(c) **Comments by country maintaining the measures:**

Since 1932 the Alcohol Monopoly (Oy Alko Ab) has, with some modifications, the sole right to produce, import and sell alcoholic beverages in Finland in order to curb excessive consumption. In its pricing and purchasing policy foreign and domestic production are treated in a non-discriminatory way. Purchases are made in accordance with commercial considerations. The value of total alcohol imports was FM 78 million in 1981. Alcoholic beverages were imported from thirty-two countries.

Malt beverages are brewed in private breweries. Prices are determined and sales controlled by Alko. Imports and exports of such beverages are made by these breweries under the supervision of Alko. Other domestic alcoholic beverages are produced by certain enterprises on the same conditions as for malt beverages. Also the production, use, import and export of beverages containing more than 2.25 per cent ethyl alcohol are supervised by Alko.
