Original: Spanish

**DECLARATION OF AREAS FREE FROM BOLL WEEVIL  
(*ANTHONOMUS GRANDIS*)**

COMMUNICATION FROM MEXICO

*Corrigendum*<sup>1</sup>

The following communication, dated 23 January 2015, is being circulated at the request of the delegation of Mexico.

\_\_\_\_\_

The second paragraph on the first page should read as follows:

2. The notified Decision declares the State of Chihuahua, the municipality of Sierra Mojada in the State of Coahuila and the municipalities of Álamos, BÁCUM, Benito Juárez, Cajeme, Etchojoa, Huatabampo, Navojoa and San Ignacio Río Muerto in the State of Sonora, to be areas free from boll weevil (*Anthonomus grandis*). It furthermore states that, in accordance with the procedures indicated in Mexican Official Standard NOM-026-FITO-1995 establishing cotton plant pest controls and Mexican Official Standard NOM-069-FITO-1995 on the establishment and recognition of pest-free areas, phytosanitary measures were introduced to determine the absence of boll weevil (*Anthonomus grandis*), on the basis of phytosanitary status assessments carried out by the Directorate-General of Plant Health of the National Agriculture and Food Health, Safety and Quality Service of Mexico.
