**THE TEMPLATE OF PLANT PROTECTION PRODUCT MANUFACTURER CERTIFICATE
FOR TÜRKIYE**

COMMUNICATION FROM TÜRKIYE

The following document, received on 17 June 2022, is being circulated at the request of the Delegation of Türkiye.

1. The authorization procedure of plant protection products is carried out in accordance with the procedures and principles specified in the "Veterinary Services, Plant Health, Food and Feed Law" numbered 5996 and "Regulation on Authorization of Plant Protection Products and Placing Them on the Market".
2. In this context, one of the documents subject to license in license applications for plant protection products submitted to the Ministry of Agriculture and Forestry is the "Manufacturer Certificate".
3. The "Manufacturer Certificate" shall be approved or apostilled by the Turkish Republic Representative Office in that country and show the active substance, active substance ratio and formulation obtained from the authorized institution that gives the production permit, stating that the producer is the manufacturer of the plant protection product in question at the specified address.
4. Thereby, it is aimed to have uniformity in the dossiers/applications submitted and evaluate the authorization applications more accurately in line with the information to be obtained from the relevant countries.
5. Within this scope, for imported plant protection products:
 - a. The template annexed that we define as the "Manufacturer Certificate", which includes information about the production in the relevant facility regarding products produced for export or produced within the borders of the country but not considered as a plant protection product in that country or products authorised in their countries and exported at the same time shall be issued and approved by your country (authorized institution);
 - b. A new/updated document must be submitted to the Ministry of Agriculture and Forestry within three months from the expiry date for producer certificates whose validity period has expired. In case the producer's certificates are not renewed within the specified period, the product license is cancelled.
6. In order to ensure a smooth flow of international trade, we invite our trade partners to provide the aforementioned information in the trade of plant protection products with our country.
