ITEM 4 OF THE AGENDA

The following text has emerged from informal consultations between interested delegations and is being circulated to the members of the Council for consideration.

The Council adopts these reports on the understanding that with respect to these cases, and in general, economic processes (including transactions involving exported goods) located outside the territorial limits of the exporting country need not be subject to taxation by the exporting country and should not be regarded as export activities in terms of Article XVI:4 of the General Agreement. It is further understood that Article XVI:4 requires that arm's-length pricing be observed, i.e., prices for goods in transactions between exporting enterprises and foreign buyers under their or the same control should for tax purposes be the prices which would be charged between independent enterprises acting at arm's length. Furthermore, Article XVI:4 does not prohibit the adoption of measures to avoid double taxation of foreign source income.

Following the adoption of these reports the Chairman noted that the Council's decision and understanding does not mean that the parties adhering to Article XVI:4 are forbidden from taxing the profits on transactions beyond their borders, it only means that they are not required to do so. He noted further that the decision does not modify the existing GATT rules in Article XVI:4 as they relate to the taxation of exported goods. He noted also that this decision does not affect and is not affected by the Agreement on the Interpretation and Application of Articles VI, XVI and XXIII. Finally, he noted that the adoption of these reports does not affect the rights and obligations of contracting parties under the General Agreement.
