Committee on Sanitary and Phytosanitary Measures

NOTIFICATION

- Notifying Member: <u>CANADA</u>
 If applicable, name of local government involved:
- 2. Agency responsible: Health Canada
- 3. Products covered (provide tariff item number(s) as specified in national schedules deposited with the WTO; ICS numbers should be provided in addition, where applicable): Transglutaminase (ICS Codes: 67.220, 67.120.10)
- 4. Regions or countries likely to be affected, to the extent relevant or practicable:
 - [X] All trading partners
 - [] Specific regions or countries:
- 5. **Title of the notified document:** Health Canada's Proposal to Remove "Solid cut meat with or without added phosphate salts" from the List of Foods that are Permitted to Contain Transglutaminase in the *List of Permitted Food Enzymes* Reference Number: NOP/AVP-0020 **Language(s):** English and French **Number of pages:** 4
- 6. **Description of content:** Following the approval of the enzyme transglutaminase for use as a binding agent in certain prepackaged poultry products and meat products, including solid cut meat, Health Canada's Food Directorate received a number of inquiries related to the possibility of microbial contamination in the interior of meat products that are formed from smaller pieces of meat using transglutaminase. Health Canada subsequently revisited the safety assessment by considering the manner in which consumers might reasonably be expected to prepare meat and poultry products made using transglutaminase and did identify a potential food safety risk.

Consequently, it is the intention of Health Canada to modify the *List of Permitted Food Enzymes* (http://hc-sc.gc.ca/fn-an/securit/addit/list/5-enzymes-eng.php) by removing the food category "Solid cut meat with or without added phosphate salts" from column 3 in the entry for sub-item T.01(8).

The purpose of this communication is to publically announce the Department's intention in this regard and to provide the appropriate contact information for any inquiries or for those wishing to submit any new scientific information relevant to the safety of this food additive.

- 7. Objective and rationale: [X] food safety, [] animal health, [] plant protection, [] protect humans from animal/plant pest or disease, [] protect territory from other damage from pests.
- 8. Is there a relevant international standard? If so, identify the standard:
 - [] Codex Alimentarius Commission (e.g. title or serial number of Codex standard or related text)
 - [] World Organization for Animal Health (OIE) (e.g. Terrestrial or Aquatic Animal Health Code, chapter number)

[] International Plant Protection Convention (e.g. ISPM number) [X] None Does this proposed regulation conform to the relevant international still [] Yes [] No If no, describe, whenever possible, how and why it deviates international standard: 9.
