Name of programme or project	Implementation of the Functional Review and Action Plan for the Energy Division of the Ministry of Infrastructure, Rwanda.
<b>Date and end date</b>	1 June 2018 - 1 June 2021
<b>Beneficiary Member(s) or Observer(s)</b>	Rwanda
<b>Brief description</b>	<p>Technical Assistant Services of the project aim to assist, facilitate and accompany the strengthening of the institutional capacities of the Ministry of Infrastructure (MININFRA) as well as other public stakeholders in the Energy Sector. Overall, international experts have been recruited to guide, mentor, and monitor the process of improvements of the capacities of the units of the Ministry dealing with the Energy sector, and contribute to reinforce the sector coordination and strategic orientations. The technical assistance services are intended to support MININFRA and its Energy Division by strengthening coordination with sector stakeholders and elaborating their strategic policies. More specifically, the purpose of this contract is to assist the Ministry of Infrastructure in the implementation of the recommendations and action plan of the Functional Review of the Ministry that took place in 2016 under the support of Belgium and the European Union. Additional institutional support may be provided to other partners such as Rwanda Energy Group or Rwanda Utilities Regulatory Authority. The process is primarily accompanied and lead by an Institutional Development Expertise following the already existing assessment and recommendations of the Functional Review.</p>
<b>Beneficiary institution or audience</b>	Energy Division of the Ministry of Infrastructure/Rwanda
<b>Technical cooperation provider(s)</b>	The providers are short-term individual experts from all over the world (Europe, Canada, Africa, Rwanda, etc) recruited under contract, while the team leader comes from Denmark.
<b>Outputs or impact</b>	The overall objective of this contract is to strengthen the institutional capacities of MININFRA in the short, medium and long term in order for the ministry to fulfil its mandate as described under the energy sector's policy and strategy framework.

Name of programme or project	IP Key China
<b>Date and end date</b>	1 September 2017 - 31 August 2021
<b>Beneficiary Member(s) or Observer(s)</b>	China
<b>Brief description</b>	<p>The IP Key China Action is an international cooperation project in the field of intellectual property (IP) funded by the European Commission and implemented in China and the European Union. The Action has an implementation period of 48 months and a total budget of 7 million EUR, of which 14.29% (1 million EUR) is a contribution from the European Union Intellectual Property Office (EUIPO). The Action is funded under the Partnership Instrument<sup>1</sup> for cooperation with third countries financial instrument for the EU external actions. The overall objective of the action is to promote a more level playing field for European Union companies operating in China by contributing to greater transparency and fair implementation of the IPR protection and enforcement system in China.</p>
<b>Beneficiary institution or audience</b>	<p>European Union businesses will benefit from improved IPR protection as well as through the achievement of adequate and effective functioning of IP administration institutions and enforcement procedures in China. Furthermore, companies and right-holders should benefit from an increase in the technical expertise of China on how to improve IPR related regulations, as well as in regard to the implementation of trade agreements with the EU. In China the highly innovative businesses will equally profit from the more transparent and efficient IP rights registration and enforcement system and the economy in general will profit from the improved environment for the attraction of foreign investments. Moreover, EU business will benefit from enhanced access to information on China's registers of IP rights, which is crucial to their business and IP protection strategies abroad. These will be facilitated through the implementation of innovative tools and databases created by The EU Intellectual Property Network (EUIPN). The final beneficiaries will be reached mainly through active involvement of key business support and multiplier organizations operating in Europe and China, as well as Industry representatives and umbrella organisations.</p>
<b>Technical cooperation provider(s)</b>	EUIPO

Name of programme or project	IP Key China
<b>Outputs or impact</b>	<p>The Action has been designed to attain the above mentioned objective by focusing on six concrete results defined by the Commission. - R.1. Improved situation in priority areas defined during the annual EU China IP Dialogue: since 2015, the priority areas of future cooperation between the EU and China in the area of IP are defined in the EU-China IP Dialogues taking place once a year. The Action will contribute to improving the situation in the priority areas through a set of targeted activities, accounting for the flexibility required to adapt to changes in the priority areas, which currently are (being updated by IP Dialogue on annual basis). - R.2. Enhanced understanding and trust through regular exchange activities: the Action will provide for regular exchange activities between IP system stakeholders and experts on both sides (via exchange visits, conferences, seminars, workshops etc.), aimed at creating a common understanding, building trust and achieving tangible results in line with the defined priority areas. - R.3. EU-China IP Working Groups supported effectively: the Action will provide ad-hoc support, in form of support activities for the EU-China IP Dialogue Mechanism (IP Dialogues and IP Working Groups), and in form of translations of Chinese documents, in particular draft legislative acts, which the EU is invited to comment upon. This result aims to support the EU in enhancing the effectiveness of the IP Dialogue through efficient coordination, exchange and planning. - R.4. Modernized IP administration and enforcement practices and tools: under this result, the EUIPO would prioritize action targeting an increased uptake of EU IT tools by the local IP Offices to improve access to the IP system and to facilitate processing of IP applications and registrations. - R.5. Awareness raised on the importance of Intellectual Property, its protection and enforcement: this result should be attained by facilitating increased actions directed towards the promotion of the understanding of the importance of IP protection from the perspective of social and economic development, and to favour foreign investment. - R.6. Improved information sharing through information management system (IMSI and document repository: to ensure a sufficient institutional memory and easy accessibility by all interested stakeholders of the documents emanating from the project (such as reports, studies, surveys).</p>

<b>Name of programme or project</b>	<b>ASEAN Regional Integration Support from the EU (ARISE Plus) – Component 2: Intellectual Property Rights (ARISE+ IPR)</b>
<b>Date and end date</b>	1 January 2018 - 31 December 2022
<b>Beneficiary Member(s) or Observer(s)</b>	Brunei Darussalam; Cambodia; Indonesia; Lao People's Democratic Republic; Malaysia; Myanmar; Philippines; Singapore; Thailand; Viet Nam

<b>Name of programme or project</b>	<b>ASEAN Regional Integration Support from the EU (ARISE Plus) – Component 2: Intellectual Property Rights (ARISE+ IPR)</b>
<b>Brief description</b>	The ARISE Plus Intellectual Property Rights (ARISE+ IPR) programme is one of the components under the Enhanced ASEAN Regional Integration Support from the European Union or ARISE Plus. The five-year, €5.5 million ARISE+ IPR programme builds on the strong cooperation developed between the EU and the ASEAN Member States in the area of intellectual property and supports ASEAN in meeting its goals set out in the ASEAN IPR Action Plan 2016 – 2025. The specific objective of ARISE+ IPR is to "support ASEAN regional integration and further upgrade and improve the systems for IP creation, protection, utilization, administration and enforcement in the ASEAN region, in line with international IP best practice and standards and the recently approved ASEAN IPR Action Plan 2016-2025". ARISE+ IPR covers trademarks, industrial designs, geographical indications and enforcement. ARISE+ IPR comprises four components: Expected Result 1: Enhanced regional IP platforms and network of strengthened and more efficient ASEAN IP Offices delivering timely, quality and accessible trademark and design services to stakeholders, including the business community. Expected Result 2: Effective participation of the ASEAN Member States in global protection systems and other relevant international treaties in the IP field. Expected Result 3: Increased awareness on the importance of IP protection in the ASEAN society and improved capacity of the productive sector to create, protect, utilize, commercialize and enforce their IP rights in the ASEAN region. Expected Result 4: Strengthened capacity of the IP administration in Cambodia, Lao PDR and Myanmar to fully participate in the project initiatives and promote innovation in their countries.
<b>Beneficiary institution or audience</b>	Department of Intellectual properties in the ASEAN Member states
<b>Technical cooperation provider(s)</b>	European Union Intellectual Property Office (EUIPO)
<b>Outputs or impact</b>	Output 1.1: Improved IP administration frameworks by delivering timely, quality, and accessible trade mark and industrial design services through automation and enhanced human resource capacity Output 1.2: Convergence of practice in the areas of trademarks, industrial designs, and geographical indications Output 1.3: Support to the ASEAN Regional IT Tools Output 1.4: Technical Support to the Creation of an ASEAN IP Academy Output 2.1 : Legal and Technical Support to the Implementation of Global and IP Protection Systems and the effective use of the international classification systems Output 3.1 : Enhanced the Capabilities of the SMEs and creative sectors to use the trademark and design systems to protect their creations Output 3.2 : Effective use of geographical indications (GIs) in ASEAN Output 3.3 : Support to IPR Enforcement in the ASEAN Region Output 4.1 : Improved IP Administrations in Cambodia and Lao PDR Output 4.2 : Support to the IP institution building in Myanmar and the development of the national IP system. Results achieved: During the inception period and the first year of implementation 23 activities were organised, focusing mainly on capacity building of the ASEAN IP Offices, particularly through technical support activities and training. A regional approach was used for all activities and gender-balance for participants was ensured as much as possible.

<b>Name of programme or project</b>	<b>ARISE+ Indonesia Trade Support Facility Priority area 4: IPR focusing on Geographical Indications</b>
<b>Date and end date</b>	2 January 2019 - 1 January 2023
<b>Beneficiary Member(s) or Observer(s)</b>	Indonesia
<b>Brief description</b>	ARISE+ Indonesia has the objective of enhancing Indonesia's capacity to boost trade performance and competitiveness through capacity strengthening of key government institutions and stakeholders on a wide range of areas within international trade, competitiveness and business environment. Support to further development and promotion of GIs is one of key components covered by the programme. Technical assistance in GI areas will be focused on 1) tailored support addressing practical challenges faced by the producers and key issues along the entire value chain; 2) improvement of regulatory framework: GI protection and enforcement, quality control conformance, national labeling and value chain management; 3) National branding and promotion strategy of GI products. During the inception phase (January-June 2019) the programme did mapping and identification of GI products to be the focus of ARISE+Indonesia support, based on a set of pre-identified parameters and in agreement with DGIP of the Indonesian Ministry of Law and Human Rights. Furthermore, a series of consultations were held with relevant ministries and donor-funded programmes to identify potential collaborations, including with the ARISE+ regional project, FAO, TAIEX, EUIPO, Italy and ISIP of Switzerland. Indicative resources allocation: 872 man days and EUR 557,200 incidentals
<b>Beneficiary institution or audience</b>	DGIP Ministry of Law and Human Rights, Ministry of Agriculture, Ministry of Trade, Ministry of Industry, BEKRAF, local governments, producers and farmers associations, etc.
<b>Technical cooperation provider(s)</b>	Cardno Belgium
<b>Outputs or impact</b>	Expected outcomes: 1) Capacities of farmer communities and GI producer associations enhanced across the value chain of their products 2) Improved regulatory framework and institutional capacities on GI governance 3) Branding and promotional strategy for Indonesia GIs and relevant products established

<b>Contact point for further information</b>	Nur Isravivani (task manager ARISE+ Indonesia), EU Delegation to Indonesia and Brunei Darussalam. E-mail: nur.isravivani@ec.europa.eu Paula Norris (team leader ARISE+ Indonesia), E-mail: paula.norris@cardno.com.au

<b>Name of programme or project</b>	<b>The ASEAN Regional Integration Support from the EU Plus - Lao PDR (ARISE+ Lao PDR)</b>
<b>Date and end date</b>	1 November 2018 - 31 October 2022
<b>Beneficiary Member(s) or Observer(s)</b>	Lao People's Democratic Republic

<b>Name of programme or project</b>	<b>The ASEAN Regional Integration Support from the EU Plus - Lao PDR (ARISE+ Lao PDR)</b>
<b>Brief description</b>	ARISE+ Lao PDR is the national Lao component of the regional ARISE+ programme supporting regional economic integration under focal sector 1 of the 2014-2020 Multiannual Indicative Programme for Asia. In line with the new European Consensus on Development "Prosperity" chapter and its focus on inclusive and sustainable growth and jobs, it supports the Government of Lao PDR to reap the benefits of regional integration in line with multilateral trade frameworks such as the WTO Agreement on Trade Facilitation (TFA). ARISE+ Lao PDR aims to promote inclusive economic growth, increased climate change resilience, mitigation of vulnerability (especially due to the dependence on a limited number of sectors and markets) and job creation in Lao PDR, in particular to (1) improve the business environment in targeted sectors with a focus on regional economic integration (ASEAN); and (2) increase trade and participation in global value-chains in targeted sectors.
<b>Beneficiary institution or audience</b>	Government of Lao PDR, particularly MoIC, including Department of Trade Promotion, Department of Planning and Co-operation, National Implementation Unit ; other line Ministries such as Ministry of Agriculture and Forestry, Ministry of Science and Technology; Trade and Investment Support Institutions, including Lao National Chamber of Commerce and Industry, European Chamber of Commerce and Industry in Lao PDR.
<b>Technical cooperation provider(s)</b>	The International Trade Centre
<b>Outputs or impact</b>	1. Increased regional economic integration by addressing specific constraints in targeted sectors through support for the implementation of measures contained in the ASEAN Trade in Goods Agreement (ATIGA) and other commitments under the ASEAN Economic Community Blueprint 2025; 2. Increased awareness on trade preferences for exports, including to the European Union, with greater use of Everything But Arms (EBA), and on the requirements for placing products on the EU market; advanced preparation of Lao PDR to shift to a new trade preference scheme (post-EBA); 3. Strengthened support services (especially for smallholders and SMEs, with a focus on women), reduction of supply-side constraints, and trade and investment promotion in targeted sectors (e.g. wood processing and agro-based products).

<b>Name of programme or project</b>	<b>Project: Integral tools to identify and mitigate cocoa-contaminated areas with Cadmium in the North Amazon and Manabi</b>
<b>Date and end date</b>	1 September 2018
<b>Beneficiary Member(s) or Observer(s)</b>	Ecuador
<b>Brief description</b>	The objectives of the ongoing project are: a) Analyse in 30 cocoa farms, through different techniques the concentration of Cd in cocoa soils and almonds for the identification of pollution sources, sources of contamination and differences with agroforestry systems; b) Monitor (bimonthly) the content of Cd in almonds (dried and fermented) in collection centres and suggest, if possible, how to build physical mixtures that allow compliance with European regulations; c) Evaluate systematically and holistically in six demonstration farms, the efficiency of Cd mitigation plans in soils in the provinces under study and; d) Strengthen the knowledge of the actors regarding the problem of Cd and the potential of mitigation strategies in cocoa through on-site training workshops. In order to meet these objectives, several activities are being implemented, such as the determination of Cd in cocoa ecosystems, the monitoring of the presence of Cd in collection centres.
<b>Beneficiary institution or audience</b>	The cocoa sector and the Country as a whole
<b>Technical cooperation provider(s)</b>	Studies, trainings and seminars
<b>Outputs or impact</b>	In the second period 2019-2020, the mitigation strategies will be evaluated in the six selected farms and activities of transfer of results will be implemented. This will guarantee that Ecuadorian producers and exporters of cocoa comply with EU regulations on Cadmium MLR.

<b>Name of programme or project</b>	<b>EU-EAC MARKUP: Burundi intervention under the Partner States Window</b>
<b>Date and end date</b>	25 July 2018 - 24 July 2022
<b>Beneficiary Member(s) or Observer(s)</b>	Burundi

Name of programme or project	EU-EAC MARKUP: Burundi intervention under the Partner States Window
<b>Brief description</b>	This project consists of national interventions under the Partner States Window of the EU-EAC Market Access Upgrade Programme – MARKUP funded by the 11th European Development Fund. This project complements the interventions provided under the EAC Window which will also be implemented in Burundi by the International Trade Centre (ITC). The action aims at addressing both supply side and market access constraints in coffee, tea and horticulture sectors, supporting the participation in regional and global value chains, with a particular focus on exports to the European Union (EU). The focus will be on strengthening the National Quality Infrastructure services to enforce compliance with sanitary and phytosanitary (SPS) measures and technical regulations in Burundi, with particular focus on coffee and tea sectors. The selection of these sectors was guided by the requests from country stakeholders, priority value chains in the country's development plans and strategies, importance in the creation of exports revenue and impact on poverty reduction. Horticulture will also benefit indirectly from the institutional strengthening activities provided by this project. These priorities were identified in consultation with country partners during the project identification phase in 2016 and confirmed during the programming mission conducted by ITC in September 2017. Broad consultations with the Government of Burundi, the EAC Secretariat and other development partners and country stakeholders ensured country ownership of the project.
<b>Beneficiary institution or audience</b>	Direct beneficiaries: - Burundi Bureau of Standards and Quality Control (BBN) - Regulatory Authority of the Burundi Coffee Sector (ARFIC) - Burundi Tea Office (OTB) - Centre National de Technologie Alimentaire (CNTA) - InterCafe Burundi - Direction de Protection Vegetale - SMEs in coffee, tea and horticulture sectors Beneficiaries and Partners under ERs also include: Main Government Ministries, Departments, Standard/quality organizations and public institutions, trade and investment support institutions Final beneficiaries: Men and women employed in export-related businesses in the coffee and tea value chains and other horticulture value chains
<b>Technical cooperation provider(s)</b>	International Trade Centre
<b>Outputs or impact</b>	R1. National Quality Infrastructure framework, inspection and certification services strengthened R2. Laboratory testing capacities for coffee/tea improved R3. Quality related extension services strengthened

<b>Name of programme or project</b>	<b>Mobile in Primary Health for quality monitoring and health promotion. Contract Ref - AFS/2012/ 303-073</b>
<b>Date and end date</b>	24 October 2012 - 23 June 2016
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	The objective of the project is to strengthen the demand for quality health services through the use of mobile communications.
<b>Beneficiary institution or audience</b>	For poorer people with basic phones (25% of cell phone users) and all other cell phone users, Pregnant women and mothers to address maternal & child health.
<b>Technical cooperation provider(s)</b>	Cell-Life Organisation
<b>Outputs or impact</b>	This cell phone-based system will allow people to express their opinion on the health system, inform people how to make a complaint if they wish, and can provide some information on Patients' Rights. Encourage healthy behaviours through supportive mobile services; and promote disease prevention and social behaviour change communications.

<b>Name of programme or project</b>	<b>Building capacity by implementing MHGAP mobile intervention in SADC countries (Erasmus+ Capacity building project)</b>
<b>Date and end date</b>	30 September 2017 - 1 October 2020
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	This is a Cross-regional project. Promoting mental health is one of the main targets of UN 's SDG 2030. It has raised focus on the prevention and treatment of non-communicable diseases, including children and adolescent mental health disorders, which constitute a major challenge for sustainable development. Keeping young people healthy has a positive impact on productivity and competitiveness. The project aims to find new solutions to promote mental health and prevent depression.
<b>Beneficiary institution or audience</b>	Higher Education Institutions (HEIs) and scholars
<b>Technical cooperation provider(s)</b>	TURUN AMMATTIKORKEAKOULU OY, Finland
<b>Outputs or impact</b>	The quality, modernization and capacity building of Higher Education Institutions (HEIs) in South Africa and Zambia is achieved by introducing innovation pedagogy related to mental health education. As a result the HEIs will be able to reach the Higher Education to the European standards. 1) To map the SADC countries landscape related to primary health care workers 2) To develop mobile application of WHO's mhGAP IG child and adolescent depression part 3) To develop eLearning materials and innovation pedagogy solutions 4) To train the trainers and educate primary health care workers 5) To implement and evaluate the mobile version of mhGAP child and adolescent depression version 6) To disseminate the results on policy, HEI, professional and public 7) To raise knowledge about environmental influence on mental health.

<b>Name of programme or project</b>	<b>Direct Current Technology: Renewable Energy Education and Skill Development in South Africa [DCTREES], (Erasmus+ Capacity building project)</b>
<b>Date and end date</b>	30 September 2017 - 1 October 2020
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	The project aims to develop a new educational program on Direct Current (DC) technologies for South African (SA) universities, in order to supply the country with adequately trained professionals it needs to overcome its challenges in the field of electrical engineering.
<b>Beneficiary institution or audience</b>	South African (SA) universities
<b>Technical cooperation provider(s)</b>	STICHTING HOGER BEROEPSONDERWIJN HAAGLANDEN EN RIJNSTREEK, Netherlands
<b>Outputs or impact</b>	A transition to more sustainable energy, connection of rural areas to the grid and a more stable energy network. The project will develop Direct Current program in universities which is lacking in South Africa (SA), containing a theory, lab practice and industry assignments part. The program will be implemented by the participating SA universities, covering all parts of, and representing over 50% of all electrical engineering students in, SA.

<b>Name of programme or project</b>	<b>Smallholder access to high value horticultural markets. Contract Ref - ENV/2017/ 391-377</b>
<b>Date and end date</b>	15 January 2018 - 14 January 2021
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	The overall objective of the action is to support emerging (male and female) smallholder producers of fresh horticultural produce with access to the high value domestic markets in South Africa. Specific objectives that will be delivered before the end of the project include: a) Formal acceptance of a single horticultural market entry-level standard for sustainability, quality and safety of fresh produce adapted to smallholder conditions b) 30 clusters of smallholder vegetable producers (m/f) are certified and meet entry-level sustainability, quality and safety standards, thereby having a higher net income of >30% and creating year-round employment for at least 3,750 rural poor c) development of an implementable and accessible sustainability toolkit, which can be adapted to different contexts, for use by smallholders, support organizations and service providers d) Local partners in South Africa (AFASA) have the capacity for supporting smallholders to adopt the new sustainability, quality and safety standard
<b>Beneficiary institution or audience</b>	African Farmers Association of South Africa (AFASA) and (b) 750 emerging commercial vegetable farms (2-3 ha of land) in five provinces in South Africa.
<b>Technical cooperation provider(s)</b>	Solidaridad
<b>Outputs or impact</b>	ICT-tool developed to support continuous sustainable improvement and to record data on horticultural production by emerging commercial growers, as well as open source to all (including market buyers). Emerging commercial vegetable growers in five South African provinces will gain access to the high value markets by adopting sustainable production systems. A harmonised entry-level standard for sustainable and safe production of fresh horticultural produce (based on GlobalGAP and applicable local social standards) will be defined for smallholder conditions.

<b>Name of programme or project</b>	<b>Promoting youth civic engagement and advocacy to build safer communities through youth-led radio initiatives at community radio stations across South Africa. Contract Ref - CSO-LA/2017/ 385-573</b>
<b>Date and end date</b>	13 June 2017 - 20 September 2019
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	- Through enabling youth to report on and host interactive radio broadcasts directed at youth around issues of crime, violence, and community safety, the initiative will increase the broader community's awareness of the local dynamics of violence and crime prevention. - The initiative will build strong networks between youth focused community-based organisations and community radio stations. - Create opportunities for young people to play an active role in building safer communities. - Community-based reporting on youth's lived experience of crime and violence across diverse urban, peri-urban, and rural communities will also be sourced to inform public policy, including the Firearms Control Act and the Safety and Security and Police White Papers.
<b>Beneficiary institution or audience</b>	In-school youth (15-23) in 16 communities across South Africa
<b>Technical cooperation provider(s)</b>	CHILDREN'S RADIO FOUNDATION
<b>Outputs or impact</b>	Through enabling young people (15-23 years old) to report on and host interactive radio broadcasts directed at youth around issues of crime, violence, and community safety, the initiative will increase the broader community's awareness of the local dynamics of violence and crime prevention. This builds youth reporter's skills to serve as leaders and peers educators within their communities, leading to additional advancement and employment opportunities. - 32 broadcast hours per month by in-school youth around issues of crime, violence and community safety (= about 2 hours produced per month) - Note: Project identified the opportunity for the youth reporters to share their uploaded content on SoundCloud to build their personal profiles (and that of the project) more - Training curricula and material developed for youth reporters, facilitators and community radio staff - Trainings conducted

<b>Name of programme or project</b>	<b>Developing a national cadre of citizen journalists producing socially relevant content for dissemination across multi-media platforms. Contract Ref - CSO-LA/2017/ 386-675</b>
<b>Date and end date</b>	18 July 2017 - 17 August 2019
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa

<b>Name of programme or project</b>	<b>Developing a national cadre of citizen journalists producing socially relevant content for dissemination across multi-media platforms. Contract Ref - CSO-LA/2017/ 386-675</b>
<b>Brief description</b>	Big Fish and their co-applicant Health-e are undertaking a 25-month programme training a total of 150 young people (citizen journalists) in three cohorts on video production and storytelling for socially relevant topics. The courses run consecutively for 3-months in Cape Town, followed by 10-months of content production and mentorship for each group. It covers all aspects of planning and implementing video productions, including interviews, camerawork, and post-production, such as editing etc. The course also covers teaching of business- and life skills to the citizen journalists. Over the course of the programme, young journalists learn to represent the most marginalised groups in community who often fail to have their voices heard and recognized, through collaborating with various civil society organisations to create video stories and reports. Through this, the students learn skills to access the labour market, either by working independently, or finding a job within the production industry. Each citizen journalist is equipped with a mobile phone, microphone, laptop and editing software; this innovative approach gives them the opportunity to produce content on-the-go.
<b>Beneficiary institution or audience</b>	150 out of school youth from across South Africa
<b>Technical cooperation provider(s)</b>	BIG FISH SCHOOL OF DIGITAL FILMMAKING ASSOCIATION
<b>Outputs or impact</b>	The specific objective is a successfully developed cadre of active multi-media trained youth, with a minimum of 50% females as citizen journalists, who produce usable video content from their home in peri-urban and rural parts of South Africa. The filmmaking and editing skills (technology transfer) and equipment acquired increase employment and self-employment prospects for 150 South African youth. - 150 young people trained, of which 45% are female. - Number of pieces created during training: Aim – 300, achieved 300 - The programme has piloted a new approach in the visual journalism training, which is now considered a best practice, which Big Fish would like to roll out to all of its programmes: providing all students with their own mobile phone, microphone and laptop. Though owning these items makes students targets of theft as well, the benefits include allowing everyone to work and learn at their own pace on all aspects of content production, and students being able to work on-the-go, in the evenings and over the weekends. - An opportunity arose for the Citizen Journalists to apply for an extended course duration, which provides the participants with a National Certificate in Film and TV Production. A total of 115 out of 150 students continued with this course. The extended course has had a positive impact on deepening the technical skills of the students.

<b>Name of programme or project</b>	<b>Empowering universities' Learning and research caPacities in the one Health Approach for the maNagement of animals at the wildlife, livestock and human interface in south africa (ELEPHAN) (Erasmus+ Capacity building project)</b>
<b>Date and end date</b>	1 September 2019 - 1 September 2022
<b>Beneficiary Member(s) or Observer(s)</b>	South Africa
<b>Brief description</b>	ELEPHANT will empower South African HEIs' innovative research capacities by introducing the OH approach and modern research methodology and analyses. This will be achieved by theoretical and practical workshops in SA-EU, student and staff, peer to peer setting, in SA and in EU, and including (inter)national experts. A holistic approach of the interface between human, domestic and wild animals and environment interface will result in increased health, welfare and in the end poverty alleviation.
<b>Beneficiary institution or audience</b>	Universities, students, staff
<b>Technical cooperation provider(s)</b>	UNIVERSITEIT UTRECHT
<b>Outputs or impact</b>	Strengthening of relations between Higher Education Institutions (HEIs) and the wider economic and social environment. 1. Strengthening capacity in research of SA HEIs by implementing highly innovative research approach and methodology in the field of OH) 2. Creating a collaborative long-lasting multidisciplinary OH network delivering innovative research strategies. 3. Boosting the SA HEIs' capacity to collaborate with local and governmental authorities to achieve research-based knowledge integration in OH related policies. 4. Enhancing the SA HEIs' capacity to work together with communities in order to raise awareness on OH perspectives and approaches

This year's report of technical cooperation activities conducted by Sweden shows the continued commitment under Article 67 TRIPS. The international training programs carried out throughout the year Sweden proves that it takes the obligations under Article 67 TRIPS seriously.

The international training programs aim to enhance the participant's' understanding of intellectual property rights with a strong emphasis on its contribution to economic growth, trade and development. This in turn increases participating countries' ability to handle, address and deal with issues related to intellectual property at the national, subregional and regional levels as well in the international context.
