**G. Comments of a general nature, including a description of the elimination of restrictions notified under D.2.2 and the date they ceased to be in force.**

This notification communicates the introduction of quantitative restrictions by Australia, to apply to the import and export of certain goods between Australia and the Russian Federation. These prohibitions are implemented under Australia's Autonomous Sanctions Act 2011 and Autonomous Sanctions Regulations 2011 and are a response to Russia's illegal invasion of Ukraine. They are necessary for the protection of Australia's essential security interests. Russia's actions are a gross violation of international law, including the Charter of the United Nations. They violate Ukraine's sovereignty and territorial integrity and undermine the rules-based international order. Australia is committed to upholding these principles, which are essential to international, regional and domestic stability and security.
