The notified Decision declares the municipalities of Cohuecán and Tianguismanalco, Puebla, to be areas free from the large avocado seed weevil (*Heilipus lauri*), the small avocado seed weevil (*Conotrachelus aguacatae* and *C. perseae*) and the avocado seed moth (*Stenoma catenifer*), in view of their compliance with the phytosanitary provisions issued through Mexican Official Standard NOM-069-FITO-1995 on the establishment and recognition of pest-free areas and Mexican Official Standard NOM-066-FITO-2002 establishing specifications for the phytosanitary management and movement of avocados.

3. The above-mentioned declaration is based on phytosanitary measures taken to determine the absence of these pests following phytosanitary status assessments carried out by the State Delegation of the Ministry of Agriculture, Livestock, Rural Development, Fisheries and Food (SAGARPA) in Puebla and by the Directorate-General of Plant Health, which belongs to the decentralized administrative body SENASICA.

This declaration is expected to contribute to the objective of improving the phytosanitary status of avocado-growing areas in Mexico and to strengthen the domestic and international avocado trade.
