## 1 INTRODUCTION

1. Pursuant to a request of the Chairman of the Trade Policy Review Body, to discuss "ways to improve the timeliness and completeness of notifications and other information flows on trade measures" in the context of the Agreement on Subsidies and Countervailing Measures ("the SCM Agreement"), the Committee on Subsidies and Countervailing Measures ("the Committee") discussed this matter in several informal and regular meetings held since 2009. Document [G/SCM/W/546](#) dated 28 April 2009 which contained information on the notification obligations under the SCM Agreement and the level of compliance with each of these obligations, was circulated as a background Note for the Committee's discussions in this regard. In the course of the meetings held since 2009, Members indicated that updating this document on a regular basis would be useful for the Committee's future work on improving transparency in notifications. This sixteenth revision reflects developments since October 2023.

## 2 NOTIFICATION PROVISIONS IN THE SCM AGREEMENT

2. The notification requirements of the SCM Agreement<sup>1</sup> can be divided into regular notification requirements, which apply in principle to all Members, and special notification requirements, which apply to Members invoking particular provisions.

3. With respect to regular notification requirements, Part VII of the SCM Agreement ("Notification and Surveillance") contains requirements regarding the notification of subsidies (Article 25.1), countervailing measures (Article 25.11) and competent authorities that conduct countervailing duty investigations (Article 25.12). In addition, Article 32.6 in Part XI of the SCM Agreement ("Final Provisions") requires notification of laws and regulations relevant to the SCM Agreement.

4. The SCM Agreement contains special notification requirements regarding certain aspects of the provisions of Article 27 on Special and Differential Treatment of Developing Country Members. Special notification requirements also applied under provisions, which are no longer applicable, on non-actionable subsidy programmes (Article 8) and on transitional arrangements regarding existing programmes (Article 28) and transformation into a market economy (Article 29).

### 2.1 Regular Notifications

#### 2.1.1 Notification of Subsidies under Article 25

##### 2.1.1.1 Articles 25.1-7

5. Article 25.1 of the SCM Agreement provides that, without prejudice to the provisions of Article XVI:1 of the GATT 1994<sup>2</sup>, Members shall make their subsidy notifications not later than 30 June of each year.<sup>3</sup> Article 25.2 of the Agreement provides that "Members shall notify any subsidy as defined in paragraph 1 of Article 1, which is specific within the meaning of Article 2, granted or maintained within their territories".<sup>4</sup>

6. Article 25.3 of the SCM Agreement contains certain requirements regarding the content of subsidy notifications. Thus, "the content of notifications should be sufficiently specific to enable other Members to evaluate the trade effects and to understand the operation of notified subsidy programmes", and Members are obligated to ensure that their subsidy notifications contain information on the form, amount, policy objectives and/or purpose and duration of the subsidy and statistical data permitting an assessment of the trade effects of the subsidy.

---

<sup>1</sup> The relevant provisions of the SCM Agreement are reproduced in [Annex A](#).

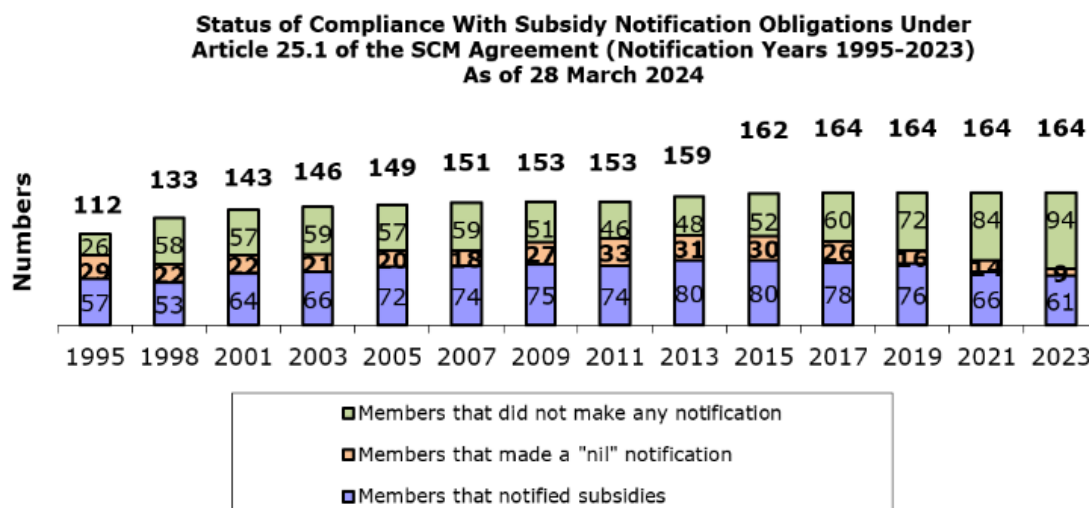

<sup>2</sup> Article XVI:1 of the GATT 1994 requires the notification of subsidies, including any form of price or income support, which have an impact on the exports or imports of the product benefiting from the subsidy.

<sup>3</sup> As explained below, based on a decision adopted by the Committee in May 2001, Members submit subsidy notifications under Article 25.1 of the SCM Agreement every second year. *Infra*, para. 12.

<sup>4</sup> Article 25.6 provides that a Member must also provide a nil notification if it considers that there are no measures in its territory that require notification. Article 25.7 recognizes that notification of a measure under Article 25 is without prejudice to its legal status under the GATT 1994 and the SCM Agreement.

7. In July 1995, the Committee adopted a questionnaire format for subsidy notifications under Article 25 of the SCM Agreement and under Article XVI of the GATT 1994 ([G/SCM/6](#)).<sup>5</sup> This format replaced an existing format for notifications under Article XVI:1 of the GATT 1947 that had been adopted by the GATT Contracting Parties.<sup>6</sup> In November 2003, the Committee adopted a revised version of this questionnaire format for subsidy notifications ([G/SCM/6/Rev.1](#)).<sup>7</sup> The adoption of the original format for subsidy notifications in 1995 and the adoption of the revised format for subsidy notifications in 2003 were based on discussions in the Working Party on Subsidy Notifications, which the Committee had established in February 1995 pursuant to footnote 54 to Article 25.3 of the SCM Agreement.<sup>8</sup>

8. The status of subsidy notifications under Article 25.1 by WTO Members since 1995, as well as the periods covered by the last subsidy notification received from each Member, are shown in the tables in [Annex B](#).<sup>9</sup> The chart below illustrates the trends in the status of compliance with the obligations to notify subsidies during the period 1995-2023.<sup>10</sup> It shows that the number of Members that have made subsidy notifications to date (either by notifying subsidies or by submitting a nil notification) has remained essentially stable over this period except the last two notification cycles. The number of Members that have failed to make a notification, however, rose sharply, as WTO membership has increased.

9. Indeed, given the significant increase in the number of WTO Members since 1995<sup>11</sup>, looking at the number of Members that notified and those that did not as a percentage of the total number

<sup>5</sup> [G/SCM/M/3](#), para. 5.

<sup>7</sup> [G/SCM/M/48](#), para. 212.

<sup>8</sup> [G/SCM/M/1](#), para. 84.

<sup>9</sup> The state of compliance with the subsidy notification provisions of Article 25 has repeatedly been the subject of discussion in the Committee. See, e.g. [G/SCM/M/125](#), paras. 87-119; [G/SCM/M/123](#), paras. 77-110; [G/SCM/M/121](#), paras. 94-107.

<sup>10</sup> The data in the chart are structured on the basis of the fourteen new and full subsidy notifications that Members have been required to make to date. Members were required to submit their 2023 new and full notifications by 30 June 2023. The data reflect the total figures for each such notification "cycle", based on notifications received to date. It should be noted that certain notifications were made after the year in which they were due. The timing for a newly-acceded Member's obligation to submit its first subsidy notification is determined in its protocol of accession.

<sup>11</sup> The number of WTO Members was 112 as at the end of 1995 and is now 164. The EU and each of its member States are counted individually in the figures in the chart and table. Thus, for example, for 2023, the EU and its 27 member States are counted as 28 WTO Members. Please note that the United Kingdom is considered

of WTO Members in the year in which the notifications were due may be more informative than the absolute numbers shown in the chart above. The table below is presented for that purpose which presents the trend of subsidy notifications between 1995 and 2023. A significant decline is observed in the percentage of Members notifying subsidies, decreasing from 51% in 1995 to 37% by 2023. Simultaneously, the percentage of Members making a "nil" notification has also reduced, moving from 26% in 1995 to 5% in 2023. When combining the data for those that notified subsidies and those that made a "nil" notification, the overall rate of notifications has seen a notable decline. In 1995, 77% of Members provided some form of notification, and this decreased to 42% by 2023. On the other hand, the percentage of Members that did not submit any form of notification has increased remarkably. Starting at 23% in 1995, this figure has reached to 58% in 2023.

### 2.1.1.2 Articles 25.8-10

10. Article 25.8 of the SCM Agreement stipulates that any Member may make a written request for information on the nature and extent of a subsidy granted or maintained by another Member, or for explanation why a specific measure is not considered as subject to the requirement of notification. A list of requests made under this provision is presented in the table in [Annex C](#).

11. Article 25.10 provides that where a Member fails to notify a subsidy the notification of which is required under the SCM Agreement, any other Member may bring this matter to the attention of the Member failing to notify. If the subsidy is still not notified, such Member may bring the matter to the notice of the Committee. The table in [Annex D](#) presents a list of notifications made under this provision.<sup>12</sup>

### 2.1.1.3 Article 26.1

12. Article 26.1 stipulates that the Committee shall examine new and full notifications of Members in special sessions to be held every third year and that updating notifications made in the intervening years are to be examined at each regular meeting of the Committee. In May 2001, the Committee decided that new and full subsidy notifications would be made every two years and that the annual updating notifications would be de-emphasised.<sup>13</sup> The Committee extended this decision in 2003 and 2005.<sup>14</sup>

13. The Committee has adopted procedures for the review of new and full subsidy notifications, which provide that such review shall take place at special meetings and be based on written questions and replies ([G/SCM/117](#)).<sup>15</sup>

as one of the EU member States with respect to the new and full subsidy notifications prior to the 2021 notifications.

<sup>12</sup> The tables in Annexes C and D only list documents that contain explicit references to Articles 25.8 or 25.10. These tables thus do not include the vast majority of the documents circulated in the [G/SCM/Q2/...](#) series, which contain questions and answers on subsidy notifications or on non-notified subsidies without expressly referring to Articles 25.8 or 25.10.

<sup>13</sup> [G/SCM/M/30](#), para. 6.

<sup>14</sup> [G/SCM/M/46](#), para. 43; [G/SCM/M/53](#), paras. 31-34.

<sup>15</sup> These procedures were originally adopted in connection with the review of the 2005 new and full subsidy notifications. In April 2007, the Committee decided to apply the same procedures to the review of the 2007 new and full notifications ([G/SCM/M/60](#), para. 45). In May 2009, it decided to apply them to the review of the 2009 new and full subsidy notifications ([G/SCM/M/68](#), para. 36). In May 2011, the Committee decided to conduct the

### 2.1.2 Notification of Countervailing Measures

14. Article 25.11 of the SCM Agreement requires Members to notify, without delay, all preliminary or final actions taken with respect to countervailing duties. It also stipulates that Members shall submit, on a semi-annual basis, reports on any countervailing duty actions taken within the preceding six months. In June 1995, the Committee agreed on a standard format for semi-annual reports<sup>16</sup> and on the minimum information to be provided in reports under Article 25.11 on all preliminary or final countervailing actions.<sup>17</sup> At its regular meeting on 20 October 2009, the Committee adopted revised versions of these two notification formats.<sup>18</sup> The table in [Annex E](#) shows the state of the notifications of semi-annual reports of countervailing measures since 1995.

15. There is a significant number of Members that do not have a competent authority to conduct countervailing duty investigations and which therefore have not imposed any countervailing measures and are unlikely to do so in the foreseeable future. In order to relieve these Members from the obligation to submit semi-annual reports of countervailing actions, the Committee, at its regular meeting on 20 October 2009<sup>19</sup>, adopted a one-time notification format.<sup>20</sup> A Member submitting this type of notification will not be expected to submit semi-annual reports of countervailing actions until such time as it sets up a competent authority and starts conducting investigations. One-time notifications are circulated in the [G/SCM/N/202/...](#) series. A list of these notifications received so far is presented in [Annex F](#).

### 2.1.3 Notification of Competent Authorities

16. Article 25.12 of the SCM Agreement stipulates that Members shall notify to the Committee which of their authorities are competent to conduct countervailing duty investigations in their territories and the domestic procedures that govern the initiation and conduct of such investigations. A list of Members which have submitted notifications under Article 25.12 is contained in [Annex G](#).

### 2.1.4 Notification of Countervailing Duty Legislation

17. Article 32.6 of the SCM Agreement provides that Members shall notify to the Committee the changes in their laws and regulations relevant to the Agreement and in the administration of such laws and regulations. A list of Members which have submitted notifications under Article 32.6 is contained in [Annex H](#).

## 2.2 Special Notifications

### 2.2.1 Notification of Non-Actionable Subsidies under Article 8.3

18. Article 8.3 of the SCM Agreement required the notification of non-actionable subsidies. Article 8 is no longer applicable. No notification was received under Article 8.3 during the period in which Article 8 was in force.

review of the 2011 new and full subsidy notifications also under the same procedures ([G/SCM/M/76](#), para. 67). In April 2013, the Committee decided to conduct the review of the 2013 new and full subsidy notifications also under the same procedures ([G/SCM/M/85](#), para. 51). In April 2015, the Committee again decided to conduct the review of notifications under these procedures ([G/SCM/M/93](#), para. 42). In April 2017, the Committee decided to conduct the review of the 2017 new and full subsidy notifications also under the same procedures ([G/SCM/M/101](#), paras. 53-54). In April 2019, the Committee again decided to conduct the review of notifications under these procedures ([G/SCM/M/109](#), para. 49). In April 2021, the Committee decided to conduct the review of notifications under these procedures ([G/SCM/M/115](#), paras. 101-102). In May 2023, the Committee again decided to conduct the review of notifications under these procedures ([G/SCM/M/123](#), paras. 67-68).

## **2.2.2 Notifications Related to the Provisions of Article 27 Regarding Special and Differential Treatment of Developing Country Members**

### **2.2.2.1 Notifications Under Procedures Adopted for Extensions under Article 27 of the SCM Agreement**

19. Article 27 of the Agreement contains a series of special and differential treatment provisions for developing Members. Among these provisions is Article 27.2(b), which established an eight-year period from the date of entry into force of the WTO Agreement for the phase out of export subsidies by those developing Members not covered by Annex VII of the Agreement. Article 27.4 establishes a mechanism pursuant to which this phase-out period can be extended under certain conditions. On 27 July 2007, the General Council adopted procedures<sup>21</sup> regarding the continuation of previously-granted Article 27.4 extensions for certain subsidy programmes.<sup>22</sup> These procedures require annual updating notifications in respect of the programmes benefitting from extensions. At its fall 2012 regular meeting, the Committee granted the final extensions pursuant to these procedures, for calendar year 2013, based on the information notified in 2012.<sup>23</sup> The table in [Annex I](#) lists the programmes of the nineteen Members covered by these extensions. The final two-year phase-out period referred to in Article 27.4 began on 1 January 2014 for these programmes, such that the export subsidies thereunder had to be eliminated not later than 31 December 2015.<sup>24</sup> The Members with extensions were required to provide transparency notifications in respect of each of the two years of phase-out (in 2015 covering 2014, and in 2016 covering 2015).<sup>25</sup> To date, fifteen of the beneficiary Members have submitted these final transparency notifications which were circulated in the [G/SCM/N/299/...](#) series.<sup>26</sup>

### **2.2.2.2 Notifications in Connection with the Export Competitiveness of a Member in a Given Product (Article 27.6)**

20. Article 27.5 of the SCM Agreement provides that a developing Member which reaches export competitiveness in a given product has to phase out its export subsidies for that product within two years. For Members in Annex VII which reach export competitiveness, this period is eight years. Under Article 27.6, export competitiveness may be determined either on the basis of a notification by the developing Member at issue, or on the basis of a computation by the Secretariat conducted at the request of any Member. No developing Member has made such a notification of its own export competitiveness.

### **2.2.2.3 Notification of Privatization Subsidies under Article 27.13**

21. Article 27.13 of the SCM Agreement exempts, for a limited period of time, certain subsidies granted in connection with privatization programmes provided certain conditions are met. The table in [Annex J](#) provides a list of notifications made under this provision.

## **2.2.3 Notifications under the Transitional Arrangements Set Out in Article 28.1(a)**

22. Article 28.1(a) of the SCM Agreement requires the notification of subsidy programmes in existence before the date a Member signed the WTO Agreement and which were inconsistent with the SCM Agreement. [Annex K](#) provides the list of notifications made under Article 28.1(a). This provision is no longer applicable.

## **2.2.4 Notifications under the Transitional Arrangements Set Out in Article 29.3**

23. Article 29.3 of the SCM Agreement requires the notification of certain subsidies granted by Members which were in a process of transformation from a centrally-planned economy into a market

<sup>21</sup> [WT/L/691](#).

<sup>22</sup> The procedures on which the extensions were originally granted are contained in document [G/SCM/39](#).

### 3 NOTIFICATION OF SUBSIDIES IN THE CONTEXT OF WTO ACCESSIONS

24. In the context of accessions to the WTO, applicants are expected to provide information on (export) subsidies in the chapter on policies affecting trade in goods of the memorandum on their foreign trade regime.<sup>27</sup> Applicants typically make a commitment to submit a subsidy notification under Article 25 of the SCM Agreement after the entry into force of their protocol of accession:

"The representative of [X] confirmed that any subsidy programmes would be administered in conformity with the Agreement on Subsidies and Countervailing Measures and that all necessary information on programmes would be notified to the Committee on Subsidies and Countervailing Measures in accordance with Article 25 of the Agreement upon entry into force of [X's] Protocol of Accession."<sup>28</sup>

25. In most cases, this commitment is contained in the relevant working party report.<sup>29</sup>

---

<sup>27</sup> See the outline format for a memorandum on a foreign trade regime in document [WT/ACC/1](#). Applicants have also frequently provided information on subsidies by submitting (draft) subsidy notifications under Article 25 of the SCM Agreement during the accession process.

<sup>28</sup> P. J. Williams, *A Handbook on Accession to the WTO* (2008), pp. 92-93; WTO Secretariat, *Technical Note on the Accession Process*, [WT/ACC/10/Rev.3](#), 28 November 2005, pp.127-131.

<sup>29</sup> In the case of China, paragraph 10.1 of the Protocol of Accession provides that China shall provide a subsidy notification under Article 25 of the SCM Agreement, while Annex 5 of the Protocol contains a notification submitted by China during the accession process. As reflected in paragraph 173 of the Working Party Report on China's accession to the WTO, the Working Party took note of a commitment by China to "progressively work towards a full notification of subsidies, as contemplated by Article 25 of the SCM Agreement".

In the case of Russian Federation, a specific timeline for the submission of this notification - 180 days after accession - was included in the Working Party Report on Russia's Accession (at Table 38 of Annex 2).

In the case of Kazakhstan, the Working Party Report on Kazakhstan's Accession stipulated that the relevant notification was to be submitted 120 days after accession (Table 4 at para. 1150).

In the case of Afghanistan, the Working Party Report on Afghanistan's Accession provides that all necessary information on notifiable programmes would be notified to the WTO Committee on Subsidies and Countervailing Measures according to Article 25 of the Agreement upon entry into force of Afghanistan's Protocol of Accession.

In the case of Liberia, the Working Party Report on Liberia's Accession stipulated that the relevant notification was to be submitted within six months of the entry into force of Liberia's Protocol of Accession.

**ANNEX A****RELEVANT PROVISIONS OF THE SCM AGREEMENT***Article 8**Identification of Non-Actionable Subsidies*

8.3 A subsidy programme for which the provisions of paragraph 2 are invoked shall be notified in advance of its implementation to the Committee in accordance with the provisions of Part VII. Any such notification shall be sufficiently precise to enable other Members to evaluate the consistency of the programme with the conditions and criteria provided for in the relevant provisions of paragraph 2. Members shall also provide the Committee with yearly updates of such notifications, in particular by supplying information on global expenditure for each programme, and on any modification of the programme. Other Members shall have the right to request information about individual cases of subsidization under a notified programme.<sup>34</sup>

---

<sup>34</sup> It is recognized that nothing in this notification provision requires the provision of confidential information, including confidential business information.

*Article 25**Notifications*

25.1 Members agree that, without prejudice to the provisions of paragraph 1 of Article XVI of GATT 1994, their notifications of subsidies shall be submitted not later than 30 June of each year and shall conform to the provisions of paragraphs 2 through 6.

25.2 Members shall notify any subsidy as defined in paragraph 1 of Article 1, which is specific within the meaning of Article 2, granted or maintained within their territories.

25.3 The content of notifications should be sufficiently specific to enable other Members to evaluate the trade effects and to understand the operation of notified subsidy programmes. In this connection, and without prejudice to the contents and form of the questionnaire on subsidies<sup>54</sup>, Members shall ensure that their notifications contain the following information:

- (i) form of a subsidy (i.e. grant, loan, tax concession, etc.);
- (ii) subsidy per unit or, in cases where this is not possible, the total amount or the annual amount budgeted for that subsidy (indicating, if possible, the average subsidy per unit in the previous year);
- (iii) policy objective and/or purpose of a subsidy;
- (iv) duration of a subsidy and/or any other time-limits attached to it;
- (v) statistical data permitting an assessment of the trade effects of a subsidy.

25.4 Where specific points in paragraph 3 have not been addressed in a notification, an explanation shall be provided in the notification itself.

25.5 If subsidies are granted to specific products or sectors, the notifications should be organized by product or sector.

25.6 Members which consider that there are no measures in their territories requiring notification under paragraph 1 of Article XVI of GATT 1994 and this Agreement shall so inform the Secretariat in writing.

25.7 Members recognize that notification of a measure does not prejudice either its legal status under GATT 1994 or this Agreement, or the effects under this Agreement, or the nature of the measure itself.

25.8 Any Member may, at any time, make a written request for information on the nature and extent of any subsidy granted or maintained by another Member (including any subsidy referred to in Part IV), or for an explanation of the reasons for which a specific measure has been considered as not subject to the requirement of notification.

25.9 Members so requested shall provide such information as quickly as possible and in a comprehensive manner, and shall be ready, upon request, to provide additional information to the requesting Member. In particular, they shall provide sufficient details to enable the other Member to assess their compliance with the terms of this Agreement. Any Member which considers that such information has not been provided may bring the matter to the attention of the Committee.

25.10 Any Member which considers that any measure of another Member having the effects of a subsidy has not been notified in accordance with the provisions of paragraph 1 of Article XVI of GATT 1994 and this Article may bring the matter to the attention of such other Member. If the alleged subsidy is not thereafter notified promptly, such Member may itself bring the alleged subsidy in question to the notice of the Committee.

25.11 Members shall report without delay to the Committee all preliminary or final actions taken with respect to countervailing duties. Such reports shall be available in the Secretariat for inspection by other Members. Members shall also submit, on a semi-annual basis, reports on any countervailing duty actions taken within the preceding six months. The semi-annual reports shall be submitted on an agreed standard form.

25.12 Each Member shall notify the Committee (a) which of its authorities are competent to initiate and conduct investigations referred to in Article 11 and (b) its domestic procedures governing the initiation and conduct of such investigations.

---

<sup>54</sup> The Committee shall establish a Working Party to review the contents and form of the questionnaire as contained in BISD 9S/193-194.

## *Article 26*

### *Surveillance*

26.1 The Committee shall examine new and full notifications submitted under paragraph 1 of Article XVI of GATT 1994 and paragraph 1 of Article 25 of this Agreement at special sessions held every third year. Notifications submitted in the intervening years (updating notifications) shall be examined at each regular meeting of the Committee.

## *Article 27*

### *Special and Differential Treatment of Developing Country Members*

27.4 Any developing country Member referred to in paragraph 2(b) shall phase out its export subsidies within the eight-year period, preferably in a progressive manner. However, a developing country Member shall not increase the level of its export subsidies<sup>55</sup>, and shall eliminate them within a period shorter than that provided for in this paragraph when the use of such export subsidies is inconsistent with its development needs. If a developing country Member deems it necessary to apply such subsidies beyond the 8-year period, it shall not later than one year before the expiry of this period enter into consultation with the Committee, which will determine whether an extension of this period is justified, after examining all the relevant economic, financial and development needs of the developing country Member in question. If the Committee determines that the extension is justified, the developing country Member concerned shall hold annual consultations with the Committee to determine the necessity of maintaining the subsidies. If no such determination is made

by the Committee, the developing country Member shall phase out the remaining export subsidies within two years from the end of the last authorized period.

27.5 A developing country Member which has reached export competitiveness in any given product shall phase out its export subsidies for such product(s) over a period of two years. However, for a developing country Member which is referred to in Annex VII and which has reached export competitiveness in one or more products, export subsidies on such products shall be gradually phased out over a period of eight years.

27.6 Export competitiveness in a product exists if a developing country Member's export of that product has reached a share of at least 3.25 per cent in world trade of that product for two consecutive calendar years. Export competitiveness shall exist either (a) on the basis of notification by the developing country Member having reached export competitiveness, or (b) on the basis of a computation undertaken by the Secretariat at the request of any Member. For the purpose of this paragraph, a product is defined as a section heading of the Harmonized System Nomenclature. The Committee shall review the operation of this provision five years from the date of the entry into force of the WTO Agreement.

27.13 The provisions of Part III shall not apply to direct forgiveness of debts, subsidies to cover social costs, in whatever form, including relinquishment of government revenue and other transfer of liabilities when such subsidies are granted within and directly linked to a privatization programme of a developing country Member, provided that both such programme and the subsidies involved are granted for a limited period and notified to the Committee and that the programme results in eventual privatization of the enterprise concerned.

---

<sup>55</sup> For a developing country Member not granting export subsidies as of the date of entry into force of the WTO Agreement, this paragraph shall apply on the basis of the level of export subsidies granted in 1986.

## *Article 28*

### *Existing Programmes*

28.1 Subsidy programmes which have been established within the territory of any Member before the date on which such a Member signed the WTO Agreement and which are inconsistent with the provisions of this Agreement shall be:

- (a) notified to the Committee not later than 90 days after the date of entry into force of the WTO Agreement for such Member; and
- (b) brought into conformity with the provisions of this Agreement within three years of the date of entry into force of the WTO Agreement for such Member and until then shall not be subject to Part II.

28.2 No Member shall extend the scope of any such programme, nor shall such a programme be renewed upon its expiry.

## *Article 29*

### *Transformation into a Market Economy*

29.1 Members in the process of transformation from a centrally-planned into a market, free-enterprise economy may apply programmes and measures necessary for such a transformation.

29.2 For such Members, subsidy programmes falling within the scope of Article 3, and notified according to paragraph 3, shall be phased out or brought into conformity with Article 3 within a period of seven years from the date of entry into force of the WTO Agreement. In such a case, Article 4 shall not apply. In addition during the same period:

- (a) Subsidy programmes falling within the scope of paragraph 1(d) of Article 6 shall not be actionable under Article 7;
- (b) With respect to other actionable subsidies, the provisions of paragraph 9 of Article 27 shall apply.

29.3 Subsidy programmes falling within the scope of Article 3 shall be notified to the Committee by the earliest practicable date after the date of entry into force of the WTO Agreement. Further notifications of such subsidies may be made up to two years after the date of entry into force of the WTO Agreement.

29.4 In exceptional circumstances Members referred to in paragraph 1 may be given departures from their notified programmes and measures and their time-frame by the Committee if such departures are deemed necessary for the process of transformation.

#### *Article 32*

##### *Other Final Provisions*

32.6 Each Member shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.
