SUBSIDIES

QUESTION POSED BY THE UNITED STATES REGARDING THE NEW AND FULL NOTIFICATION OF GEORGIA¹

The following communication, dated and received on 24 January 2022, is being circulated at the request of the delegation of the United States.

The United States poses the following question regarding a program that does not appear to be contained in the notification.

Question

Based on the State Department's Investment Climate Statement, we understand that Georgia maintains a "produce in Georgia program" aimed to develop and support entrepreneurship, encourage creation of new enterprises, and increase export potential and investment in the country by providing access to finance and real property to entrepreneurs. Why has Georgia not notified this program?
