NOTIFICATION

Addendum

The following communication, received on 17 May 2021, is being circulated at the request of the Delegation of Canada.

Established Maximum Residue Limit: Flupyradifurone

The proposed maximum residue limit (PMRL) document for flupyradifurone notified in G/SPS/N/CAN/1371 (dated 11 February 2021) was adopted 10 May 2021. The proposed MRLs were established via entry into the Maximum Residue Limits Database and are provided directly below:

<u>MRL (ppm)¹</u>	<u>Raw Agricultural Commodity (RAC) and/or Processed Commodity</u>
9.0	Celtuce, fresh Florence fennel leaves and stalks
8.0	Tropical and subtropical palm fruits, edible peel (crop subgroup 23C)
6.0	Kohlrabies
3.0	Sesame seeds
0.70	Sunflowers (crop subgroup 20B) (revised), Texas prickly pear pads
0.30	Pineapples
0.01	Stalk and stem vegetables (crop subgroup 22A, except celtuce ² , fresh Florence fennel leaves and stalks ² , kohlrabies ³ , prickly pear pads ⁴ , Texas prickly pear pads ⁵)

¹ ppm = parts per million

² Celtuce and fresh Florence fennel leaves and stalks are excluded from this MRL action as a separate MRL of 9.0 ppm is now established for these commodities.

³ Kohlrabies is excluded from this MRL action as a separate MRL of 6.0 ppm is now established for the commodity.

⁴ Prickly pear pads are excluded from this MRL action as an MRL of 0.70 ppm is already established for the commodity.

⁵ Texas prickly pear pads are excluded from this MRL action as a separate MRL of 0.70 ppm is now established for the commodity.

An MRL is established for each commodity included in the listed crop groupings in accordance with the *Residue Chemistry Crop Groups* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html>) in the Pesticides and Pest Management section of the Canada.ca website.

MRLs established in Canada may be found using Health Canada's *Maximum Residue Limit Database* (<http://pr-rp.hc-sc.gc.ca/mrl-lrm/index-eng.php>) on the *Maximum Residue Limits for Pesticides* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html>). The database allows users to search for pesticides or for food commodities.

This addendum concerns a:

- Modification of final date for comments
 Notification of adoption, publication or entry into force of regulation

- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

- Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable.

Agency or authority designated to handle comments: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

The specified MRLs have been provided above and are also accessible from the MRL webpage as indicated below:

<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html> (English)
