NOTIFICATION

Addendum

The following communication, received on 25 September 2015, is being circulated at the request of the Delegation of the European Union.

Maximum residue levels for propiconazole and spiroxamine in or on certain products

The notified annex to the draft Regulation sets proposed maximum residue levels for propiconazole and spiroxamine in Annex II to Regulation (EC) No 396/2005. MRLs for these substances in certain commodities are lowered. Lower MRLs are set after updating the limit of determination and/or deleting old uses which are not authorized any more in the European Union or for which there is not enough data for an MRL to be set.

Comments are welcome only to MRLs that were changed.
