

**Committee on Subsidies and  
Countervailing Measures**

**SUBSIDIES**

Annex VII(b) of the Agreement on Subsidies and Countervailing Measures

Updating GNP per capita for Members listed in Annex VII(b) as foreseen in  
Paragraph 10.1 of the Doha Ministerial Decision and in accordance  
with the methodology in G/SCM/38

*Note by the Secretariat*

Addendum

1. In paragraph 10.1 of the Doha Ministerial Decision on Implementation-Related Issues and Concerns (document WT/MIN(01)/17, para. 10.1) Ministers:

"Agree[d] that Annex VII(b) to the Agreement on Subsidies and Countervailing Measures includes the Members that are listed therein until their GNP per capita reaches US\$1,000 in constant 1990 dollars for three consecutive years. This decision will enter into effect upon the adoption by the Committee on Subsidies and Countervailing Measures of an appropriate methodology for calculating constant 1990 dollars. If, however, the Committee on Subsidies and Countervailing Measures does not reach a consensus agreement on an appropriate methodology by 1 January 2003, the methodology proposed by the Chairman of the Committee set forth in G/SCM/38, Appendix 2 shall be applied. A Member shall not leave Annex VII(b) so long as its GNP per capita in current dollars has not reached US\$1,000 based upon the most recent data from the World Bank."

2. Pursuant to this paragraph, as of 1 January 2003, the methodology set forth in document G/SCM/38, Appendix 2 applies.

3. As foreseen in paragraph 10.1 of the Doha Ministerial Decision on Implementation-Related *Issues and Concerns* and in application of the methodology in G/SCM/38, the Secretariat informs the Committee of updated calculations reflecting: (i) GNI<sup>1</sup> per capita in constant 1990 dollars covering the three most recent years for which data are available (2008-2010)<sup>2</sup>; and (ii) GNI per capita in current dollars for the year 2010.

---

<sup>1</sup> The World Bank data series formerly identified as Gross National Product ("GNP") is now published as Gross National Income ("GNI"). This change reflects the implementation of the System of National Accounts 1993 ("SNA 93"). Although the underlying concepts are different (GNP being a measure of product, and GNI being a measure of income), the values calculated are the same.

<sup>2</sup> Figures for 1990-1999 are as already contained in G/SCM/38. As agreed in G/SCM/38, step 3, values of GNI per capita at constant 1990 dollars for the period 1990 - 1999 are not modified with subsequent revisions of the series. To derive GNI per capita at constant 1990 dollars for 2000, the growth rates for 2000 over 1999

(i) **Annex VII(b) Members, GNI per capita at constant 1990 dollars, 2008-2010**

	<b>2008*</b>	<b>2009*</b>	<b>2010</b>
Bolivia, Plurinational State of	860	868	892
