Methodology

Domestic support data is sourced from a Member's annual notification to the WTO
Exchange rates source: International Financial Statistics (IFS) - period average
Database only includes Members that have submitted a DS:1 notification since 2001
Includes all domestic support reported and available on <https://docs.wto.org/> as of September 1, 2021
Does not include Members that are now part of the European Union
When information was available, all deflated numbers were converted back to nominal values
Data on value of production was source from Members' WTO notifications, when the series was complete since 2001 or date of accession. Otherwise data from the United Nations Food and Agriculture Organization (FAO) was used as a proxy.
Data on AMS was sourced from Supporting Table DS:4 exclusively. Negative numbers from Supporting Table DS:4 were excluded in all AMS calculations.

Note: FAO VOP data was updated in its entirety due to a full dataset update by the FAO on March 18th, 2021.
