Committee on Sanitary and Phytosanitary Measures

Original: English

NOTIFICATION OF EMERGENCY MEASURES

Addendum

The following communication, received on 20 November 2013, is being circulated at the request of the Delegation of the Republic of Korea.

Addition of one associated plant for Sudden Oak Death Disease

The Animal and Plant Quarantine Agency (QIA), Ministry of Agriculture, Food and Rural Affairs (MAFRA) in the Republic of Korea, has modified the "Phytosanitary measures to prevent the introduction of Sudden Oak Death (SOD) Disease (addition of one new associated plant, *Gaultheria procumbens*). (Please refer to attachment.)

This measure is applied to any propagative materials such as nursery stocks (including root stock), cuttings and scions (except seeds and fruits), and woods (including logs) with bark of host or associated plants.

For the importation of these associated plants from the prohibited areas and from the regulated areas, a phytosanitary certificate (PC) with the following additional declaration will be required for the consignment shipped on and after 22 November 2013.

"The shipment was inspected and found free of *Phytophthora ramorum*."

And in case of the United States of America, the name of state and county is required on the PC as additional declaration.
