation of a licence or a portion of a licence.
16. Licences are not transferable between importers.
17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

7 MEDICINES AND PHARMACEUTICAL PRODUCTS

Outline of System

1. Licences are issued to control the import of specified medicines and pharmaceutical products (Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 134 of 16.08.2012, as last amended on 18.08.2015, Annex 2.14).

Purposes and coverage of licensing

2. The licensing system permits to control the turnover of specified medicines and pharmaceutical products for protection of human, animal or plant life or health.

Ex 2936	Pro-vitamins and vitamins, natural or reproduced by synthesis (including natural concentrates), derivatives thereof used primarily as vitamins, and intermixtures of the foregoing, including those in any solvent, used for medical purposes

Tariff line code(s) affected, based on HS(2012)	Detailed Product Description
Ex 3913	Natural polymers (for example, alginic acid) and modified natural polymers (for example, hardened proteins, chemical derivatives of natural rubber), in primary forms, not elsewhere specified or included, used for medical purposes

3. The system applies to importers of controlled substances from all countries.

4. The use of import licences enables the Government to restrict and monitor the quantities of controlled substances imported. The system is not intended to restrict the quantity or volume of imports.

Conclusion of the authorized body is not required at the placement under the following customs procedures: production for domestic consumption, processing for domestic consumption, reimport or abandonment to the State of unregistered medicines for clinical researches, medicines examinations, state registration of medicines, delivery of health care according to vital indicators of individual patient or delivery of health care to a limited contingent of patients with rare and (or) a particularly severe pathology, and of registered medicines intended for clinical researches, as well as registered or unregistered medicines intended for humanitarian aid (assistance), aid in emergency situations.

5. The controls on the importation of goods specified in this category are statutory requirements under the legislation detailed below:

- Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.14 (Decision of the Board of EEC № 134 of 16.08.2012, as last amended on 18.08.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences";
- Order of the Ministry of Health of the Russian Federation № 58n of 02.08.2012 (as last amended on 07.10.2013) "On approval of the administrative regulation of the Ministry of Health of the Russian Federation to provide public services for issuing permits for the importation into the territory of the Russian Federation for the particular batch and (or) unregistered medicinal products intended for clinical trials of drugs , specific consignment of unregistered medicinal products intended for the examination medicines for the implementation of state registration of medicines , specific consignment of unregistered medicines for medical care for health of the particular patient".

This system cannot be abolished without legislative approval.

Procedures

6. Not applicable.

7.(a) There is no minimum advance notice required for a licence. Goods arriving at the custom without a licence cannot be imported and retrospective permits cannot be issued. The maximum processing time for permit is 5 days. The maximum processing time for licence is 15 days.

(b) No.

(c) No.

(d) Import licences are issued by the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be approved the Federal Service on Surveillance in Healthcare.

8. An application to the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation for an import licence may only be refused under the ordinary criteria for such applications. Reasons for refusal will be advised in writing.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Federal Service on Surveillance in Healthcare of the Russian Federation or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

8 HUMAN ORGANS AND TISSUES, BLOOD AND ITS COMPONENTS

Outline of System

1. Licences are issued to control the import of human organs and tissues, blood and its components (Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, Annex 2.21).

Purposes and coverage of licensing

2. The licensing system permits to control the turnover of human organs and tissues, blood and its components for protection of human life or health.

3. The system applies to importers of controlled means from all countries.

4. The use of import licences enables the Government to restrict and monitor the quantities of controlled means imported. The system is not intended to restrict the quantity or volume of imports.

5. The controls on the importation of goods specified in this category are statutory requirements under the legislation detailed below:

- Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.17 (Decision of the Board of EEC № 134 of 16.08.2012, as last amended on 18.08.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);

- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- RF Government Resolution № 1567-p of 23.09.2010 (as amended on 18.03.2014) "On approving the list of federal executive bodies authorized for approval of applications for licenses to export and (or) import of goods and execution of other permits in foreign trade in the cases provided for applications on the application of restrictions on goods subject to bans or restrictions on the importation or exportation of Member States of the Customs Union within the EurAsEC in trade with third countries";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 (as last amended on 30.07.2015) of 17.02.2012 "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences";
Order of the Federal Security Service of the Russian Federation № 549 of 01.11.2012 "On approval of the Administrative Regulations of the Federal Security Service of the Russian Federation for the provision of public services to make decisions about the possibility of entry into the customs territory of the Customs Union and the exportation from the customs territory of the Customs Union of special devices intended for unauthorised obtaining of information".

This system cannot be abolished without legislative approval.

Procedures

6. Not applicable.

7.(a) There is no minimum advance notice required for a licence. Goods arriving at the custom without a licence cannot be imported and retrospective permits cannot be issued. The maximum processing time for permit is 10 days. The maximum processing time for licence is 15 days.

(b) No.

(c) No.

(d) Import licences are issued by the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be agreed with the Federal Security Service of the Russian Federation (FSB).

8. An application to the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation for an import licence may only be refused under the ordinary criteria for such applications. Reasons for refusal will be advised in writing.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from FSB or data on existence of the license for implementation of the licensed type of activity;

- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

11 ENCRYPTION DEVICES

Outline of System

1. Licences are issued to regulate the import of encryption devices (Common List of Goods that are subject of import/export prohibitions or restrictions in trade with third countries (Decision of the Board of the Eurasian Economic Commission № 30 "About measures of non-tariff regulation" of 21.04.2015, Annex 2.19).

Purposes and coverage of licensing

2. The licensing system permits to regulate the turnover of encryption devices including built-in or forming part of other goods.

(c) No.

- (d) Import licences are issued by the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation. The application must be agreed with the Ministry of Internal Affairs of the Russian Federation.

8. An application to the Department of the State Regulation of the Foreign Trade of the Ministry of Industry and Trade of the Russian Federation for an import licence may only be refused under the ordinary criteria for such applications. Reasons for refusal will be advised in writing.

Eligibility of importers to apply for licence

9. All persons, firms and institutions are eligible to apply for licences.

Documentation and other requirements for application for licence

10. Application forms are available on the special website "Support for foreign trade participants" (<http://www.non-tariff.gov.ru>).

An importer is required to submit the following documents with the application:

- Digital copy of application form;
- Copy of a contract;
- Copy of document on registration on tax authority or the copy of the document on state registration;
- Permit from the Ministry of Internal Affairs of the Russian Federation or data on existence of the license for implementation of the licensed type of activity;
- The applicant has the right to submit the documents specified in last two subparagraphs on his own initiative.

11. Upon importation, an importer must present standard customs documentation along with a valid licence.

12. Licence application fees are charged. Fees are 7 500 Rubles.

13. There is no deposit or advance payment requirement associated with the issue of licences.

Conditions of licensing

14. Licences are valid for the licence period and cannot be extended.

15. There is no penalty for the non-utilisation of a licence or a portion of a licence.

16. Licences are not transferable between importers.

17. There are no conditions attached to the issuance of a licence.

Other procedural requirements

18. There are no other administrative procedures, apart from import licensing required prior to importation.

19. Foreign exchange is automatically provided by the banking authorities for goods to be imported.

13 COMBINE HARVESTERS

Outline of System

1. The system of the import licensing applies to combine harvesters as a result of application of a safeguard measure. The quota set by the Decision of Board of the Eurasian Economic Commission № 143 of 25.06.2013 "On the application of a safeguard measure by introducing import quotas for combine harvesters and modules of combine harvesters" (at last amended 30.06.2015). The measure is valid until 21.08.2016. With the introduction of measure necessary changes were made

in Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.29 (Decision of the Board of EEC № 134 of 16.08.2012). Methodology of Allocation of the volume of import quota among participants in foreign trade approved by the Decision of the Board of the Eurasian Economic Commission № 12 of 05.02.2014.

Purposes and coverage of licensing

2. The licensing system permits to regulate the import of pipes of combine harvesters.

Tariff line code(s) affected, based on HS(2012)	Detailed Product Description
8433 51 000 1	Combine harvesters and modules of combine harvesters, consisting at least of threshing and separating device equipped or not equipped with the threshing drum, cleaning systems and engine mounted on a support base or frame chassis, providing installation of bridges, wheels or tracks
8433 51 000 9	
8433 90 000 0	

3. The system applies to importers of controlled goods from all countries.

4. The use of import licences enables the Government to restrict and monitor the quantities of controlled goods imported.

5. The controls on the importation of goods specified in this category are statutory requirements under the legislation detailed below:

- Common List of Goods that are subject of import/export prohibitions or restrictions from the part of CU members within the framework of Eurasian Economic Community in trade with third countries (2012), Annex 2.29 (Decision of the Board of EEC № 134 of 16.08.2012, as last amended on 18.08.2015);
- Regulations "On the order of suspension or termination of the licence" (CU Commission Decision № 488 of 08.12.2010);
- Decision of Board of the Eurasian Economic Commission № 143 of 25.06.2013 "On the application of a safeguard measure by introducing import quotas for combine harvesters and modules of combine harvesters" (at last amended 30.06.2015);
- Federal Law № 164-FZ of 08.12.2003 "On the Fundamentals of the State Regulation of Foreign Trade Activity" (as last amended on 13.07.2015);
- RF Government Resolution № 364 of 09.06.2005 (as amended on 05.08.2014) "On approval of the licensing in foreign trade and on the formation and maintenance of the Federal Bank of licences";
- Order of the Ministry of Industry and Trade of the Russian Federation № 135 of 17.02.2012 (as amended on 30.07.2015) "On approval of the Administrative Regulations of the Ministry of Industry and Trade of the Russian Federation to provide a public service by issuing licenses and other permits for export and (or) import of certain types of goods, as well as the formation and maintenance of the federal bank of licences".

This system cannot be abolished without legislative approval.
