6. Description of content: In accordance with Regulation (EU) 2017/625, certain categories of animals and goods from third countries should always be presented for official controls at the border control post of entry into the Union. This Implementing Regulation establishes the lists of the different animals and products of animal origin, germinal products, animal by-products and derived products, hay and straw and composite products to be presented for official controls at border control posts with the indication of their respective Combined Nomenclature (CN) code provided for in Council Regulation (EEC) No 2658/87. As new conditions for the entry into the Union of composite products start to apply from 21 April 2021 in accordance with Commission Delegated Regulation (EU) 2019/625 it is necessary to repeal Decision 2007/275/EC and include CN codes of composite products into this single list. This Implementing Regulation does not lay down new CN codes subject to checks at border control posts, but rather integrates CN codes of composite products into a single list due to repealed Decision 2007/275.
