UNITED STATES - POSSIBLE SUSPENSION OF MOST-FAVOURED NATION TREATMENT TO POLAND

Draft Decision Submitted by Poland

The following communication was received from the Permanent Representative of Poland on 1 November 1982, with the request that it be circulated for consideration by the Council.

The Council,

Having considered the question of suspension by the United States of most-favoured nation tariff treatment of Poland under the General Agreement;

Mindful of the singular importance of such action and of its grave implications for the international trading system as embodied in the GATT;

Not accepting the justification of this measure given by the United States;

Urges the United States to restore immediately most-favoured nation tariff treatment to Poland.
