Committee on Safeguards

Original: English

NOTIFICATION UNDER ARTICLE 12 OF THE AGREEMENT ON SAFEGUARDS

**NOTIFICATION PURSUANT TO ARTICLE 9, FOOTNOTE 2
OF THE AGREEMENT ON SAFEGUARDS**

EUROPEAN UNION

Certain Steel Products

Supplement

The following communication, dated and received on 26 May 2022, is being circulated at the request of the delegation of the European Union.

Pursuant to Articles 12.1(c) of the Agreement on Safeguards, the European Union ('the Union') submits a notification of proposed adjustments to safeguard measures following a Review investigation. This notification contains all pertinent information relating to the proposed adjustments to safeguard measures in accordance with Article 12.2 of the Agreement on Safeguards and an offer of consultations pursuant to Article 12.3 of the Agreement on Safeguards.

1. Provide precise description of the product involved

(1) The product concerned is certain steel products belonging to the 26 steel product categories listed in Annex I to this Notification.

2. Provide precise description of the proposed measure

Legal basis

(2) By Commission Implementing Regulation (EU) 2021/1029¹ ('the Prolongation Regulation'), the Commission prolonged the safeguard measure until 30 June 2024.

(3) In recital (85) of the Prolongation Regulation, the Commission stated "in order to keep in the meantime the operation of the safeguard adapted to market evolution and in line with the interest of all stakeholders, the Commission will undertake a functioning review, like those conducted in 2019 and 2020. Such functioning review will be initiated sufficiently in advance to introduce any needed changes from 1 July 2022, after the first year of prolongation".

(4) Accordingly, the Commission initiated a functioning review investigation by means of a Notice of Initiation ('NOI') published in the Official Journal of the European Union on 17 December 2021² inviting interested parties to make their views known and submit evidence concerning in particular the following grounds of review:

(a) Allocation and management of quotas;

¹ Commission Implementing Regulation (EU) 2021/1029 of 24 June 2021 amending Commission Implementing Regulation (EU) 2019/159 to prolong the safeguard measure on imports of certain steel products, (OJ L 225 I, 25.6.2021, p.1).

² Notice of Initiation concerning a review of the safeguard measure applicable to imports of certain steel products (2021/C 509/10), OJ C 509, 17.12.2021, p.12.

- (b) Crowding out of traditional trade flows;
 - (c) Update of the list of developing countries subject to the measure;
 - (d) Level of liberalisation;
 - (e) Impact on the measure due to the changes in the US Section 232 measure.
- (5) On 24 May, the European Union adopted a regulation³ allowing for temporary trade liberalisation and other trade concessions with regard to certain Ukrainian products. When it enters into force, this regulation will, *inter alia*, temporarily suspend the application of the steel safeguard measure *vis-a-vis* Ukraine⁴.

Adjustments proposed under the Review

- (6) The Commission proposes to introduce some adjustments to the ongoing safeguard measure. The adjustments proposed are described below under headers corresponding to the grounds of review identified in the Notice of Initiation of the Review Investigation.

A. Level and allocation of the Tariff-Rate Quota ('TRQ') for a number of product categories

- (7) While the current system of quota allocation and administration is appropriate, the Commission nevertheless considered that it requires some technical adjustments to improve its functioning in light of changed circumstances. These concern product categories 7 (quarto plates) and 17 (angles, shapes and sections).
- (8) In these two product categories, Ukraine has been historically an important exporter (representing around 33% of total quotas in each of these categories) and it has consistently used its quotas at rather high levels. However, the Commission observed that since the unprovoked and unjustified military aggression of Russia against Ukraine, there have been virtually no imports of these two categories from Ukraine into the Union. This suggests that Ukraine is currently unable to produce and/or export these products in any meaningful volumes to the Union market. Under these circumstances, and having analysed the quota use by other exporting countries subject to the measure, the Commission considered that there would be a risk of potential shortage of supply for Union users in these categories if it did not take any action.
- (9) For this reason, in the Union interest, the Commission considered it necessary to globalise the administration of the quotas that remain under the measure in categories 7 and 17. In other words, the existing country specific quotas will be removed in order to make instead a single quota available for all origins, hence substantially increasing the flexibility for users to import the steel they may need from any source available within the quota volume in these categories.
- (10) The Commission concluded that given the past track record of imports in terms of volumes (quota use) and origins, this adjustment does not risk undermining the effectiveness of the measure *vis-a-vis* Union producers and it is unlikely that any crowding out would take place and that the traditional trade flows will be preserved.

B. 'Crowding out' of traditional trade flows

- (11) In the ongoing review, the Commission assessed whether crowding out effects had taken place. To do so, the Commission, based on the analysis of the second review, updated the different regimes based on the data available since then. This means that the Commission analysed import data and quota use per origin and category from 1 April 2020 until 31 March 2022.

³ <https://www.consilium.europa.eu/en/press/press-releases/2022/05/24/ukraine-council-adopts-temporary-trade-liberalisation-with-ukraine/>

⁴ The effect of this suspension will be that, as long as it remains in place, imports from Ukraine are not accounted for in any quota, either country-specific or residual (even if Ukraine's quotas continue to appear in Annex III). Similarly, the volumes of imports by Ukraine during the reference period of the original investigation (2015-2017) are not accounted for the calculation of the residual quotas.

-
- (12) On the basis of the same methodology applied in the second functioning review, but with updated data, the access regimes per product category are updated as follows (for specific volumes see Annex III.3):
- No access: 5, 9, 21
 - Limited access: 12, 13, 14, 16, 20, 27
 - No limitation: 2, 3A, 3B, 4A, 6, 10, 15, 18, 19, 22, 24, 25B, 26, 28.
- (13) In line with the principles applied in the previous functioning review, the following categories will be subject to a special regime:
- 1, 4B
- (14) In the case of categories 7, 8, 17 and 25A, they will be administered globally. Therefore, the possibility to access Q4 is not applicable, as there are no countries exporting under a country-specific quota.
- (15) For categories 1 and 4B, the current regime whereby access is granted in Q4 with a 30% cap per exporting country continues to be deemed appropriate in order to ensure sufficient variety of sources of supply while avoiding crowding out effects through an excessive flow of additional imports beyond traditional trade flows.
- (16) Overall, by this feature the measure would continue allowing access to the residual quota in Q4 in the large majority of product categories.

C. Update of the list of developing WTO member countries excluded from the scope of the measure based on updated import statistics

- (17) Following the adoption of the definitive safeguard measure, the Commission committed to reviewing, on a regular basis, the list of developing countries potentially excluded from the scope of the measure based on updated import statistics.
- (18) For updating the list of exclusions from the measure under the second Review, the Commission will use the more updated and representative set of consolidated statistics, i.e. the full year 2021.
- (19) The results of this analysis are presented in Annex II to this Notification.

D. Level of liberalisation

- (20) The current liberalisation rate of the safeguard was set at an annual rate of 3%. The Commission assessed in this investigation whether this level of liberalisation continued to be appropriate.
- (21) The safeguard instrument is intended to be of a temporary nature. As of 1 July 2022, the measure will enter into its fifth year of application. The objective of liberalisation (which is a legal obligation under WTO⁵ and EU⁶ rules) is to progressively allow more import competition into the market while the domestic industry is adjusting to it. This is to avoid a measure that would not incentivise adjustments for domestic industry while it is in place, and which would create problems of competitiveness when the domestic industry will be exposed to greater foreign competition in a post-safeguard measure scenario.
- (22) With this logic in mind, the Commission considered that at this point in time (after four years of measure) a slightly higher level of liberalisation year-on-year should be envisaged in order to encourage the domestic industry to continue its adjustments, while being mindful not to undermine the effectiveness of the measure.
- (23) The Commission considered that setting the yearly level of liberalisation at 4% as of 1 July 2022 would be appropriate.

⁵ Article 7.4 of the WTO Agreement on Safeguards

⁶ Article 19.4 of Regulation (EU) 2015/478

- (24) Following the adjustments described in Sections A to D above, the TRQs and the allocation of quotas among supplying countries are set out in Annexes III.1 and III.2.

E. Changes to US Section 232 measures and effects on EU Safeguard measure

- (25) In addition to the assessment described in Sections A to D above, the European Union also assessed whether any of the changes to the US Section 232 measure had any effect to the EU safeguard measure requiring an adjustment.
- (26) The European Union concluded that the changes to the US Section 232 measure did not justify any adjustment to the EU Safeguard measure. Therefore, because no adjustments are proposed in this respect, the detailed reasoning on this section will be included in the legal act that is currently subject to EU's internal decision-making and which will be published before 1 July 2022.

F. Other claims

- (27) Equally, the legal act will contain the Commission's specific rebuttals to any other claims brought up by interested parties and which did not lead to any adjustments to the measure.

3. Provide proposed date of introduction of the measure

- (28) The proposed date for the entry into force of the adjustments to the measure is 1 July 2022.

4. Provide expected duration of the measure

- (29) The measure are expected to be in place until 30 June 2024 (pending the outcome of the next review investigation), as foreseen by recital (85) of the Prolongation Regulation.

5. For a measure with a duration of more than three years, provide the proposed date for the review (under Article 7.4) to be held not later than the mid-term of the measure, if such a date for the review has already been scheduled

- (30) Not applicable

6. If the expected duration is over one year, provide expected timetable for progressive liberalisation of the measure

- (31) The definitive measures will be liberalised by increasing the level of the TRQ for all product categories by 4% for the period 1 July 2022 – 30 June 2023, and 1 July 2023 – 30 June 2024.

7. Provide information relating to the extension of a safeguard measure

- (32) Not applicable

8. Exclusion of certain countries from the scope of the definitive measure

- (33) The Review of the definitive measure shows that imports of certain product categories originating in a series of developing countries meet the requirements of Article 9 of the WTO Agreement on Safeguards and should therefore be excluded (See Annex II).

9. Procedures relevant to the decision to apply the measure and information regarding procedures for prior consultations with those Members having a substantial interest as exporters of the product concerned

- (34) Members having a substantial interest as exporters of the product subject to the investigation that wish to consult with the European Union may make a request through the EU Mission in Geneva. These consultations shall be held with the European Commission services (via videoconference preferably) during the period **27 May – 3 June 2022**.

ANNEX I

List of product categories subject to the Review investigation

Product Number	Product category
1	Non Alloy and Other Alloy Hot Rolled Sheets and Strips
2	Non Alloy and Other Alloy Cold Rolled Sheets
3.A	Electrical Sheets (other than GOES)
3.B	
4.A	Metallic Coated Sheets
4.B	
5	Organic Coated Sheets
6	Tin Mill products
7	Non Alloy and Other Alloy Quarto Plates
8	Stainless Hot Rolled Sheets and Strips
9	Stainless Cold Rolled Sheets and Strips
10	Stainless Hot Rolled Quarto Plates
12	Non Alloy and Other Alloy Merchant Bars and Light Sections
13	Rebars
14	Stainless Bars and Light Sections
15	Stainless Wire Rod
16	Non Alloy and Other Alloy Wire Rod
17	Angles, Shapes and Sections of Iron or Non Alloy Steel
18	Sheet Piling
19	Railway Material
20	Gas pipes
21	Hollow sections
22	Seamless Stainless Tubes and Pipes
24	Other Seamless Tubes
25A	Large welded Tubes
25B	Large welded Tubes: others
26	Other Welded Pipes
27	Non-alloy and other alloy cold finished bars
28	Non Alloy Wire
