Committee on Sanitary and Phytosanitary Measures

Original: English/French

NOTIFICATION

Addendum

The following communication, received on 5 October 2020, is being circulated at the request of the Delegation of Canada.

Established Maximum Residue Limit: Azoxystrobin

The proposed maximum residue limit (PMRL) document for azoxystrobin notified in G/SPS/N/CAN/1308 (dated 8 June 2020) was adopted 30 September 2020. The proposed MRLs were established via entry into the Maximum Residue Limits Database and are provided directly below:

<u>MRL (ppm)¹</u>	<u>Raw Agricultural Commodity (RAC) and/or Processed Commodity²</u>
10	Bearberries, bilberries, cloudberries, lingonberries ³ , muntries, and partridgeberries

¹ppm = parts per million

²Strawberries are excluded from this MRL action as an MRL of 10 ppm is already established for this commodity.

³This MRL replaces the MRL of 3 ppm currently established for azoxystrobin in/on this commodity.

Please note that the PMRA has received a comment during the consultation period concerning the proposed MRL for lowbush blueberries (under PMRL2020-05) that resulted in maintaining the existing MRL of 3 ppm for lowbush blueberries.

MRLs established in Canada may be found using Health Canada's *Maximum Residue Limit Database* (<http://pr-rp.hc-sc.gc.ca/mrl-lrm/index-eng.php>) on the *Maximum Residue Limits for Pesticides* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html>). The database allows users to search for pesticides or for food commodities.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

- Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy):

Agency or authority designated to handle comments: [] National Notification Authority, [] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: [] National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

The specified MRLs have been provided above and are also accessible from the MRL webpage as indicated below:
