When closing the session of the Committee on 30 November 1983, the Chairman made the following points, which were accepted by the Committee.

1. The secretariat is invited to prepare a report on the Committee's discussions so far, highlighting the essential aspects which have emerged from the debate, and have it distributed by 15 February 1984. This document will form the basis for the Committee's work at its meeting in March 1984.

2. The Committee will also have an opportunity to revert to any remaining problems relating to the notifications, including reverse notifications which may have been submitted by then.

3. The next meeting of the Committee will begin on 5 March 1984 as previously agreed and will be continued for as long as is necessary.

4. The Chairman intends to convene a meeting of the Committee at senior policy level on 2 to 4 April 1984. Delegations which intend to attend the meeting at such a level are invited to advise the Secretariat accordingly at an early date.
