**JOINT STATEMENT ON ELECTRONIC COMMERCE**

COMMUNICATION FROM THE GAMBIA

The following communication, dated 23 October 2023, is being circulated at the request of the delegation of The Gambia.

---

The Gambia is pleased to announce that it will join the WTO Joint Statement initiative on E-commerce (JSI). Digital transformation of the economy is a major priority of The Gambia's national development plan, and we strongly believe that the JSI can complement our aspirations in that regard.

We look forward to constructively engaging with the co-convenors and the ever-growing number of like-minded States participating in the negotiations for the creation of global baseline rules for digital trade.
