At the request of the representative of Uruguay, the fourth paragraph should be amended to read:

The representative of Uruguay, in thanking those delegations which had shown full understanding and co-operation for the difficulties Uruguay was facing at the present time, said that, in view of certain statements that had been made, he felt compelled to deplore the reasons given by those delegations for abstaining, adding that during the consultation with Uruguay his delegation had given a full account on the accusation of the so-called, by those delegations, flag discrimination. In fact, in his opinion, there was no case of such discrimination.
