

**Committee on Market Access**

**STATUS OF HS TRANSPOSITIONS**

REPORT BY THE SECRETARIAT<sup>1</sup>

*Revision*

This report by the Secretariat seeks to provide an overview of the overall state of play of the different exercises to transpose the WTO Schedules of concessions to take account of amendments of the Harmonized System (hereafter referred to as "HS Transpositions"). It complements the existing reports on different aspects of the changes to the Schedules of concessions.<sup>2</sup>

**1. BACKGROUND**

Each WTO Member has a Schedule of concessions<sup>3</sup>, sometimes referred to as a "Goods Schedule", which is either annexed to the Marrakesh Protocol to the GATT 1994 or to a Protocol of Accession. Following the entry into force of the Harmonized System (HS) on 1 January 1988 (HS88), the pre-WTO schedules of those GATT Contracting Parties that were also contracting parties to the HS Convention were required to be transposed into the HS nomenclature.<sup>4</sup> The GATT Committee on Tariff Concessions developed procedures to this end.<sup>5</sup>

Since then, the World Customs Organization (WCO) has adopted partial amendments to the Harmonized System Convention which came into force on 1 January 1992 (HS92), 1 January 1996 (HS96), 1 January 2002 (HS2002), 1 January 2007 (HS2007), 1 January 2012 (HS2012), and 1 January 2017 (HS2017). It is envisaged that a new amendment will enter into force on 1 January 2022 (HS2022).

With a view to keeping the authentic texts of the Schedules of concessions up to date and in conformity with the national customs tariff, GATT contracting parties and WTO Members have adopted a series of Decisions to transpose the Schedules of concessions in order to reflect the amendments to the HS. These transposition procedures require Members to update the nomenclature used to express their concessions, including the bound duties, in their Schedules of concessions, thereby allowing a comparison with their MFN applied duties.

**2. PROCEDURES AND REPORTS BY THE SECRETARIAT**

Since the WTO agreement entered into force, Members followed one pre-WTO procedure to transpose their Schedules of concessions into HS96 and have adopted eight Decisions relating to HS Transpositions. The following is a list of the different procedures and reports by the Secretariat describing the status of the different transposition procedures:

---

<sup>1</sup> This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights and obligations under the WTO.

<sup>2</sup> For example, the "Situation of Schedules of WTO Members" that periodically circulate under the G/MA/W/23/Rev document series and the "Factual Report on the Status of Renegotiations under Article XXVIII of the GATT 1994" that periodically circulate under the G/MA/123/Rev document series.

<sup>3</sup> See Article XI of the WTO Agreement.

<sup>4</sup> Article 3 of the HS Convention obliges HS contracting parties to ensure that their customs tariff and statistical nomenclatures are in conformity with the Harmonized System. It is to be noted that those GATT Contracting Parties that were not contracting parties to the HS, but nevertheless applied the HS in their national customs tariff, also undertook this exercise in order to keep the authentic texts of their schedules up to date and in conformity with their national customs tariff.

### 3. STAGES OF THE ONGOING TRANSPOSITIONS PROCEDURES

While the different HS Transpositions since 2005 are contained in a wide range of Decisions as listed above, they are all based on similar steps that can be summarized as follows:

Step	Description
<b>Step 1: Preparation of the draft HS transposition file</b>	Since 2005, the Committee on Market Access decided <sup>6</sup> that the Secretariat would undertake the HS2002 transposition of the schedules of developing country Members, except for those who decided to prepare their own transposition. Developed country Members were required to undertake their own transposition. The same approach was taken in the HS 2007 and HS 2012 transpositions. For HS 2017, there is no more distinction between developed and developing countries. Thus, the Secretariat shall transpose the schedules of all Members, except for those who decide to prepare their own transposition. Members that decide to undertake their own transposition shall submit all the required information to the Secretariat in electronic form. <sup>7</sup>
<b>Step 2: Review by the Secretariat</b>	For Members that prepared their own transposition file, the Secretariat is required to review it.
<b>Step 3: The Secretariat consults with the Member concerned</b>	If the Secretariat prepared the transposition file, it is sent to the Member concerned for review and approval. If the Member prepared its own transposition file, the Secretariat provides comments to the Member, if any.
<b>Step 4: Release for review by other Members</b>	Once the technical issues have been cleared between the Member concerned and the Secretariat, or in the absence of a response from the Members for whom the Secretariat prepared the file, the transposition file is released for multilateral review by the other Members. These files are posted on the Tariff Analysis Online (TAO) Facility <sup>8</sup> and an official notice is given to Members in a document of the corresponding G/SECRET/HSXX document series. The files must be available for review for at least six weeks before they can be considered in the HS multilateral review.
<b>Step 5: HS multilateral review</b>	The transposition files are reviewed at an informal meeting of the Committee on Market Access referred to as "HS Multilateral Reviews". The transposition files are considered approved once there are no comments pending on the file. Sometimes, the files are approved on an <i>ad referendum</i> basis, with additional time for comments. In case there are comments, the concerned Members meet bilaterally and inform the Committee of their progress. In case changes to the transposition file are required, a revised transposition file is prepared by the Secretariat and it is released again for review by the other Members (Step 4).
<b>Step 6: 1980 Procedures.</b>	Once a transposition file has been approved at an HS multilateral review and there are no comments pending, the file is circulated by the Secretariat under the 1980 Procedures for Modification and Rectification of Schedules <sup>9</sup> in the G/MA/TAR/RS document series. Under the 1980 Procedures, Members are given a three-month period for review and objections.
<b>Step 7: Certification</b>	Once the three-month period has lapsed, and in the absence of objections, the Director General certifies the change of the transposition, which are circulated in the WT/Let/ document series.

<sup>6</sup> Document WT/L/605 of 2 March 2005.

<sup>7</sup> Document WT/L/673 of 18 December 2006 for HS 2007, document WT/L/831 of 5 December 2011 for the HS2012 transposition and document WT/L/995 of 7 December 2016 for the HS2017 transposition.

<sup>8</sup> HS transposition files are accessible through Tariff Analysis Online (TAO) Facility: <https://tao.wto.org>. Select Download Data, then Database Export, then CTS Transposition, select a Reporting country and add to export list, then Export in MS Access or Excel format.

#### 4. OVERALL STATUS OF THE HS TRANSPOSITIONS

As of 6 April 2021, the overall situation of each HS transposition procedure can be summarized as follows (each Schedule of concessions is counted once):

Step	HS96	HS2002	HS2007	HS2012	HS2017
<b>1. Preparation of the draft HS transposition file</b>	1 by the Member concerned (under L/6905)	None pending by the Secretariat	3 by the Members concerned  3 pending by the Secretariat (1 is awaiting conclusion of HS2002)	4 by the Members concerned  16 pending by the Secretariat (all awaiting conclusion of HS2007 and/or HS2002)	11 by the Members concerned  67 pending by the Secretariat
<b>2. Review by the Secretariat</b>	-	-	1	2	1
<b>3. The Secretariat is consulting with the Member concerned</b>	-	1	7	7	1
<b>4. Files released for review by other Members, but not yet examined</b>	-	-	-	2	-
<b>5. Pending in an HS multilateral review due to reservations or approved <i>ad referendum</i></b>	-	-	1	2	-
<b>6. Following the 1980 Procedures, but not yet certified</b>	-	1	-	1	-
<b>7. Certified transpositions</b>	104	115	109	98	54
<i>Note: Members with a Schedule of concessions annexed to a Protocol of Accession or that submitted a full Schedule under the 1980 Procedures in a newer version of the HS nomenclature (i.e. no transposition is required).</i>	31	19	12	4	2 <sup>10</sup>

Note: The total number of Schedules of concessions varies over the years due to accessions to the WTO and enlargements of the European Union, so the numbers across the columns are not necessarily comparable. The table does not take account of Schedules of concessions that have been withdrawn.

The Annex provides a detailed overview of the status of the HS transpositions for each Member.

<sup>10</sup> On 17 October 2017, the European Union circulated a draft EU-28 Schedule, which takes into account the HS2007, HS2012, and HS2017 transpositions. See documents G/MA/TAR/RS/506 and G/MA/TAR/RS/506/Add.1. Reservations were introduced. The United Kingdom withdrew from the European Union as of 1 February 2020. The United Kingdom submitted a full Schedule in HS2017; see documents G/MA/TAR/RS/570 and G/MA/TAR/RS/570/Add.1. Reservations were introduced.
