

Sub-Committee on Cotton**DIRECTOR-GENERAL'S CONSULTATIVE FRAMEWORK
MECHANISM ON COTTON**EVOLVING TABLE – 35TH VERSION^{1,2}*Revision***Explanatory Notes**

1. The attached Table is divided into four Parts³, as follows:

- Part I: Cotton Specific Development Assistance. This is assistance directly related to the cotton sector.
- Part II: Agriculture and Infrastructure-Related Development Assistance. This is assistance related to cotton when provided under more general agricultural or infrastructure support programmes.
- Part III: National Cotton Sector Focal Points. This Part provides the coordinates for focal points established by assistance beneficiaries for their engagement with the bilateral and multilateral development communities.
- Part IV: Cotton-related development assistance requests submitted by Members. This Part compiles project requests presented before the Consultative Mechanism by beneficiary developing country Members seeking for technical and/or financial assistance.⁴

¹ This Evolving Table (ET) reflects a modified structure, based on the understanding with Members and other participants at the 15th Round of the DGCFMC on 15 July 2011. In the modified structure, all the projects, programmes and activities in the "completed" category have been transferred "out" of the active operational table, and are now annexed to this ET as Annexes 1 and 2, with the title "Completed Activities".

² This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights and obligations under the WTO.

³ As agreed at the 26th Round of the DGCFMC on 23 November 2016, the Evolving Table on Cotton henceforth focuses on committed resources related to the cotton sector. The available resources from multilateral institutions, mainly from the IMF and the World Bank, that could potentially be used by governments to support their cotton sector on the basis of national development or poverty-reduction priorities, previously shown in Part III of this Table, can be accessed through the following web links: <http://www.imf.org/external/np/fin/tad/exfin1.aspx> (IMF data by country); and <https://projects.worldbank.org/> (World Bank projects and operations, including by country, sector and theme).

⁴ As agreed at the 34th Round of the DGCFMC on 12 November 2020, the Evolving Table on Cotton lists the cotton-related development assistance requests submitted by Members in line with paragraph 10 of the Bali Ministerial Decision (WT/MIN(13)/41) and paragraph 11 of the Nairobi Ministerial Decision (WT/MIN(15)/46).
