Brief summary of case in which definitive action was taken during 1974/1975

Louvre doors from Taiwan

An application for anti-dumping action against imports of louvre doors from Taiwan was accepted for investigation in August 1974. A provisional charge to anti-dumping duty of 30 per cent was imposed as from 19 September 1974.

This charge was imposed pending completion of the Department of Trade's enquiries as it seemed likely that serious losses would otherwise be suffered by the United Kingdom industry during the time required to complete the investigation.

Following the investigation it was concluded dumping had occurred and had caused material injury to the United Kingdom industry concerned. Accordingly the provisional charge to duty was confirmed as a substantive duty on 13 March 1975.
